*No.* 118.—*Notification.*—Notice is hereby given that the Lieutenant-Governor of Bengal proposes, under the provisions of section 6 of Act II (B.C.) of 1882, to declare that clause 6 of section 76 of that Act shall take effect over a tract of country extending for three miles from the right or north bank of Buxee khall, in pergunnah Mundulghat, in the district of Hooghly. The erection of any new embankment, or any addition to an existing embankment, or the obstruction or diversion of any watercourse within the tract above defined, without the previous permission of the Collector, is prohibited

*No.* 119.—*Notification.*—Notice is hereby given that the Lieutenant-Governor of Bengal proposes under sections 78, 79, 80, 81 and 99 of Act III (B.C) of 1876 to pass the following rules for carrying out the provisions of the said Act, with respect to the Sarun Canals. These rules will supersede those at present in force:—

1. In Notification No. 179, dated 18th August 1879, under the provisions of Part II of Act III of 1876, Government has reserved to itself the rights of property in the water in the following canals and river beds forming part of the Sarun irrigation scheme:—

1. Roopun Chap Sota.
2. The head cut.
3. The Daha river and the water channels in continuation of or in connection with it.
4. The Gandaki river and the water channels in continuation of or in connection with it.
5. The Dhaiai river and the water channels in continuation of or in connection with it.
6. Gangri river and the water channels in continuation of or in connection with it.

These canals and rivers will hereinafter be referred to as the Sarun Canals.

2. No person shall take water from the Sarun Canals for irrigation or manufacturing purposes without the written permission of a duly authorized person.

Licenses will be required—

(*a*)—For the construction of temporary dams in the canal beds.

(*b*)—For the irrigation of lands by flow or lift.

(*c*)—For the construction of village channels and distributaries leading from the canals for the irrigation of lands.

(*d*)—For water used for the purpose of any manufacture by any person other than a canal manager.

(*e*)—For the erection of fishing weirs or the use of fishing nets—(1) in the head cut; (2) in the new cuts from the Roopun Chap Sota to the Daha, Gandaki, Dhanai, and Gangri river beds; (3) in any other new cuts which may be made hereafter.

3. Government reserves at present its right to levy tolls for irrigation, and to charge for filling tanks, watering cattle, or for water for other domestic purposes.

4. The revenue administration of the Sarun irrigation scheme is vested in the Collector, who is ex-officio head of the Canal Revenue Department. The Executive Engineer of the Gunduck Division as canal officer is charged with the maintenance and management of the canals, but all orders passed by him under the Act or these rules are appealable to the Collector, under whose general directions he will act. All orders relating to the canal revenue will usually be issued by the Collector (through the Executive Engineer or not, as the case may be), and all correspondence intended for the Collector in this department should be addressed to the Collector direct, or through the Executive Engineer, Mozufferpore, or the Assistant Engineer, Gopalgunge.

5. For administrative purposes, the Sarun district is divided into the sub-districts enumerated in the following rule, and shown in a map deposited in the Collector's office. The boundaries of the sub-districts and their number may be hereafter modified.

6. The following guarantors are, till further orders, appointed canal managers, and will, within the under-mentioned sub-districts, act as the agents of Government in managing the affairs of the canals.

| | | |
|---|---|---|
| Manager of the Arua concern for the time being. | | |
| Ditto | Bansapali | ditto. |
| Ditto | Bahrowli | ditto. |
| Ditto | Burhoga | ditto. |
| Ditto | Harpur | ditto. |
| Ditto | Hatwa estates | ditto. |
| Ditto | Jogapur concern | ditto. |
| Ditto | Nowada | ditto. |
| Ditto | Rajapatti | ditto. |
| Ditto | Ramkola | ditto. |
| Ditto | Sadowa | ditto. |
| Ditto | Sitalpur | ditto. |

7. The more particular duties of a Canal Manager will be—

1*st*.—To receive applications and grant permits, printed in the prescribed form, for the use of water under sections 74, 75, and 77 of the Irrigation Act.

2*nd*.—Subject to the instructions of the canal officers to distribute, under the provisions of section 76, the water-supply allotted to his sub-district.

3*rd*.—To recover and credit to Government the water-rates.

4*th*.—To superintend and maintain such establishment as may be found necessary for the assessment and collection of water-rates within his sub-district.

8. Canal Managers have no power under Parts III, IV, and V of the Act; and all claims to remission under section 76 of Part VI should be referred to the canal officer or his assistant for disposal. Complaints regarding unauthorized use of canal water under sections 79, 80, and 81 are also to be referred to the canal officer or Collector for decision. All proceedings connected with the recovery of water-rates by distraint or other compulsory process will be undertaken by the Collector.

9. Any Manager desiring the construction of a temporary dam across the Roopan Chap Sota, or across the bed of the Daha, Gandaki, Dhanai, or Gangri rivers must prefer a written application to the canal officer specifying the object of the work and the length of time for which it is required. It will be at the discretion of the canal officer to reject the application or to grant it on such conditions as he may think fit, one of the conditions being the power reserved to the canal officer of cutting the bund, if it should ever appear to him, in the public interests, necessary to do so.

Provided, however, that no such dam shall be constructed without due provision being made, by means of a proper escape channel, for the supply to the guarantor or guarantors, on the same river below such dam, of the share of water to which he or they may be entitled under the decision of the canal officer.

10. Any person other than a Manager who may desire to construct a temporary dam across the bed of any of the rivers mentioned in the last rule must prefer his application to the Canal Manager in charge of the sub-district in which the site of the proposed dam lies. The latter will then forward the application with his remarks to the canal officer for orders.

11. Any person, whether he be a Canal Manager or not, who constructs a dam across any of the river beds referred to in Rule 9, without having first obtained the written permission of the canal officer, or who after the construction of an authorized dam, does or abets the doing of any act to impede the free flow of water through the escape channel provided for such dam, will be liable to prosecution under section 93, Act III (B.C.) of 1876, chapter XVII of the Indian Penal Code, or otherwise as may seem proper to the Collector.

12. With reference to Rule 7, paragraph 2 above, it will be competent to the Canal Manager, subject to the control of the canal officer, and on his own responsibility,* to allow the construction of such temporary dams in any of the village channels (subsidiary to the main river beds mentioned in Rule 9) within his sub-district, as he may consider necessary for the proper distribution of the water-supply allotted thereto.

* With reference to the possible damage to crops, &c.

13. If one or more of the riparian proprietors desire to have a permanent dam or regulator constructed in any channel or river bed, he or they shall present an application to that effect to the Collector, who will consult the Canal Manager and the canal officer as to the desirability of constructing such dam or regulator. Should its construction be deemed desirable, the Collector will cause plans and estimates to be prepared, and he shall also call upon the applicants to deposit the cost (including cost of establishment), or to give a guarantee securing its payment when required, and providing that, if the cost of the work should, through unforeseen causes, exceed the original estimate, the balance will be made good by the applicant. The agreement will also provide for the dam or regulator being kept in proper repair, as well as for its being taken over by Government at a fair valuation, should this ever be considered expedient. The construction of such dam or regulator will be carried out by the canal officer, who shall also have power to stop all supplies of water if it is not subsequently maintained in proper repair.

14. Each application for a permanent dam or regulator will be considered on its own merits, and will only be granted on such conditions as the Collector in consultation with the Superintending Engineer shall consider fit.

15. A register will be kept of the owners of each permanent dam or regulator, and any person may at any time apply to the canal officer to be made a joint owner. The canal officer may either reject such application, or if he think fit, he may issue a notice upon the registered owner or owners, and after hearing any objection which the registered owner or owners may prefer against the admission of such applicant to be a joint owner, in either case he shall report fully to the Collector, who may confirm the original rejection of the application, or may direct that the applicant be registered as such joint owner, on payment to the registered owner or owners of such sums as may be fixed by him.

16. Persons desiring to irrigate their fields with canal water by flow or lift, must apply in person or by agent to the Canal Manager, whereupon the latter shall issue a permit in the prescribed form (Appendix B). The right to irrigate without extra charge extends up to the 31st of March following the date on which the permit was issued; provided, however, that under the operation of this rule one and the same crop be not assessed more than once. The rate charged shall not exceed Re. 1 per acre (or 12 annas per bigha), irrespective of the crops grown, except in special cases to be determined by Government.

17. Any person other than a Canal Manager desirous of taking water for the manufacture of indigo must apply for a permit to the Canal Manager, stating the estimated outturn, and undertaking that he will, on the 1st of October, declare the quantity he has manufactured. The charge will be at the rate of Rs. 2 per maund of indigo manufactured.

18. No person may allow water to run to waste, and no person other than a Canal Manager may use water for irrigation or for any other purpose without having first obtained a permit as required by the preceding two rules. Any person infringing this rule will, with the consent in writing of the Collector (but not otherwise), be charged double the ordinary rates for the water used without authority or wasted, and will in addition be liable on prosecution by the Collector or canal officer, to the penalty provided by section 93 of Act III (B. C.) of 1876, or by any other law under which his offence may come. The charge in such cases will, as a rule, be laid by the Canal Manager by the submission to the canal officer or Collector of an "Unauthorized Irrigation Certificate." (*See* Appendix C.)

19. The privileges of guarantors are as follows:—

(1)—A prior claim to a supply of water for irrigation and manufacture during the continuance of their guarantee.

(2)—The right to use water for manufacturing purposes free of charge.

20. Any person may apply to the Collector to become a guarantor. If the Collector accept the application, which at his discretion he may or may not do, he shall proceed, in

communication with the canal officer, to determine whether the new guarantee shall be utilized towards extending the canals, providing distributaries or embankments, or towards reducing the responsibility of any of the original guarantors. If the original guarantor (within whose sub-district the applicant's property or interest is situated) claims a reduction in his guarantee, and can at the same time show that the application of the new guarantor towards an extension of the canal would operate to reduce his collections below the amount of his guarantee, his claims to have his guarantee reduced shall be considered: otherwise the new guarantee may be applied towards extending the canals, and an area corresponding to the applicant's property or interests be marked off to him, within which he shall exercise the rights and privileges now exercised in their sub-districts by the guarantors mentioned in paragraph 6 of these rules.

If the applicant's interest or property be not situated within any sub-district as specified in paragraph 6, then the Collector shall apply the guarantee towards extending the benefits of the canal system.

21. The irrigation year will commence on the 1st April; and as soon as possible after the irrigation of any land has been completed or the manufacture of indigo [by a person other than the Canal Manager] has been concluded, the Canal Manager shall present the persons who used the water with bills for water-rates (in a form approved by Government) based upon the actual area irrigated or the outturn of indigo manufactured. If these bills are not paid [*a*] in the case of indigo manufacture within one month after presentation, [*b*] in the case of *rubbi* crops by the 1st March, [*c*] in the case of other crops within one month after the crop irrigated has been cut, the Canal Manager shall, without delay, submit a list of such unpaid bills to the Collector, who will put in force the powers vested in him for the recovery of the amount due in accordance with sections 83, 84, and 85 of the Indian Irrigation Act. Such list must be supported by the counterfoils of the bills (Appendix D) prepared by the Manager, as well as by his personal certificate, that he has satisfied himself of the justness of the claims; and in the case of unauthorized irrigation, by the "Unauthorized Irrigation Certificates" (Appendix C) required by Rule 18.

22. The sums thus recovered by the Collector will be placed in his (the Collector's) accounts to the credit of the Canal Manager as a set off against the amount due from him under his guarantee for the year during which such recoveries are made. The Canal Manager will be entitled to a commission of 20 per cent. on all recoveries (over and above the amount of his guarantee), made either by himself or by the Collector on lists submitted on or before the 31st March. Sums due on this account will not be shown by the Manager in his accounts, but will be paid to him by cheque after the adjustment by the Collector of the year's accounts. No percentage allowance will be granted to the Manager in respect of recoveries made by the Collector on lists submitted later than the 31st March, although the amount of such recoveries will, as stated above, be credited to him as an asset against the amount of his guarantee.

23. For water used by a Manager for the irrigation of his own lands, he will be charged at the ordinary rate of Re. 1 per acre (or 12 annas per bigha), and for sums due on this account he will not be entitled to any commission allowance.

24. It will be the duty of Canal Managers—

*1st.*—To see that all permits for the use of water be issued in the prescribed form and a copy be kept in counterfoil in books supplied for the purpose.

*2nd.*—That copies of bills presented for payment be kept in the counterfoils supplied, for record.

*3rd.*—That a cash-book of all receipts of water-rates be kept in forms supplied for the purpose.

*4th.*—That for all cash received receipts be granted in the form supplied by the canal officer, which will be kept in counterfoil.

*5th.*—That all cash received be paid monthly into the sub-divisional or district treasury, and that the treasury receipts be filed with the cash-book as vouchers.

*6th.*—To submit such returns as may be required from time to time by the Collector.

*7th.*—To afford every facility to the canal officer and Collector in their periodical inspection of the Canal Managers' office and accounts.

25. The amount yearly guaranteed by each Manager is payable in two equal instalments, viz. on the 30th of June and the 31st December of each year, and any arrear due on either of these dates will be deemed to be a demand under Act VII (B. C.) of 1880, and shall be recoverable by the processes prescribed by the above Act.

26. A yearly adjustment up to the 31st March will be made of each Manager's account as soon as possible after the close of the official year (31st March). For this purpose each Manager will, by the 15th April, submit to the Collector in duplicate a statement in form Appendix D, with the entries of the first 12 columns duly filled in. The Collector will supply the figures for the remaining columns, and return one copy to the Manager with a cheque for the sum payable on account of commission as shown in column 15, should no arrears from him be due. The Collector will also require the immediate deposit by the Manager of any arrears which may be shown to be due. Such arrears if not paid within one month after due notice to the Manager, will be recoverable under the Certificate Procedure Act (VII B.C. of 1880).

If the Divisional Canal Officer reject the claim, he shall, if the petitioner so desire, give him a copy or extract of his order, and any appeal to the Collector under section 91, or to the Superintending Canal Officer in cases where that officer's decision is final, shall be accompanied by such copy or extract. Any such appeal shall be made within one month from the date on which the order was issued by the Divisional Canal Officer.

When an "objection" is presented in the first instance to a Sub-divisional Canal Officer, a copy of the order passed shall, on application, be given to the petitioner, and every "objection" presented to the Divisional Canal Officer shall be accompanied by such copy or by a statement that no previous "objection" has been presented to the Sub-divisional Canal Officer, or if such "objection" was presented, and the Sub-divisional Officer has omitted to pass any order, by a note of the date on which it was presented.

48. Objections, if orders have not been passed within 40 days from the date of their being filed in the office of the Divisional Canal Officer, may be presented direct to the Collector, if accompanied by a statement certifying the date on which they were so filed and that no order has been passed. The Collector shall then make such reference to the Divisional Canal Officer as may be necessary, and shall have discretion to suspend collections by a written order in cases where it may seem advisable to do so.

CALCUTTA, *the 30th March* 1885.

## SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 27TH OF MARCH 1885.

THE most prominent feature in the meteorology of the past week has been the rapid reduction of atmospheric pressure. During the previous week pressure had been very decidedly above the normal, and the excess pressure had been increasing even above that which had been recorded hitherto; thus the average excess pressure during the week ending on the 20th instant was no less than 0·072″, but the excess during the present week has fallen to 0·014″.

For the first three days of the present week the only noticeable features were the steadily reducing pressure, and the gradually increasing temperature. With the reducing pressure baric gradients gradually increased, and southerly moist winds gradually extended over almost the whole Province. On Tuesday, the 24th instant, pressure continued to fall even more rapidly, the fall being particularly rapid in Western Bengal and Chutia Nagpur, where in some cases it equalled a tenth of an inch. This rapid reduction of pressure accompanied the formation of a shallow area of barometric depression over Behar, around which there was a distinct tendency to cyclonic circulation of winds. On the following day, the 25th, pressure continued to fall, and the barometric depression was apparently passing from Behar to North Bengal, for the wind at Patna was north-west, at Hazaribagh it was west, at Burdwan it was south, and at Purneah it was east, thus showing a distinctly cyclonic circulation. On Thursday, the 26th instant, pressure for the only time during the week commenced to rise, but the wind directions showed that the weather was distinctly influenced by the barometric depression which slowly extended in a south-easterly direction, while at the same time small areas of depression appeared to form in South-West Bengal and Cachar. On the 27th, or the last day of the week, the area of depression in Behar, Chutia Nagpur and Central Bengal was distinctly marked, and was also accompanied by a slight tendency to cyclonic circulation of wind. It will thus be seen that, with the exception of one day, pressure has steadily decreased throughout the week, and in most districts, except East Bengal, it is now not far removed from the normal. In South Behar and Chutia Nagpur pressure has been during the week just equal to the average; in South-West Bengal, North Behar and Orissa pressure has been only about one-hundreth of an inch above the normal, while in East Bengal the average pressure has been nearly four-hundredths above the normal.

Temperature on the whole has been steadily rising throughout the week, but, perhaps scarcely so rapidly as is usual in the southern districts; and thus, while the temperature in Orissa, South-West and East Bengal has been somewhat below the normal, in Behar and Chutia Nagpur it has been rather above the normal. Maximum temperatures have, however, very decidedly increased during the week, and in some cases very high temperatures have been recorded. Thus, on the 27th instant, Midnapore reported a temperature of nearly 108°, while Cuttack, Gya and Chybassa reported temperatures between 101° and 102°.

As has been noticed above, the weather conditions began to be slightly disturbed on the 25th instant, and on this day, as well as on some of the previous days of the week, some showers of slight importance only were reported. As the disturbed conditions became more pronounced on the 26th, heavy rain, accompanied frequently by thunderstorms, became more general, and rain was reported from many stations in South-West, East and North Bengal. On the 27th, however, rain was general only in North Bengal, and particularly in the hill districts of that division. On the whole, however, the rainfall over the whole Province has been small throughout the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 27th of March 1885:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

* A special census of the Europeans in the Darjiling Municipality was recently taken as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be considered as a basis of calculation owing to the results of the census under this head not having been recorded under the authorised form of age classification.

*Shoals in Northern approaches to Trinkitat Harbour.*

THE Admiralty, London, has notified that information has been received, of the existence of two shoals lying in the approach to Trinkitat or Taring-hatah harbour from the northward.

1. A shoal apparently about 1 cable in extent, with 4 fathoms on it, and 8 fathoms close around, lies with north extreme of the detached reef outside Trinkitat harbour bearing S by W ½ W, distant one and half miles.

Position—Latitude 18° 41′ 20″ N; longitude 37° 44′ 50″ E.

2. The outer edge of a shoal, with 3 fathoms on it, lies with north extreme of the reef outside Trinkitat, bearing S E by S, distant 5 cables, thus narrowing the approach to the harbour to about 4½ cables: within this 3 fathoms the depth decreases quickly to one fathom. This shoal probably fringes the coast from the north entrance point of Trinkitat harbour to Rás Makdah.

NOTE.—The above shoals are not indicated by discolouration of the water. Vessels from the northward are therefore recommended to pass the islets and reefs north of Rás Makdah at the distance of about 3 miles, and to approach Trinkitat with the northern extreme of the detached reef outside the harbour on a S W bearing, a careful look-out being kept from aloft and the speed reduced.

IRRIGATION.

*The 24th March* 1885.

*No.* 119.—*Notification.*—Notice is hereby given that the Lieutenant-Governor of Bengal proposes under sections 78, 79, 80, 81 and 99 of Act III (B.C.) of 1876 to pass the following rules for carrying out the provisions of the said Act, with respect to the Sarun Canals. These rules will supersede those at present in force:—

1. In Notification No. 179, dated 18th August 1879, under the provisions of Part II of Act III of 1876, Government has reserved to itself the rights of property in the water in the following canals and river beds forming part of the Sarun irrigation scheme:—

1. Roopun Chap Sota.
2. The head cut.
3. The Daha river and the water channels in continuation of or in connection with it.
4. The Gandaki river and the water channels in continuation of or in connection with it.
5. The Dhanai river and the water channels in continuation of or in connection with it.
6. Gangri river and the water channels in continuation of or in connection with it.

These canals and rivers will hereinafter be referred to as the Sarun Canals.

2. No person shall take water from the Sarun Canals for irrigation or manufacturing purposes without the written permission of a duly authorized person.

Licenses will be required—

(*a*)—For the construction of temporary dams in the canal beds.

(*b*)—For the irrigation of lands by flow or lift.

(*c*)—For the construction of village channels and distributaries leading from the canals for the irrigation of lands.

(*d*)—For water used for the purpose of any manufacture by any person other than a canal manager.

(*e*)—For the erection of fishing weirs or the use of fishing nets—(1) in the head cut; (2) in the new cuts from the Roopun Chap Sota to the Daha, Gandaki, Dhanai, and Gangri river beds; (3) in any other new cuts which may be made hereafter.

3. Government reserves at present its right to levy tolls for irrigation, and to charge for filling tanks, watering cattle, or for water for other domestic purposes.

4. The revenue administration of the Sarun irrigation scheme is vested in the Collector, who is ex-officio head of the Canal Revenue Department. The Executive Engineer of the Gunduck Division as canal officer is charged with the maintenance and management of the canals, but all orders passed by him under the Act or these rules are appealable to the Collector, under whose general directions he will act. All orders relating to the canal revenue will usually be issued by the Collector (through the Executive Engineer or not, as the case may be), and all correspondence intended for the Collector in this department should be addressed to the Collector direct, or through the Executive Engineer, Mozufferpore, or the Assistant Engineer, Gopalgunge.

5. For administrative purposes, the Sarun district is divided into the sub-districts enumerated in the following rule, and shown in a map deposited in the Collector's office. The boundaries of the sub-districts and their number may be hereafter modified.

6. The following guarantors are, till further orders, appointed canal managers, and will, within the under-mentioned sub-districts, act as the agents of Government in managing the affairs of the canals.

| | | |
|---|---|---|
| Manager of the Arua concern for the time being. | | |
| Ditto | Bansapali | ditto. |
| Ditto | Bahrowli | ditto. |
| Ditto | Burhoga | ditto. |
| Ditto | Harpur | ditto. |
| Ditto | Hatwa estates | ditto. |
| Ditto | Jogapur concern | ditto. |
| Ditto | Nowada | ditto. |
| Ditto | Rajapatti | ditto. |
| Ditto | Ramkola | ditto. |
| Ditto | Sadowa | ditto. |
| Ditto | Sitalpur | ditto. |

7. The more particular duties of a Canal Manager will be—

1*st*.—To receive applications and grant permits, printed in the prescribed form, for the use of water under sections 74, 75, and 77 of the Irrigation Act.

2*nd*.—Subject to the instructions of the canal officers to distribute, under the provisions of section 76, the water-supply allotted to his sub-district.

3*rd*.—To recover and credit to Government the water-rates.

4*th*.—To superintend and maintain such establishment as may be found necessary for the assessment and collection of water-rates within his sub-district.

8. Canal Managers have no power under Parts III, IV, and V of the Act; and all claims to remission under section 76 of Part VI should be referred to the canal officer or his assistant for disposal. Complaints regarding unauthorized use of canal water under sections 79, 80, and 81 are also to be referred to the canal officer or Collector for decision. All proceedings connected with the recovery of water-rates by distraint or other compulsory process will be undertaken by the Collector.

9. Any Manager desiring the construction of a temporary dam across the Roopan Chap Sota, or across the bed of the Daha, Gandaki, Dhanai, or Gangri rivers must prefer a written application to the canal officer specifying the object of the work and the length of time for which it is required. It will be at the discretion of the canal officer to reject the application or to grant it on such conditions as he may think fit, one of the conditions being the power reserved to the canal officer of cutting the bund, if it should ever appear to him, in the public interests, necessary to do so.

Provided, however, that no such dam shall be constructed without due provision being made, by means of a proper escape channel, for the supply to the guarantor or guarantors, on the same river below such dam, of the share of water to which he or they may be entitled under the decision of the canal officer.

10. Any person other than a Manager who may desire to construct a temporary dam across the bed of any of the rivers mentioned in the last rule must prefer his application to the Canal Manager in charge of the sub-district in which the site of the proposed dam lies. The latter will then forward the application with his remarks to the canal officer for orders.

11. Any person, whether he be a Canal Manager or not, who constructs a dam across any of the river beds referred to in Rule 9, without having first obtained the written permission of the canal officer, or who after the construction of an authorized dam, does or abets the doing of any act to impede the free flow of water through the escape channel provided for such dam, will be liable to prosecution under section 93, Act III (B.C.) of 1876, chapter XVII of the Indian Penal Code, or otherwise as may seem proper to the Collector.

12. With reference to Rule 7, paragraph 2 above, it will be competent to the Canal Manager, subject to the control of the canal officer, and on his own responsibility,* to allow the construction of such temporary dams in any of the village channels (subsidiary to the main river beds mentioned in Rule 9) within his sub-district, as he may consider necessary for the proper distribution of the water-supply allotted thereto.

* With reference to the possible damage to crops, &c.

13. If one or more of the riparian proprietors desire to have a permanent dam or regulator constructed in any channel or river bed, he or they shall present an application to that effect to the Collector, who will consult the Canal Manager and the canal officer as to the desirability of constructing such dam or regulator. Should its construction be deemed desirable, the Collector will cause plans and estimates to be prepared, and he shall also call upon the applicants to deposit the cost (including cost of establishment), or to give a guarantee securing its payment when required, and providing that, if the cost of the work should, through unforeseen causes, exceed the original estimate, the balance will be made good by the applicant. The agreement will also provide for the dam or regulator being kept in proper repair, as well as for its being taken over by Government at a fair valuation, should this ever be considered expedient. The construction of such dam or regulator will be carried out by the canal officer, who shall also have power to stop all supplies of water if it is not subsequently maintained in proper repair.

14. Each application for a permanent dam or regulator will be considered on its own merits, and will only be granted on such conditions as the Collector in consultation with the Superintending Engineer shall consider fit.

15. A register will be kept of the owners of each permanent dam or regulator, and any person may at any time apply to the canal officer to be made a joint owner. The canal officer may either reject such application, or if he think fit, he may issue a notice upon the registered owner or owners, and after hearing any objection which the registered owner or owners may prefer against the admission of such applicant to be a joint owner, in either case he shall report fully to the Collector, who may confirm the original rejection of the application, or may direct that the applicant be registered as such joint owner, on payment to the registered owner or owners of such sums as may be fixed by him.

16. Persons desiring to irrigate their fields with canal water by flow or lift, must apply in person or by agent to the Canal Manager, whereupon the latter shall issue a permit in the prescribed form (Appendix B). The right to irrigate without extra charge extends up to the 31st of March following the date on which the permit was issued; provided, however, that under the operation of this rule one and the same crop be not assessed more than once. The rate charged shall not exceed Re. 1 per acre (or 12 annas per bigha), irrespective of the crops grown, except in special cases to be determined by Government.

17. Any person other than a Canal Manager desirous of taking water for the manufacture of indigo must apply for a permit to the Canal Manager, stating the estimated outturn, and undertaking that he will, on the 1st of October, declare the quantity he has manufactured. The charge will be at the rate of Rs. 2 per maund of indigo manufactured.

18. No person may allow water to run to waste, and no person other than a Canal Manager may use water for irrigation or for any other purpose without having first obtained a permit as required by the preceding two rules. Any person infringing this rule will, with the consent in writing of the Collector (but not otherwise), be charged double the ordinary rates for the water used without authority or wasted, and will in addition be liable on prosecution by the Collector or canal officer, to the penalty provided by section 93 of Act III (B. C.) of 1876, or by any other law under which his offence may come. The charge in such cases will, as a rule, be laid by the Canal Manager by the submission to the canal officer or Collector of an "Unauthorized Irrigation Certificate." (*See* Appendix C.)

19. The privileges of guarantors are as follows:—

(1)—A prior claim to a supply of water for irrigation and manufacture during the continuance of their guarantee.

(2)—The right to use water for manufacturing purposes free of charge.

20. Any person may apply to the Collector to become a guarantor. If the Collector accept the application, which at his discretion he may or may not do, he shall proceed, in

communication with the canal officer, to determine whether the new guarantee shall be utilized towards extending the canals, providing distributaries or embankments, or towards reducing the responsibility of any of the original guarantors. If the original guarantor (within whose sub-district the applicant's property or interest is situated) claims a reduction in his guarantee, and can at the same time show that the application of the new guarantor towards an extension of the canal would operate to reduce his collections below the amount of his guarantee, his claims to have his guarantee reduced shall be considered: otherwise the new guarantee may be applied towards extending the canals, and an area corresponding to the applicant's property or interests be marked off to him, within which he shall exercise the rights and privileges now exercised in their sub-districts by the guarantors mentioned in paragraph 6 of these rules.

If the applicant's interest or property be not situated within any sub-district as specified in paragraph 6, then the Collector shall apply the guarantee towards extending the benefits of the canal system.

21. The irrigation year will commence on the 1st April; and as soon as possible after the irrigation of any land has been completed or the manufacture of indigo [by a person other than the Canal Manager] has been concluded, the Canal Manager shall present the persons who used the water with bills for water-rates (in a form approved by Government) based upon the actual area irrigated or the outturn of indigo manufactured. If these bills are not paid [*a*] in the case of indigo manufacture within one month after presentation, [*b*] in the case of *rubbi* crops by the 1st March, [*c*] in the case of other crops within one month after the crop irrigated has been cut, the Canal Manager shall, without delay, submit a list of such unpaid bills to the Collector, who will put in force the powers vested in him for the recovery of the amount due in accordance with sections 83, 84, and 85 of the Indian Irrigation Act. Such list must be supported by the counterfoils of the bills (Appendix B) prepared by the Manager, as well as by his personal certificate, that he has satisfied himself of the justness of the claims; and in the case of unauthorized irrigation, by the "Unauthorized Irrigation Certificates" (Appendix C) required by Rule 18.

22. The sums thus recovered by the Collector will be placed in his (the Collector's) accounts to the credit of the Canal Manager as a set off against the amount due from him under his guarantee for the year during which such recoveries are made. The Canal Manager will be entitled to a commission of 20 per cent. on all recoveries (over and above the amount of his guarantee), made either by himself or by the Collector on lists submitted on or before the 31st March. Sums due on this account will not be shown by the Manager in his accounts, but will be paid to him by cheque after the adjustment by the Collector of the year's accounts. No percentage allowance will be granted to he Manager in respect of recoveries made by the Collector on lists submitted later than the 31st March, although the amount of such recoveries will, as stated above, be credited to him as an asset against the amount of his guarantee.

23. For water used by a Manager for the irrigation of his own lands, he will be charged at the ordinary rate of Re. 1 per acre (or 12 annas per bigha), and for sums due on this account he will not be entitled to any commission allowance.

24. It will be the duty of Canal Managers—

*1st.*—To see that all permits for the use of water be issued in the prescribed form, and a copy be kept in counterfoil in books supplied for the purpose.

*2nd.*—That copies of bills presented for payment be kept in the counterfoils supplied, for record.

*3rd.*—That a cash-book of all receipts of water-rates be kept in forms supplied for the purpose.

*4th.*—That for all cash received receipts be granted in the form supplied by the canal officer, which will be kept in counterfoil.

*5th.*—That all cash received be paid monthly into the sub-divisional or district treasury, and that the treasury receipts be filed with the cash-book as vouchers.

*6th.*—To submit such returns as may be required from time to time by the Collector.

*7th.*—To afford every facility to the canal officer and Collector in their periodical inspection of the Canal Managers' office and accounts.

25. The amount yearly guaranteed by each Manager is payable in two equal instalments, viz. on the 30th of June and the 31st December of each year, and any arrear due on either of these dates will be deemed to be a demand under Act VII (B. C.) of 1880, and shall be recoverable by the processes prescribed by the above Act.

26. A yearly adjustment up to the 31st March will be made of each Manager's account as soon as possible after the close of the official year (31st March). For this purpose each Manager will, by the 15th April, submit to the Collector in duplicate a statement in form Appendix D, with the entries of the first 12 columns duly filled in. The Collector will supply the figures for the remaining columns, and return one copy to the Manager with a cheque for the sum payable on account of commission as shown in column 15, should no arrears from him be due. The Collector will also require the immediate deposit by the Manager of any arrears which may be shown to be due. Such arrears if not paid within one month after due notice to the Manager, will be recoverable under the Certificate Procedure Act (VII B.C. of 1880).

His Honour also proposes, under section 99 of Act III (B.C.) of 1876, to pass the following rules in substitution of rules 46, 47 and 48 referred to above:—

### CLASSES OF TENANTS.

**Classes of tenants.**

4. There shall be, for the purposes of this Act, the following classes of tenants, (namely) :—

(1) tenure-holders, including under-tenure-holders,

(2) raiyats, and

(3) under-raiyats, that is to say, tenants holding whether immediately or mediately under raiyats;

and the following classes of raiyats, (namely) :—

(*a*) raiyats holding at fixed rates, which expression means raiyats holding either at a rent fixed in perpetuity or at a rate of rent fixed in perpetuity,

(*b*) occupancy-raiyats, that is to say, raiyats having a right of occupancy in the land held by them, and

(*c*) non-occupancy-raiyats, that is to say, raiyats not having such a right of occupancy.

**Meaning of "tenure-holder" and "raiyat".**

5. (*1*) "Tenure-holder" means primarily a person who has acquired from a proprietor or from another tenure-holder a right to hold land for the purpose of collecting rents or bringing it under cultivation by establishing tenants on it, and includes also the successors in interest of persons who have acquired such a right.

(*2*) "Raiyat" means primarily a person who has acquired a right to hold land for the purpose of cultivating it by himself, or by members of his family, or by hired servants, or with the aid of partners, and includes also the successors in interest of persons who have acquired such a right.

(*3*) A person shall not be deemed to be a raiyat unless he holds land either immediately under a proprietor or immediately under a tenure-holder.

(*4*) In determining whether a tenant is a tenure-holder or a raiyat, the Court shall have regard to—

(*a*) local custom; and

(*b*) the purpose for which the right of tenancy was originally acquired.

(*5*) Where the area held by a tenant exceeds one hundred standard bighás, the tenant shall be presumed to be a tenure-holder until the contrary is shewn.

## CHAPTER III.

### TENURE-HOLDERS.

#### *Enhancement of rent.*

*Enhancement of rent.*

**Tenure held since Permanent Settlement liable to enhancement only in certain cases.**

6. Where a tenure has been held from the time of the Permanent Settlement, its rent shall not be liable to enhancement except on proof—

(*a*) that the landlord under whom it is held is entitled to enhance the rent thereof either by local custom or by the conditions under which the tenure is held, or

(*b*) that the tenure-holder, by receiving reductions of his rent, otherwise than on account of a diminution of the area of the tenure, has subjected himself to the payment of the increase demanded, and that the lands are capable of affording it.

**Limits of enhancement of rent of tenures.**

7. (*1*) Where the rent of a tenure-holder is liable to enhancement, it may, subject to any contract between the parties, be enhanced up to the limit of the customary rate payable by persons holding similar tenures in the vicinity.

(*2*) Where no such customary rate exists, it may, subject as aforesaid, be enhanced up to such limit as the Court thinks fair and equitable.

## *Bengal Tenancy Act.*

### (*Chapter III.—Tenure-holders.—Secs. 8-15.*)

*Enhancement of rent.*

(*3*) In determining what is fair and equitable, the Court shall not leave to the tenure-holder as profit less than ten per centum of the balance which remains after deducting from the gross rents payable to him the expenses of collecting them, and shall have regard to—

(*a*) the circumstances under which the tenure was created, for instance, whether the land comprised in the tenure, or a great portion of it, was first brought under cultivation by the agency or at the expense of the tenure-holder or his predecessors in interest, whether any fine or premium was paid on the creation of the tenure, and whether the tenure was originally created at a specially low rent for the purpose of reclamation; and

(*b*) the improvements, if any, made by the tenure-holder or his predecessors in interest.

(*4*) If the tenure-holder himself occupies any portion of the land included in the area of his tenure, or has made a grant of any portion of the land either rent-free or at a beneficial rent, a fair and equitable rent shall be calculated for that portion and included in the gross rents aforesaid.

Power to order gradual enhancement.

**8.** The Court may, if it thinks that an immediate increase of rent would produce hardship, direct that the enhancement shall be gradual; that is to say, that the rent shall increase yearly by degrees, for any number of years not exceeding five, until the limit of the enhancement allowed has been reached.

Rent once enhanced may not be altered for fifteen years.

**9.** When the rent of a tenure-holder has been enhanced by the Court or by contract, it shall not be again enhanced by the Court during the fifteen years next following the date on which it has been so enhanced.

### *Other incidents of tenures.*

*Other incidents of tenures.*

Permanent tenure-holder not liable to ejectment.

**10.** A holder of a permanent tenure shall not be ejected by his landlord except on the ground that he has broken a condition on breach of which he is, under the terms of a contract between him and his landlord, liable to be ejected:

Provided that where the contract is made after the commencement of this Act, the condition is consistent with the provisions of this Act.

Transfer and transmission of permanent tenure.

**11.** Every permanent tenure shall, subject to the provisions of this Act, be capable of being transferred and bequeathed in the same manner and to the same extent as other immoveable property.

*Other incidents of tenures.*

Voluntary transfer of permanent tenure.

**12.** (*1*) A transfer of a permanent tenure by sale, gift or mortgage (other than a transfer by sale in execution of a decree or by summary sale under any law relating to patní or other tenures) can be made only by a registered instrument.

(*2*) A registering officer shall not register any instrument purporting or operating to transfer by sale, gift or mortgage a permanent tenure unless there is paid to him, in addition to any fees payable under the Act for the time being in force for the registration of documents, a process-fee of the prescribed amount and a fee (hereinafter called "the landlord's fee") of the following amount, namely:—

(*a*) when rent is payable in respect of the tenure, a fee of two per centum on the annual rent of the tenure: provided that no such fee shall be less than one rupee or more than one hundred rupees; and

(*b*) when rent is not payable in respect of the tenure, a fee of two rupees.

(*3*) When the registration of any such instrument is complete, the registering officer shall send to the Collector the landlord's fee and a notice of the transfer and registration in the prescribed form, and the Collector shall cause the fee to be paid to, and the notice to be served on, the landlord in the prescribed manner.

Transfer of permanent tenure by sale in execution of decree other than decree for rent.

**13.** (*1*) When a permanent tenure is sold in execution of a decree other than a decree for arrears of rent due in respect thereof, the Court shall, before confirming the sale under section 312 of the Code of Civil Procedure, require the purchaser to pay into Court the landlord's fee prescribed by the last foregoing section and such further fee for service of notice of the sale on the landlord as may be prescribed. XIV of 1882.

(*2*) When the sale has been confirmed, the Court shall send to the Collector the landlord's fee and a notice of the sale in the prescribed form, and the Collector shall cause the fee to be paid to, and the notice to be served on, the landlord in the prescribed manner.

Transfer of permanent tenure by sale in execution of decree for rent.

**14.** When a permanent tenure is transferred by sale in execution of a decree for arrears of rent due in respect thereof, the Court shall send to the Collector a notice of the sale in the prescribed form.

Succession to permanent tenure.

**15.** When a succession to a permanent tenure takes place, the person succeeding shall give notice of the succession to the Collector in the prescribed form, and shall pay to the Collector the prescribed fee for the service of the notice on the landlord and the landlord's fee

prescribed by section 12, and the Collector shall cause the landlord's fee to be paid to, and the notice to be served on, the landlord in the prescribed manner.

Bar to recovery of rent pending notice of succession.

**16.** A person becoming entitled to a permanent tenure by succession shall not be entitled to recover by suit, distraint or other proceeding any rent payable to him as the holder of the tenure, until the Collector has received the notice and fees referred to in the last foregoing section.

Transfer of, and succession to, share in permanent tenure.

**17.** Subject to the provisions of section 88, the foregoing sections shall apply to the transfer of, or succession to, a share in a permanent tenure.

(*a*) shall be subject to the same provisions with respect to the transfer of, and succession to, his holding as the holder of a permanent tenure, and

(*b*) shall not be ejected by his landlord except on the ground that he has broken a condition consistent with this Act, and on breach of which he is, under the terms of a contract between him and his landlord, liable to be ejected.

## CHAPTER V.

### OCCUPANCY-RAIYATS.

*General.*

*General*

Continuance of existing occupancy-rights.

**19.** Every raiyat who immediately before the commencement of this Act has, by the operation of any enactment, by custom or otherwise, a right of occupancy in any land shall, when this Act comes into force, have a right of occupancy in that land.

Definition of "settled raiyat".

**20.** (*1*) Every person who for a period of twelve years, whether wholly or partly before or after the commencement of this Act, has continuously held as a raiyat land situate in any village, whether under a lease or otherwise, shall be deemed to have become, on the expiration of that period, a settled raiyat of that village.

(*2*) A person shall be deemed for the purposes of this section to have continuously held land in a village notwithstanding that the particular land held by him has been different at different times. *General*

(*3*) A person shall be deemed, for the purposes of this section, to have held as a raiyat any land held as a raiyat by a person whose heir he is.

(*4*) Land held by two or more co-sharers as a raiyatí holding shall be deemed, for the purposes of this section, to have been held as a raiyat by each such co-sharer.

(*5*) A person shall continue to be a settled raiyat of a village as long as he holds any land as a raiyat in that village and for one year thereafter.

(*6*) If a raiyat recovers possession of land under section 87, he shall be deemed to have continued to be a settled raiyat notwithstanding his having been out of possession more than a year.

(*7*) If, in any proceeding under this Act, it is proved or admitted that a person holds any land as a raiyat, it shall, as between him and the landlord under whom he holds the land, be presumed for the purposes of this section, until the contrary is proved or admitted, that he has for twelve years continuously held that land or some part of it as a raiyat.

Settled raiyats to have occupancy-rights.

**21.** (*1*) Every person who is a settled raiyat of a village within the meaning of the last foregoing section shall have a right of occupancy in all land for the time being held by him as a raiyat in that village.

(*2*) Every person who, being a settled raiyat of a village within the meaning of the last foregoing section, held land as a raiyat in that village at any time between the second day of March, 1883, and the commencement of this Act, shall be deemed to have acquired a right of occupancy in that land under the law then in force; but nothing in this sub-section shall affect any decree or order passed by a Court before the commencement of this Act.

Effect of acquisition of occupancy-right by landlord

**22.** (*1*) When the immediate landlord of an occupancy-holding is a proprietor or permanent tenure-holder, and the entire interests of the landlord and the raiyat in the holding become united in the same person by transfer, succession or otherwise, the occupancy-right shall cease to exist; but nothing in this sub-section shall prejudicially affect the rights of any third person.

(*2*) If the occupancy-right in land is transferred to a person jointly interested in the land as proprietor or permanent tenure-holder, it shall cease to exist; but nothing in this sub-section shall prejudicially affect the rights of any third person.

(*3*) A person holding land as an ijárádár or farmer of rents shall not, while so holding, acquire a right of occupancy in any land comprised in his ijárá or farm.

## *Bengal Tenancy Act.*

### (*Chapter V.—Occupancy-raiyats.—Secs. 23-30.*)

eral. *Explanation.*—A person having a right of occupancy in land does not lose it by subsequently becoming jointly interested in the land as proprietor or permanent tenure-holder, or by subsequently holding the land in ijárá or farm.

*Incidents of occupancy-right.*

ents of ancy-ht. **23.** When a raiyat has a right of occupancy in respect of any land, he may use the land in any manner which does not materially impair the value of the land or render it unfit for the purposes of the tenancy; but shall not be entitled to cut down trees in contravention of any local custom.

Rights of raiyat in respect of use of land.

Obligation of raiyat to pay rent. **24.** An occupancy-raiyat shall pay rent for his holding at fair and equitable rates.

Protection from eviction except on specified grounds. **25.** An occupancy-raiyat shall not be ejected by his landlord from his holding, except in execution of a decree for ejectment passed on the ground—

(*a*) that he has used the land comprised in his holding in a manner which renders it unfit for the purposes of the tenancy, or

(*b*) that he has broken a condition consistent with the provisions of this Act, and on breach of which he is, under the terms of a contract between himself and his landlord, liable to be ejected.

Devolution of occupancy-right on death. **26.** If a raiyat dies intestate in respect of a right of occupancy, it shall, subject to any custom to the contrary, descend in the same manner as other immoveable property: provided that, in any case in which under the law of inheritance to which the raiyat is subject his other property goes to the Crown, his right of occupancy shall be extinguished.

*Enhancement of rent.*

ancement rent Presumption as to fair and equitable rent. **27.** The rent for the time being payable by an occupancy-raiyat shall be presumed to be fair and equitable until the contrary is proved.

Restriction on enhancement of money-rents. **28.** Where an occupancy-raiyat pays his rent in money, his rent shall not be enhanced except as provided by this Act.

Enhancement of rent by contract. **29.** The money-rent of an occupancy-raiyat may be enhanced by contract, subject to the following conditions:—

(*a*) the contract must be in writing and registered;

(*b*) the rent must not be enhanced so as to exceed by more than two annas in the rupee the rent previously payable by the raiyat;

(*c*) the rent fixed by the contract shall not be liable to enhancement during a term of fifteen years from the date of the contract; Enhancement of rent.

Provided as follows—

(i) Nothing in clause (*a*) shall prevent a landlord from recovering rent at the rate at which it has been actually paid for a continuous period of not less than three years immediately preceding the period for which the rent is claimed.

(ii) Nothing in clause (*b*) shall apply to a contract by which a raiyat binds himself to pay an enhanced rent in consideration of an improvement which has been or is to be effected in respect of the holding by, or at the expense of, his landlord, and to the benefit of which the raiyat is not otherwise entitled; but an enhanced rent fixed by such a contract shall be payable only when the improvement has been effected, and, except when the raiyat is chargeable with default in respect of the improvement, only so long as the improvement exists and substantially produces its estimated effect in respect of the holding.

(iii) When a raiyat has held his land at a specially low rate of rent in consideration of cultivating a particular crop for the convenience of the landlord, nothing in clause (*b*) shall prevent the raiyat from agreeing, in consideration of his being released from the obligation of cultivating that crop, to pay such rent as he may deem fair and equitable.

Enhancement of rent by suit. **30.** The landlord of a holding held at a money-rent by an occupancy-raiyat may, subject to the provisions of this Act, institute a suit to enhance the rent on one or more of the following grounds, (namely):—

(*a*) that the rate of rent paid by the raiyat is below the prevailing rate paid by occupancy-raiyats for land of a similar description and with similar advantages in the same village, and that there is no sufficient reason for his holding at so low a rate;

(*b*) that there has been a rise in the average local prices of staple food-crops during the currency of the present rent;

(*c*) that the productive powers of the land held by the raiyat have been increased by an improvement effected by, or at the expense of, the landlord during the currency of the present rent;

*Bengal Tenancy Act.*

*(Chapter V.—Occupancy-raiyats.—Secs. 31-36.)*

*Enhancement of rent.*

(*d*) that the productive powers of the land held by the raiyat have been increased by fluvial action.

*Explanation.*—"Fluvial action" includes a change in the course of a river rendering irrigation from the river practicable when it was not previously practicable.

Rules as to enhancement on ground of prevailing rate.

**31.** Where an enhancement is claimed on the ground that the rate of rent paid is below the prevailing rate—

(*a*) in determining what is the prevailing rate the Court shall have regard to the rates generally paid during a period of not less than three years before the institution of the suit, and shall not decree an enhancement unless there is a substantial difference between the rate paid by the raiyat and the prevailing rate found by the Court;

(*b*) if in the opinion of the Court the prevailing rate of rent cannot be satisfactorily ascertained without a local inquiry, the Court may direct that a local inquiry be held under Chapter XXV of the Code of Civil Procedure by such Revenue-officer as the Local Government may authorize in that behalf by rules made under section 392 of the said Code;

XIV of 1882.

(*c*) in determining under this section the rate of rent payable by a raiyat his caste shall not be taken into consideration, unless it is proved that by local custom caste is taken into account in determining the rate; and whenever it is found that by local custom any description of raiyats hold land at favourable rates of rent, the rate shall be determined in accordance with that custom;

(*d*) in ascertaining the prevailing rate of rent the amount of any enhancement authorized on account of a landlord's improvement shall not be taken into consideration.

Rules as to enhancement on ground of rise in prices.

**32.** Where an enhancement is claimed on the ground of a rise in prices—

(*a*) the Court shall compare the average prices during the decennial period immediately preceding the institution of the suit with the average prices during such other decennial period as it may appear equitable and practicable to take for comparison;

(*b*) the enhanced rent shall bear to the previous rent the same proportion as the average prices during the last decennial period bear to the average prices during the previous decennial period taken for purposes of comparison: provided that, in calculating this proportion, the average prices during the later period shall be reduced by one-third of their excess over the average prices during the earlier period;

*Enhancement of rent.*

(*c*) if in the opinion of the Court it is not practicable to take the decennial periods prescribed in clause (*a*), the Court may, in its discretion, substitute any shorter periods therefor.

Rules as to enhancement on ground of landlord's improvement.

**33.** (*1*) Where an enhancement is claimed on the ground of a landlord's improvement—

(*a*) the Court shall not grant an enhancement unless the improvement has been registered in accordance with this Act;

(*b*) in determining the amount of enhancement the Court shall have regard to—

(i) the increase in the productive powers of the land caused or likely to be caused by the improvement,

(ii) the cost of the improvement,

(iii) the cost of the cultivation required for utilizing the improvement, and

(iv) the existing rent and the ability of the land to bear a higher rent.

(*2*) A decree under this section shall, on the application of the tenant or his successor in interest, be subject to re-consideration in the event of the improvement not producing or ceasing to produce the estimated effect.

Rules as to enhancement on ground of increase in productive powers due to fluvial action.

**34.** Where an enhancement is claimed on the ground of an increase in productive powers due to fluvial action—

(*a*) the Court shall not take into account any increase which is merely temporary or casual;

(*b*) the Court may enhance the rent to such an amount as it may deem fair and equitable, but not so as to give the landlord more than one-half of the value of the net increase in the produce of the land.

Enhancement by suit to be fair and equitable.

**35.** Notwithstanding anything in the foregoing sections, the Court shall not in any case decree any enhancement which is under the circumstances of the case unfair or inequitable.

Power to order progressive enhancement.

**36.** If the Court passing a decree for enhancement considers that the immediate enforcement of the decree in its full extent will be attended with hardship to the raiyat, it may direct that the enhancement shall be gradual; that is to say, that the rent shall increase

yearly by degrees for any number of years not exceeding five until the limit of the enhancement decreed has been reached.

Limitation of right to bring successive enhancement-suits.

**37.** (*1*) A suit instituted for the enhancement of the rent of a holding on the ground that the rate of rent paid is below the prevailing rate, or on the ground of a rise in prices, shall not be entertained if within the fifteen years next preceding its institution the rent of the holding has been enhanced by a contract made after the second day of March, 1883, or if within the said period of fifteen years the rent has been commuted under section 40, or a decree has been passed under this Act or any enactment repealed by this Act enhancing the rent on either of the grounds aforesaid or on any ground corresponding thereto or dismissing the suit on the merits.

(*2*) Nothing in this section shall affect the provisions of section 373 of the Code of Civil Procedure.

XIV of 1882.

### *Reduction of rent.*

*Reduction of rent.*

Reduction of rent.

**38.** (*1*) An occupancy-raiyat holding at a money-rent may institute a suit for the reduction of his rent on the following grounds, and, except as hereinafter provided in the case of a diminution of the area of the holding, not otherwise, (namely) :—

(*a*) on the ground that the soil of the holding has without the fault of the raiyat become permanently deteriorated by a deposit of sand or other specific cause, sudden or gradual, or

(*b*) on the ground that there has been a fall, not due to a temporary cause, in the average local prices of staple food-crops during the currency of the present rent.

(*2*) In any suit instituted under this section, the Court may direct such reduction of the rent as it thinks fair and equitable.

*Price-lists.*

Price-lists of staple food-crops.

**39.** (*1*) The Collector of every district shall prepare, monthly, or at shorter intervals, periodical lists of the market-prices of staple food-crops grown in such local areas as the Local Government may from time to time direct, and shall submit them to the Board of Revenue for approval or revision.

(*2*) The Collector may, if so directed by the Local Government, prepare for any local area like price-lists relating to such past times as the Local Government thinks fit, and shall submit the lists so prepared to the Board of Revenue for approval or revision.

(*3*) The Collector shall, one month before submitting a price-list to the Board of Revenue under this section, publish it in the prescribed manner within the local area to which it relates, and if any landlord or tenant of land within the local area, within the said period of one month, presents to him in writing any objection to the list, he shall submit the same to the Board of Revenue with the list. *Price-lists.*

(*4*) The price-lists shall, when approved or revised by the Board of Revenue, be published in the official Gazette; and any manifest error in any such list discovered after its publication may be corrected by the Collector with the sanction of the Board of Revenue.

(*5*) The Local Government shall cause to be compiled from the periodical lists prepared under this section lists of the average prices prevailing throughout each year, and shall cause them to be published annually in the official Gazette.

(*6*) In any proceedings under this chapter for an enhancement or reduction of rent on the ground of a rise or fall in prices, the Court shall refer to the lists published under this section, and shall presume that the prices shown in the lists prepared for any year subsequent to the passing of this Act are correct, unless and until it is proved that they are incorrect.

(*7*) The Local Government, subject to the control of the Governor General in Council, shall make rules for determining what are to be deemed staple food-crops in any local area and for the guidance of officers preparing price-lists under this section.

### *Commutation.*

*Commutation.*

Commutation of rent payable in kind.

**40.** (*1*) Where an occupancy-raiyat pays for a holding rent in kind, or on the estimated value of a portion of the crop, or at rates varying with the crop, or partly in one of those ways and partly in another, either the raiyat or his landlord may apply to have the rent commuted to a money-rent.

(*2*) The application may be made to the Collector or Sub-divisional Officer, or to an officer making a settlement of rents under Chapter X, or to any other officer specially authorized in this behalf by the Local Government.

(*3*) On the receipt of the application the officer may determine the sum to be paid as money-rent, and may order that the raiyat shall, in lieu of paying his rent in kind, or otherwise as aforesaid, pay the sum so determined.

(*4*) In making the determination the officer shall have regard to—

(*a*) the average money-rent payable by occupancy-raiyats for land of a similar description and with similar advantages in the vicinity;

Commutation.

(*b*) the average value of the rent actually received by the landlord during the preceding ten years or during any shorter period for which evidence may be available; and

(*c*) the charges incurred by the landlord in respect of irrigation under the system of rent in kind, and the arrangements made on commutation for continuing those charges.

(*5*) The order shall be in writing, shall state the grounds on which it is made, and the time from which it is to take effect, and shall be subject to appeal in like manner as if it were an order made in an ordinary revenue proceeding.

(*6*) If the application is opposed, the officer shall consider whether under all the circumstances of the case it is reasonable to grant it, and shall grant or refuse it accordingly. If he refuses it, he shall record in writing the reasons for the refusal.

## CHAPTER VI.

### NON-OCCUPANCY-RAIYATS.

Application of chapter.

**41.** This chapter shall apply to raiyats not having a right of occupancy, who are in this Act referred to as non-occupancy-raiyats.

Initial rent of non-occupancy-raiyat.

**42.** When a non-occupancy-raiyat is admitted to the occupation of land, he shall become liable to pay such rent as may be agreed on between himself and his landlord at the time of his admission.

Conditions of enhancement of rent.

**43.** The rent of a non-occupancy-raiyat shall not be enhanced except by registered agreement or by agreement under section 46:

Provided that nothing in this section shall prevent a landlord from recovering rent at the rate at which it has been actually paid for a continuous period of not less than three years immediately preceding the period for which the rent is claimed.

Grounds on which non-occupancy-raiyat may be ejected.

**44.** A non-occupancy-raiyat shall, subject to the provisions of this Act, be liable to ejectment on one or more of the following grounds, and not otherwise (namely):—

(*a*) on the ground that he has failed to pay an arrear of rent;

(*b*) on the ground that he has used the land in a manner which renders it unfit for the purposes of the tenancy, or that he has broken a condition consistent with this Act and on breach of which he is, under the terms of a contract between himself and his landlord, liable to be ejected;

(*c*) where he has been admitted to occupation of the land under a registered lease, on the ground that the term of the lease has expired;

(*d*) on the ground that he has refused to agree to pay a fair and equitable rent determined under section 46, or that the term for which he is entitled to hold at such a rent has expired.

Conditions of ejectment on ground of expiration of lease.

**45.** A suit for ejectment on the ground of the expiration of the term of a lease shall not be instituted against a non-occupancy-raiyat unless notice to quit has been served on the raiyat not less than six months before the expiration of the term, and shall not be instituted after six months from the expiration of the term.

Conditions of ejectment on ground of refusal to agree to enhancement.

**46.** (*1*) A suit for ejectment on the ground of refusal to agree to an enhancement of rent shall not be instituted against a non-occupancy-raiyat unless the landlord has tendered to the raiyat an agreement to pay the enhanced rent, and the raiyat has within three months before the institution of the suit refused to execute the agreement.

(*2*) A landlord desiring to tender an agreement to a raiyat under this section may file it in the office of such Court or officer as the Local Government appoints in this behalf for service on the raiyat. The Court or officer shall forthwith cause it to be served on the raiyat in the prescribed manner, and when it has been so served it shall for the purposes of this section be deemed to have been tendered.

(*3*) If a raiyat on whom an agreement has been served under sub-section (*2*) executes it, and within one month from the date of service files it in the office from which it issued, it shall take effect from the commencement of the agricultural year next following.

(*4*) When an agreement has been executed and filed by a raiyat under sub-section (*3*), the Court or officer in whose office it is so filed shall forthwith cause a notice of its being so executed and filed to be served on the landlord in the prescribed manner.

(*5*) If the raiyat does not execute the agreement and file it under sub-section (*3*), he shall be deemed for the purposes of this section to have refused to execute it.

(*6*) If a raiyat refuses to execute an agreement tendered to him under this section, and the landlord thereupon institutes a suit to eject him, the Court shall determine what rent is fair and equitable for the holding.

(*7*) If the raiyat agrees to pay the rent so determined, he shall be entitled to remain in occupation of his holding at that rent for a term of five years from the date of the agreement, but on the expiration of that term shall be liable to ejectment under the conditions mentioned in the last foregoing section, unless he has acquired a right of occupancy.

*Bengal Tenancy Act.*

*(Chapter VII.—Under-raiyats.—Chapter VIII.—General Provisions as to Rent.—Secs. 47—52.)*

(8) If the raiyat does not agree to pay the rent so determined, the Court shall pass a decree for ejectment.

(9) In determining what rent is fair and equitable, the Court shall have regard to the rents generally paid by raiyats for land of a similar description and with like advantages in the same village.

(10) A decree for ejectment passed under this section shall take effect from the end of the agricultural year in which it is passed.

Explanation of "admitted to occupation."

47. Where a raiyat has been in occupation of land and a lease is executed with a view to a continuance of his occupation, he is not to be deemed to be admitted to occupation by that lease for the purposes of this chapter, notwithstanding that the lease may purport to admit him to occupation.

## CHAPTER VII.

### UNDER-RAIYATS.

Limit of rent recoverable from under-raiyats.

48. The landlord of an under-raiyat holding at a money-rent shall not be entitled to recover rent exceeding the rent which he himself pays by more than the following percentage of the same, (namely):—

(a) when the rent payable by the under-raiyat is payable under a registered lease or agreement—fifty per cent.; and

(b) in any other case—twenty-five per cent.

Restriction on ejectment of under-raiyats.

49. An under-raiyat shall not be liable to be ejected by his landlord, except—

(a) on the expiration of the term of a written lease;

(b) when holding otherwise than under a written lease, at the end of the agricultural year next following the year in which a notice to quit is served upon him by his landlord.

## CHAPTER VIII.

### GENERAL PROVISIONS AS TO RENT.

*Rules and presumptions as to amount of rent.*

*Rules and presumptions as to amount of rent.*

Rules and presumptions as to fixity of rent.

50. (1) Where a tenure-holder or raiyat and his predecessors in interest have held at a rent or rate of rent which has not been changed from the time of the Permanent Settlement, the rent or rate of rent shall not be liable to be increased except on the ground of an alteration in the area of the tenure or holding.

*Rules and presumptions as to amount of rent.*

(2) If it is proved in any suit or other proceeding under this Act that either a tenure-holder or raiyat and his predecessors in interest have held at a rent or rate of rent which has not been changed during the twenty years immediately before the institution of the suit or proceeding, it shall be presumed, until the contrary is shown, that they have held at that rent or rate of rent from the time of the Permanent Settlement:

Provided that if it is required by or under any enactment that in any local area tenancies, or any classes of tenancies, at fixed rents or rates of rent shall be registered as such on, or before, a date specified by or under the enactment, the foregoing presumption shall not after that date apply to any tenancy or, as the case may be, to any tenancy of that class in that local area unless the tenancy has been so registered.

(3) The operation of this section, so far as it relates to land held by a raiyat, shall not be affected by the fact of the land having been separated from other land which formed with it a single holding, or amalgamated with other land into one holding.

(4) Nothing in this section shall apply to a tenure held for a term of years or determinable at the will of the landlord.

Presumption as to amount of rent and conditions of holding.

51. If a question arises as to the amount of a tenant's rent or the conditions under which he holds in any agricultural year, he shall be presumed, until the contrary is shown, to hold at the same rent and under the same conditions as in the last preceding agricultural year.

*Alteration of rent on alteration of area.*

Alteration of rent in respect of alteration in area.

*Alteration of rent on alteration of area.*

52. (1) Every tenant shall—

(a) be liable to pay additional rent for all land proved by measurement to be in excess of the area for which rent has been previously paid by him, unless it is proved that the excess is due to the addition to the tenure or holding of land which having previously belonged to the tenure or holding was lost by diluvion or otherwise without any reduction of the rent being made, and

(b) be entitled to a reduction of rent in respect of any deficiency proved by measurement to exist in the area of his tenure or holding as compared with the area for which rent has been previously paid by him, unless it is proved that the deficiency is due to the loss of land which was added to the area of the tenure or holding by alluvion or otherwise, and that an addition has not been made to the rent in respect of the addition to the area.

## *Bengal Tenancy Act.*

### (*Chapter VIII.—General Provisions as to Rent.—Secs. 53—57.*)

*Alteration of rent on alteration of area.*

(*2*) In determining the area for which rent has been previously paid, the Court shall, if so required by any party to the suit, have regard to—

(*a*) the origin and conditions of the tenancy, for instance, whether the rent was a consolidated rent for the entire tenure or holding;

(*b*) whether the tenant has been allowed to hold additional land in consideration of an addition to his total rent or otherwise with the knowledge and consent of the landlord;

(*c*) the length of time during which the tenancy has lasted without dispute as to rent or area; and

(*d*) the length of the measure used or in local use at the time of the origin of the tenancy as compared with that used or in local use at the time of the institution of the suit.

(*3*) In determining the amount to be added to the rent, the Court shall have regard to the rates payable by tenants of the same class for lands of a similar description and with similar advantages in the vicinity, and, in the case of a tenure-holder, to the profits to which he is entitled in respect of the rent of his tenure, and shall not in any case fix any rent which under the circumstances of the case is unfair or inequitable.

(*4*) The amount abated from the rent shall bear the same proportion to the rent previously payable as the diminution of the total yearly value of the tenure or holding bears to the previous total yearly value thereof, or, in default of satisfactory proof of the yearly value of the land lost, shall bear to the rent previously payable the same proportion as the diminution of area bears to the previous area of the tenure or holding.

### *Payment of rent.*

*Payment of rent.*

**53.** Subject to agreement or established usage, a money-rent payable by a tenant shall be paid in four equal instalments falling due on the last day of each quarter of the agricultural year.

*Instalments of rent.*

**54.** (*1*) Every tenant shall pay each instalment of rent before sunset of the day on which it falls due.

*Time and place for payment of rent.*

(*2*) The payment shall, except in cases where a tenant is allowed under this Act to deposit his rent, be made at the landlord's village-office, or at such other convenient place as may be appointed in that behalf by the landlord:

Provided that the Local Government may from time to time make rules, either generally or for any specified local area, authorizing a tenant to pay his rent by postal money-order.

*Payment of rent.*

(*3*) Any instalment or part of an instalment of rent not duly paid at or before the time when it falls due shall be deemed an arrear.

*Appropriation of payments.*

**55.** (*1*) When a tenant makes a payment on account of rent, he may declare the year or the year and instalment to which he wishes the payment to be credited, and the payment shall be credited accordingly.

(*2*) If he does not make any such declaration, the payment may be credited to the account of such year and instalment as the landlord thinks fit.

### *Receipts and accounts.*

*Receipts and accounts.*

*Tenant making payment to his landlord entitled to a receipt.*

**56.** (*1*) Every tenant who makes a payment on account of rent to his landlord shall be entitled to obtain forthwith from the landlord a written receipt for the amount paid by him, signed by the landlord.

(*2*) The landlord shall prepare and retain a counterfoil of the receipt.

(*3*) The receipt and counterfoil shall specify such of the several particulars shown in the form of receipt given in Schedule II to this Act as can be specified by the landlord at the time of payment:

Provided that the Local Government may, from time to time, prescribe or sanction a modified form either generally or for any particular local area or class of cases.

(*4*) If a receipt does not contain substantially the particulars required by this section, it shall be presumed, until the contrary is shown, to be an acquittance in full of all demands for rent up to the date on which the receipt was given.

*Tenant entitled to full discharge or statement of account at close of year.*

**57.** (*1*) Where a landlord admits that all rent payable by a tenant to the end of the agricultural year has been paid, the tenant shall be entitled to receive from the landlord, free of charge, within three months after the end of the year, a receipt in full discharge of all rent falling due to the end of the year, signed by the landlord.

(*2*) Where the landlord does not so admit, the tenant shall be entitled, on paying a fee of four annas, to receive within three months after the end of the year a statement of account specifying the several particulars shown in the form of account given in Schedule II to this Act, or in such other form as may from time to time be prescribed by the Local Government either generally or for any particular local area or class of cases.

(*3*) The landlord shall prepare and retain a copy of the statement containing similar particulars.

## *Bengal Tenancy Act.*

### (*Chapter VIII.—General Provisions as to Rent.—Secs. 58—63.*)

*Receipts and accounts.*

Penalties and fine for withholding receipts and statements of account and failing to keep counterparts.

**58.** (*1*) If a landlord without reasonable cause refuses or neglects to deliver to a tenant a receipt containing the particulars prescribed by section 56 for any rent paid by the tenant, the tenant may, within three months from the date of payment, institute a suit to recover from him such penalty, not exceeding double the amount or value of that rent, as the Court thinks fit.

(*2*) If a landlord without reasonable cause refuses or neglects to deliver to a tenant demanding the same either the receipt in full discharge or, if the tenant is not entitled to such a receipt, the statement of account for any year prescribed in section 57, the tenant may, within the next ensuing agricultural year, institute a suit to recover from him such penalty as the Court thinks fit, not exceeding double the aggregate amount or value of all rent paid by the tenant to the landlord during the year for which the receipt or account should have been delivered.

(*3*) If a landlord without reasonable cause fails to prepare and retain a counterfoil or copy of a receipt or statement as required by either of the said sections, he shall be punished with fine which may extend to fifty rupees.

Local Government to prepare forms of receipt and account.

**59.** (*1*) The Local Government shall cause to be prepared and kept for sale to landlords at all sub-divisional offices forms of receipts with counterfoils and of statements of account suitable for use under the foregoing sections.

(*2*) The forms may be sold in books with the leaves consecutively numbered or otherwise as the Local Government thinks fit.

Effect of receipt by registered proprietor, manager or mortgagee.

**60.** Where rent is due to the proprietor, manager or mortgagee of an estate, the receipt of the person registered under the Land Registration Act, 1876, as proprietor, manager or mortgagee of that estate, or of his agent authorized in that behalf, shall be a sufficient discharge for the rent; and the person liable for the rent shall not be entitled to plead in defence to a claim by the person so registered that the rent is due to any third person.

VII (B.C.) of 1876.

But nothing in this section shall affect any remedy which any such third person may have against the registered proprietor, manager or mortgagee.

### *Deposit of rent.*

*Deposit of rent.*

Application to deposit rent in Court.

**61.** (*1*) In any of the following cases, namely:—

(*a*) when a tenant tenders money on account of rent and the landlord refuses to receive it or refuses to grant a receipt for it;

(*b*) when a tenant bound to pay money on account of rent has reason to believe, owing to a tender having been refused or a receipt withheld on a previous occasion, that the person to whom his rent is payable will not be willing to receive it and to grant him a receipt for it; *Deposit of rent.*

(*c*) when the rent is payable to co-sharers jointly, and the tenant is unable to obtain the joint receipt of the co-sharers for the money, and no person has been empowered to receive the rent on their behalf; or

(*d*) when the tenant entertains a *bonâ fide* doubt as to who is entitled to receive the rent,

the tenant may present to the Court having jurisdiction to entertain a suit for the rent of his tenure or holding an application in writing for permission to deposit in the Court the full amount of the money then due.

(*2*) The application shall contain a statement of the grounds on which it is made; shall state—

in cases (*a*) and (*b*), the name of the person to whose credit the deposit is to be entered,

in case (*c*), the names of the sharers to whom the rent is due, or of so many of them as the tenant may be able to specify, and

in case (*d*), the names of the person to whom the rent was last paid and of the person or persons now claiming it;

shall be signed and verified, in the manner prescribed in section 52 of the Code of Civil Procedure, by the tenant, or, where he is not personally cognizant of the facts of the case, by some person so cognizant; and shall be accompanied by a fee of such amount as the Local Government, from time to time, by rule, directs.

XIV of 1882.

Receipt granted by Court for rent deposited to be a valid acquittance.

**62.** (*1*) If it appears to the Court to which an application is made under the last foregoing section that the applicant is entitled under that section to deposit the rent, it shall receive the rent and give a receipt for it under the seal of the Court.

(*2*) A receipt given under this section shall operate as an acquittance for the amount of the rent payable by the tenant and deposited as aforesaid, in the same manner and to the same extent as if that amount of rent had been received—

in cases (*a*) and (*b*) of the last foregoing section, by the person specified in the application as the person to whose credit the deposit was to be entered;

in case (*c*) of that section, by the co-sharers to whom the rent is due; and

in case (*d*) of that section, by the person entitled to the rent.

Notification of receipt of deposit.

**63.** (*1*) The Court receiving the deposit shall forthwith cause to be affixed in a conspicuous place at the Court-house a notification of the receipt thereof, containing a statement of all material particulars.

*Bengal Tenancy Act.*

*(Chapter VIII.—General Provisions as to Rent.—Secs. 64-69.)*

*Deposit of rent.*

(2) If the amount of the deposit is not paid away under the next following section, within the period of fifteen days next following the date on which the notification is so affixed, the Court shall forthwith—

in cases (*a*) and (*b*) of section 61, cause a notice of the receipt of the deposit to be served, free of charge, on the person specified in the application as the person to whose credit the deposit was to be entered;

in case (*c*) of that section, cause a notice of the receipt of the deposit to be posted at the landlord's village-office or in some conspicuous place in the village in which the holding is situate; and

in case (*d*) of that section, cause a like notice to be served, free of charge, on every person who it has reason to believe claims or is entitled to the deposit.

Payment or refund of deposit.

64. (1) The Court may pay the amount of the deposit to any person appearing to it to be entitled to the same, or may, if it thinks fit, retain the amount pending the decision of a Civil Court as to the person so entitled.

(2) The payment may, if the Local Government so direct, be made by postal money-order.

(3) If no payment is made under this section before the expiration of three years from the date on which a deposit is made, the amount deposited may, in the absence of any order of a Civil Court to the contrary, be repaid to the depositor upon his application and on his returning the receipt given by the Court with which the rent was deposited.

(4) No suit or other proceeding shall be instituted against the Secretary of State for India in Council, or against any officer of the Government, in respect of anything done by a Court receiving a deposit under the foregoing sections; but nothing in this section shall prevent any person entitled to receive the amount of any such deposit from recovering the same from a person to whom it has been paid under this section.

*Arrears of rent.*

*Arrears of rent.*

Liability to sale for arrears in case of permanent tenure, holding at fixed rates or occupancy-holding.

65. Where a tenant is a permanent tenure-holder, a raiyat holding at fixed rates or an occupancy-raiyat, he shall not be liable to ejectment for arrears of rent, but his tenure or holding shall be liable to sale in execution of a decree for the rent thereof, and the rent shall be a first charge thereon.

Ejectment for arrears in other cases.

66. (1) When an arrear of rent remains due from a tenant not being a permanent tenure-holder, a raiyat holding at fixed rates or an occupancy-raiyat, at the end of the Bengali year where that year prevails, or at the end of the month of Jeyt where the Fasli or Amli year prevails, the landlord may, whether he has obtained a decree for the recovery of the arrear or not, and whether he is entitled by the terms of any contract to eject the tenant for arrears or not, institute a suit to eject the tenant. *Arrears of rent.*

(2) In a suit for ejectment for an arrear of rent a decree passed in favour of the plaintiff shall specify the amount of the arrear and of the interest (if any) due thereon, and the decree shall not be executed if that amount and the costs of the suit are paid into Court within fifteen days from the date of the decree, or, when the Court is closed on the fifteenth day, on the day upon which the Court reopens.

(3) The Court may for special reasons extend the period of fifteen days mentioned in this section.

Interest on arrears.

67. An arrear of rent shall bear simple interest at the rate of twelve per centum per annum from the expiration of that quarter of the agricultural year in which the instalment falls due to the institution of the suit.

Power to award damages on rent withheld without reasonable cause, or to defendant improperly sued for rent.

68. (1) If, in any suit brought for the recovery of arrears of rent, it appears to the Court that the defendant has, without reasonable or probable cause, neglected or refused to pay the amount of rent due by him, the Court may award to the plaintiff, in addition to the amount decreed for rent and costs, such damages, not exceeding twenty-five per centum on the amount of rent decreed, as it thinks fit:

Provided that interest shall not be decreed when damages are awarded under this section.

(2) If, in any suit brought for the recovery of arrears of rent, it appears to the Court that the plaintiff has instituted the suit without reasonable or probable cause, the Court may award to the defendant, by way of damages, such sum, not exceeding twenty-five per centum on the whole amount claimed by the plaintiff, as it thinks fit.

*Produce-rents.*

*Produce-rents.*

Order for appraising or dividing produce.

69. (1) Where rent is taken by appraisement or division of the produce,—

(*a*) if either the landlord or the tenant neglects to attend, either personally or by agent, at the proper time for making the appraisement or division, or

(*b*) if there is a dispute about the quantity, value or division of the produce,

## *Bengal Tenancy Act.*

### (*Chapter VIII.—General Provisions as to Rent.—Secs. 70 75.*)

*Produce-rents.*

the Collector may, on the application of either party, and on his depositing such sum on account of expenses as the Collector may require, make an order appointing such officer as he thinks fit to appraise or divide the produce.

(2) The Collector may, without such an application, make the like order in any case where in the opinion of the District or Sub-divisional Magistrate the making of the order would be likely to prevent a breach of the peace.

(3) Where a Collector makes an order under this section, he may, by order, prohibit the removal of the produce until the appraisement or division has been effected.

Procedure where officer appointed.

**70.** (1) When a Collector appoints an officer under the last foregoing section, the Collector may, in his discretion, direct the officer to associate with himself any other persons as assessors, and may give him instructions regarding the number, qualifications and mode of selection of those assessors (if any), and the procedure to be followed in making the appraisement or division; and the officer shall conform to the instructions so given.

(2) The officer shall, before making an appraisement or division, give notice to the landlord and tenant of the time and place at which the appraisement or division will be made; but if either the landlord or the tenant fails to attend either personally or by agent, he may proceed *ex parte*.

(3) When the officer has made the appraisement or division, he shall submit a report of his proceedings to the Collector.

(4) The Collector shall consider the report, and, after giving the parties an opportunity of being heard and making such enquiry (if any) as he may think necessary, shall pass such order thereon as he thinks just.

(5) The Collector may, if he thinks fit, refer any question in dispute between the parties for the decision of a Civil Court, but, subject as aforesaid, his order shall be final and shall, on application to a Civil Court by the landlord or the tenant, be enforceable as a decree.

(6) Where the officer makes an appraisement, the appraisement papers shall be filed in the Collector's office.

Rights and liabilities as to possession of crop.

**71.** (1) Where rent is taken by appraisement of the produce, the tenant shall be entitled to the exclusive possession of the produce.

(2) Where rent is taken by division of the produce, the tenant shall be entitled to the exclusive possession of the whole produce until it is divided, but shall not be entitled to remove any portion of the produce from the threshing-floor at such a time or in such a manner as to prevent the due division thereof at the proper time. *Produce-rents.*

(3) In either case the tenant shall be entitled to cut and harvest the produce in due course of husbandry without any interference on the part of the landlord.

(4) If the tenant removes any portion of the produce at such a time or in such a manner as to prevent the due appraisement or division thereof at the proper time, the produce shall be deemed to have been as full as the fullest crop of the same description appraised in the neighbourhood on similar land for that harvest.

### *Liability for rent on change of landlord or after transfer of tenure or holding.*

Tenant not liable to transferee of landlord's interest for rent paid to former landlord, without notice of the transfer.

**72.** (1) A tenant shall not, when his landlord's interest is transferred, be liable to the transferee for rent which became due after the transfer and was paid to the landlord whose interest was so transferred, unless the transferee has before the payment given notice of the transfer to the tenant. *Liability for rent on change of landlord or after transfer of tenure or holding.*

(2) Where there is more than one tenant paying rent to the landlord whose interest is transferred, a general notice from the transferee to the tenants published in the prescribed manner shall be a sufficient notice for the purposes of this section.

Liability for rent after transfer of occupancy-holding.

**73.** When an occupancy-raiyat transfers his holding without the consent of the landlord, the transferor and transferee shall be jointly and severally liable to the landlord for arrears of rent accruing due after the transfer, unless and until notice of the transfer is given to the landlord in the prescribed manner.

### *Illegal Cesses, &c.*

Abwáb, &c., illegal. *Illegal cesses, &c.*

Penalty for exaction by landlord from tenant of sum in excess of the rent payable.

**75.** Every tenant from whom, except under any special enactment for the time being in force, any sum of money or any portion of the produce of his land is exacted by his landlord in excess of the rent lawfully payable, may, within six months from the date of the exaction, institute a suit to recover from the landlord, in addition to the amount or value of what is so exacted, such sum by way of penalty as the Court thinks fit, not exceeding

two hundred rupees; or, when double the amount or value of what is so exacted exceeds two hundred rupees, not exceeding double that amount or value.

## CHAPTER IX.

**76.** (*1*) For the purposes of this Act, the term "improvement," used with reference to a raiyat's holding, shall mean any work which adds to the value of the holding, which is suitable to the holding and consistent with the purpose for which it was let, and which, if not executed on the holding, is either executed directly for its benefit, or is, after execution, made directly beneficial to it.

(*2*) Until the contrary is shown, the following shall be presumed to be improvements within the meaning of this section:—

(*d*) the reclamation, clearance, enclosure or permanent improvement of land for agricultural purposes;

(*e*) the renewal or re-construction of any of the foregoing works, or alterations therein, or additions thereto; and

(*f*) the erection of a suitable dwelling-house for the raiyat and his family, together with all necessary out-offices.

(*3*) But no work executed by the raiyat of a holding shall be deemed to be an improvement for the purposes of this Act if it substantially diminishes the value of his landlord's property.

Right to make improvements in case of holding at fixed rates and occupancy-holding.

**77.** (*1*) Where a raiyat holds at fixed rates or has an occupancy-right in his holding, neither the raiyat nor his landlord shall, as such, be entitled to prevent the other from making an improvement in respect of the holding, except on the ground that he is willing to make it himself.

(*2*) If both the raiyat and his landlord wish to make the same improvement, the raiyat shall have the prior right to make it, unless it affects another holding or other holdings under the same landlord. *Improvements*

Collector to decide question as to right to make improvement, &c.

**78.** If a question arises between the raiyat and his landlord—

(*a*) as to the right to make an improvement, or

(*b*) as to whether a particular work is an improvement,

the Collector may, on the application of either party, decide the question, and his decision shall be final.

Right to make improvements in case of non-occupancy-holding.

**79.** (*1*) A non-occupancy-raiyat shall be entitled to construct, maintain and repair a well for the irrigation of his holding, with all works incidental thereto, and to erect a suitable dwelling-house for himself and his family, with all necessary out-offices; but shall not, except as aforesaid and as next hereinafter provided, be entitled to make any other improvement in respect of his holding without his landlord's permission.

(*2*) A non-occupancy-raiyat who would, but for the want of his landlord's permission, be entitled to make an improvement in respect of his holding, may, if he desires that the improvement be made, deliver, or cause to be delivered, to his landlord a request in writing calling upon him to make the improvement within a reasonable time; and, if the landlord is unable or neglects to comply with that request, may make the improvement himself.

Registration of landlords' improvements.

**80.** (*1*) A landlord may, by application to such Revenue-officer as the Local Government may appoint, register any improvement which he has lawfully made or which has been lawfully made at his expense or which he has assisted a tenant in making.

(*2*) The application shall be in such form, shall contain such information, and shall be verified in such manner, by local inquiry or otherwise, as the Local Government from time to time by rule directs.

(*3*) The officer receiving the application may reject it if it has not been made within twelve months—

(*a*) in the case of improvements made before the commencement of this Act—from the commencement of this Act;

(*b*) in the case of improvements made after the commencement of this Act—from the date of the completion of the work.

## *Bengal Tenancy Act.*

### (*Chapter IX.—Miscellaneous Provisions as to Landlords and Tenants.—Secs. 81—86.*)

Application to record evidence as to improvement.

**81.** (*1*) If any landlord or tenant of a holding desires that evidence relating to any improvement made in respect thereof be recorded, he may apply to a Revenue-officer, who shall thereupon, at a time and place of which notice shall be given to the parties, record the evidence, unless he considers that there are no reasonable grounds for making the application, or it is made to appear that the subject-matter thereof is under inquiry in a Civil Court.

(*2*) When any matter has been recorded under this section, the record thereof shall be admissible in evidence in any subsequent proceedings between the landlord and tenant or any persons claiming under them.

Compensation for raiyats' improvements.

**82.** (*1*) Every raiyat who is ejected from his holding shall be entitled to compensation for improvements which have been made in respect thereof in accordance with this Act by him, or by his predecessor in interest, and for which compensation has not already been paid.

(*2*) Whenever a Court makes a decree or order for the ejectment of a raiyat, it shall determine the amount of compensation (if any) due under this section to the raiyat for improvements, and shall make the decree or order of ejectment conditional on the payment of that amount to the raiyat.

(*3*) No compensation under this section for an improvement shall be claimable where the raiyat has made the improvement in pursuance of a contract or under a lease binding him, in consideration of some substantial advantage to be obtained by him, to make the improvement without compensation, and he has obtained that advantage.

(*4*) Improvements made by a raiyat between the 2nd day of March, 1883, and the commencement of this Act shall be deemed to have been made in accordance with this Act.

(*5*) The Local Government may, from time to time, by notification in the official Gazette, make rules requiring the Court to associate with itself, for the purpose of estimating the compensation to be awarded under this section for an improvement, such number of assessors as the Local Government thinks fit, and determining the qualifications of those assessors and the mode of selecting them.

Principle on which compensation is to be estimated.

**83.** (*1*) In estimating the compensation to be awarded under the last foregoing section for an improvement, regard shall be had—

(*a*) to the amount by which the value, or the produce, of the holding, or the value of that produce, is increased by the improvement;

(*b*) to the condition of the improvement, and the probable duration of its effects

*Improvements.*

(*c*) to the labour and capital required for the making of such an improvement;

(*d*) to any reduction or remission of rent or any other advantage given by the landlord to the raiyat in consideration of the improvement; and

(*e*) in the case of a reclamation or of the conversion of unirrigated into irrigated land, to the length of time during which the raiyat has had the benefit of the improvement at an unenhanced rent.

(*2*) When the amount of the compensation has been assessed, the Court may, if the landlord and raiyat agree, direct that, instead of being paid wholly in money, it shall be made wholly or partly in some other way.

### *Acquisition of land for building and other purposes.*

Acquisition of land for building and other purposes.

**84.** A Civil Court may, on the application of the landlord of a holding, and on being satisfied that he is desirous of acquiring the holding or part thereof for some reasonable and sufficient purpose having relation to the good of the holding or of the estate in which it is comprised, including the use of the ground as building ground, or for any religious, educational or charitable purpose,

*Acquisition of land for building and other purposes.*

and on being satisfied on the certificate of the Collector that the purpose is reasonable and sufficient,

authorise the acquisition thereof by the landlord upon such conditions as the Court may think fit, and require the tenant to sell his interest in the whole or such part of the holding to the landlord upon such terms as may be approved by the Court, including full compensation to the tenant.

### *Sub-letting.*

Restrictions on sub-letting.

**85.** (*1*) If a raiyat sub-lets otherwise than by a registered instrument, the sub-lease shall not be valid against his landlord unless made with the landlord's consent.

*Sub-letting.*

(*2*) A sub-lease by a raiyat shall not be admitted to registration if it purports to create a term exceeding nine years.

(*3*) Where a raiyat has, without the consent of his landlord, granted a sub-lease by an instrument registered before the commencement of this Act, the sub-lease shall not be valid for more than nine years from the commencement of this Act.

### *Surrender and abandonment.*

Surrender.

**86.** (*1*) A raiyat not bound by a lease or other agreement for a fixed period may, at the end of any agricultural year, surrender his holding.

*Surrender and abandonment.*

*Bengal Tenancy Act.*

*(Chapter IX.—Miscellaneous Provisions as to Landlords and Tenants.—Secs. 87-90.)*

*Surrender and abandonment.*

(2) But, notwithstanding the surrender, the raiyat shall be liable to indemnify the landlord against any loss of the rent of the holding for the agricultural year next following the date of the surrender, unless he gives to his landlord, at least three months before he surrenders, notice of his intention to surrender.

(3) When a raiyat has surrendered his holding, the Court shall in the following cases for the purposes of sub-section (2) presume, until the contrary is shown, that such notice was so given, namely:—

(a) if the raiyat takes a new holding in the same village from the same landlord during the agricultural year next following the surrender;

(b) if the raiyat ceases, at least three months before the end of the agricultural year at the end of which the surrender is made, to reside in the village in which the surrendered holding is situate.

(4) The raiyat may, if he thinks fit, cause the notice to be served through the Civil Court within the jurisdiction of which the holding or any portion of it is situate.

(5) When a raiyat has surrendered his holding, the landlord may enter on the holding and either let it to another tenant or take it into cultivation himself.

(6) When a holding is subject to an incumbrance secured by a registered instrument, the surrender of the holding shall not be valid unless it is made with the consent of the landlord and the incumbrancer.

(7) Save as provided in the last foregoing sub-section, nothing in this section shall affect any arrangement by which a raiyat and his landlord may arrange for a surrender of the whole or a part of the holding.

*Abandonment.*

87. (1) If a raiyat voluntarily abandons his residence without notice to his landlord and without arranging for payment of his rent as it falls due, and ceases to cultivate his holding either by himself or by some other person, the landlord may, at any time after the expiration of the agricultural year in which the raiyat so abandons and ceases to cultivate, enter on the holding and let it to another tenant or take it into cultivation himself.

(2) Before a landlord enters under this section, he shall file a notice in the prescribed form in the Collector's office stating that he has treated the holding as abandoned and is about to enter on it accordingly; and the Collector shall cause the notice to be published in such manner as the Local Government, by rule, directs.

(3) When a landlord enters under this section, the raiyat shall be entitled to institute a suit for recovery of possession of the land at any time not later than the expiration of two years, or, in the case of a non-occupancy-raiyat, six months, from the date of the publication of the notice; and thereupon the Court may, on being satisfied that the raiyat did not voluntarily abandon his holding, order recovery of possession on such terms, if any, with respect to compensation to persons injured and payment of arrears of rent as to the Court may seem just. *Surrender and abandonment.*

(4) Where the whole or part of a holding has been sub-let by a registered instrument, the landlord shall, before entering under this section on the holding, offer the whole holding to the sub-lessee for the remainder of the term of the sub-lease at the rent paid by the raiyat who has ceased to cultivate the holding, and on condition of the sub-lessee paying up all arrears due from that raiyat. If the sub-lessee refuses or neglects within a reasonable time to accept the offer, the landlord may avoid the sub-lease and may enter on the holding and let it to another tenant or cultivate it himself as provided in sub-sections (1) and (2).

*Sub-division of tenancy.*

*Sub-division of tenancy*

*Division of tenancy not binding on landlord without his consent.*

88. A division of a tenure or holding, or distribution of the rent payable in respect thereof, shall not be binding on the landlord unless it is made with his consent in writing.

*Ejectment.*

*Ejectment*

*No ejectment except in execution of decree.*

89. No tenant shall be ejected from his tenure or holding except in execution of a decree.

*Measurements.*

*Measurements.*

*Landlord's right to measure land.*

90. (1) Subject to the provisions of this section and any contract, a landlord may, by himself, or by any person authorized by him in this behalf, enter on and measure all land comprised in his estate or tenure, other than land exempt from the payment of revenue.

(2) A landlord shall not, without the consent of the tenant, or the written permission of the Collector, be entitled to measure land more than once in ten years, except in the following cases (namely):—

(a) where the area of the tenure or holding is liable, by reason of alluvion or diluvion, to vary from year to year, and the rent payable depends on the area;

(b) where the area under cultivation is liable to vary from year to year and the rent payable depends on the area under cultivation;

(c) where the landlord is a purchaser otherwise than by voluntary transfer and not more than two years have elapsed since the date of his entry under the purchase.

## *Bengal Tenancy Act.*

### (*Chapter IX.—Miscellaneous Provisions as to Landlords and Tenants.—Secs. 91-98.*)

*Measurements.*

(*3*) The ten years shall be computed from the date of the last measurement, whether made before or after the commencement of this Act.

Power for Court to order tenant to attend and point out boundaries

**91.** (*1*) Where a landlord desires to measure any land which he is entitled to measure under the last foregoing section, the Civil Court may, on the application of the landlord, make an order requiring the tenant to attend and point out the boundaries of the land.

(*2*) If the tenant refuses or neglects to comply with the order, a map or other record of the boundaries and measurements of the land, prepared under the direction of the landlord at the time when the tenant was directed to attend, shall be presumed to be correct until the contrary is shown.

Standard of measurement.

**92.** (*1*) Every measurement of land made by order of a Civil Court, or of a Revenue-officer, in any suit or proceeding between a landlord and tenant, shall be made by the acre, unless the Court or Revenue-officer directs that it be made by any other specified standard.

(*2*) If the rights of the parties are regulated by any local measure other than the acre, the acre shall be converted into the local measure for the purposes of the suit or proceeding.

(*3*) The Local Government may, after local enquiry, make rules declaring for any local area the standard or standards of measurement locally in use in that area, and every declaration so made shall be presumed to be correct until the contrary is shown.

### *Managers.*

*Managers.*

Power to call upon co-owners to show cause why they should not appoint a common manager.

**93.** When any dispute exists between co-owners of an estate or tenure as to the management thereof, and in consequence there has ensued, or is likely to ensue,

(*a*) inconvenience to the public, or

(*b*) injury to private rights,

the District Judge may, on the application in case (*a*) of the Collector, and in case (*b*) of any one having an interest in the estate or tenure, direct a notice to be served on all the co-owners, calling on them to show cause why they should not appoint a common manager:

Provided that a co-owner of an estate or tenure shall not be entitled to apply under this section unless he is actually in possession of the interest he claims, and, if he is a co-owner of an estate, unless his name and the extent of his interest are registered under the Land Registration Act, 1876.

VII (B.C.) of 1876.

Power to order them to appoint a manager if cause is not shown.

**94.** If the co-owners fail to show cause as aforesaid within one month after service of a notice under the last foregoing section, the District Judge may make an order directing them to appoint a common manager, and a copy of the order shall be served on any co-owner who did not appear before it was made.

*Managers*

Power to appoint manager if order is not obeyed.

**95.** If the co-owners do not, within such period, not being less than one month after the making of an order under the last foregoing section, as the District Judge may fix in this behalf, or, where the order has been served as directed by that section, within a like period after such service, appoint a common manager and report the appointment for the information of the District Judge, the District Judge may, unless it is shown to his satisfaction that there is a prospect of a satisfactory arrangement being made within a reasonable time,—

(*a*) direct that the estate or tenure be managed by the Court of Wards in any case in which the Court of Wards consents to undertake the management thereof; or

(*b*) in any case appoint a manager.

Power to nominate person to act in all cases under clause (*b*) of last section.

**96.** The Local Government may nominate a person for any local area to manage all estates and tenures within that local area for which it may be necessary to appoint a manager under clause (*b*) of the last foregoing section; and, when any person has been so nominated, no other person shall be appointed manager under that clause by the District Judge, unless in the case of any estate the Judge thinks fit to appoint one of the co-owners themselves as manager.

The Court of Wards Act, 1879, applicable to management by Court of Wards.

**97.** In any case in which the Court of Wards undertakes under section 95 the management of an estate or tenure, so much of the provisions of the Court of Wards Act, 1879, as relates to the management of immoveable property shall apply to the management.

(*2*) He shall give such security for the proper discharge of his duties as the District Judge directs.

(*3*) He shall, subject to the control of the District Judge, have, for the purposes of management, the same powers as the co-owners jointly might but for his appointment have exercised, and the co-owners shall not exercise any such power.

Power to make rules.

**100.** The High Court may, from time to time, make rules defining the powers and duties of managers under the foregoing sections.

## CHAPTER X.

### RECORD-OF-RIGHTS AND SETTLEMENT OF RENTS.

**101.** (1) The Local Government may, in any case with the previous sanction of the Governor General in Council, and may, if it thinks fit, without such sanction in any of the cases next hereinafter mentioned, make an order directing that a survey be made, and a record-of-rights be prepared, in respect of the lands in a local area by a Revenue-officer.

(2) The cases in which an order may be made under this section without the previous sanction of the Governor General in Council are the following (namely):—

(a) where the landlord or a large proportion of the landlords or of the tenants applies for such an order and deposits, or gives security for, such amount, for the payment of expenses, as the Local Government directs;

(b) where the preparation of such a record is calculated to settle or avert a serious dispute existing or likely to arise between the tenants and their landlords generally;

(c) where the local area is comprised in an estate or tenure which belongs to or is managed by the Government or the Court of Wards; and

(d) where a settlement of revenue is being made in respect of the local area.

(3) A notification in the official Gazette of an order under this section shall be conclusive evidence that the order has been duly made.

Power for Revenue-officer to record particulars on application of proprietor or tenure-holder.

**103.** On the application of a proprietor or tenure-holder, and on his depositing or giving security for the required amount for expenses, a Revenue-officer may, subject to and in accordance with rules made in this behalf by the Local Government, ascertain and record the particulars specified in the last foregoing section with respect to the estate or tenure or any part thereof.

Procedure as to recording or settling rents.

**104.** (1) When, in any proceeding under this chapter, it does not appear that the tenant is holding land in excess of or less than that for which he is paying rent, and neither the landlord nor the tenant applies for a settlement of rent, the officer shall record the rent payable by the tenant, and the land in respect of which the rent is payable.

(2) When it appears that a tenant is holding land in excess of, or less than, that for which he is

paying rent, or either the landlord or the tenant applies for a settlement of rent, or in any case under section 101, sub-section (*2*), clause (*d*), the officer shall settle a fair and equitable rent in respect of the land held by the tenant.

(*3*) In settling rents under this section, the officer shall presume, until the contrary is proved, that the existing rent is fair and equitable, and shall have regard to the rules laid down in this Act for the guidance of the Civil Court in increasing or reducing rents, as the case may be.

Publication of record.

**105.** (*1*) When the Revenue-officer has completed a record made under this chapter, he shall cause a draft thereof to be locally published in the prescribed manner and for the prescribed period, and shall receive and consider any objection which may be made to any entry therein during the period of publication.

(*2*) After the expiration of this period the Revenue-officer shall finally frame the record, and shall cause it to be locally published in the prescribed manner, and the publication shall be conclusive evidence that the record has been duly made under this chapter.

Procedure in case of dispute as to entries in record.

**106.** If at any time before the final publication of the record under the last foregoing section a dispute arises as to the correctness of any entry (not being an entry of a rent settled under this chapter), or as to the propriety of any omission, which the Revenue-officer proposes to make or has made therein or therefrom, the Revenue-officer shall hear and decide the dispute.

Procedure to be adopted by Revenue-officer.

**107.** In all proceedings for the settlement of rents under this chapter, and in all proceedings under the last foregoing section, the Revenue-officer shall, subject to rules made by the Local Government under this Act, adopt the procedure laid down in the Code of Civil Procedure for the trial of suits, and his decision in every such proceeding shall have the force of a decree.

XIV of 1882.

(*3*) Subject to the provisions of Chapter XLII of the Code of Civil Procedure, an appeal shall lie to the High Court from the decision of a Special Judge in any case under section 106 as if he were a Court subordinate to the High Court within the meaning of the first section of that chapter:

XIV of 1882.

Provided that, if in a second appeal the High Court alters the decision of the Special Judge in respect of any of the particulars with reference to which the rent of any tenure or holding has been settled, the Court may settle a new rent for the tenure or holding, but in so doing shall be guided by the rents of the other tenures or holdings of the same class comprised in the same record as ascertained or settled under section 104.

Undisputed entries in record to be presumptive evidence.

**109.** (*1*) Every record made under this chapter shall distinguish between the disputed and the undisputed entries therein.

(*2*) Every undisputed entry in the record shall be presumed to be correct until the contrary is proved.

Time at which settlement of rent is to take effect.

**110.** When any rent is settled under this chapter, the settlement shall take effect from the beginning of the agricultural year next after the final publication of the record.

Stay of proceedings in Civil Court during preparation of record.

**111.** When an order has been made under section 101,—

(*a*) a Civil Court shall not, until the final publication of the record, entertain a suit or application for the alteration of the rent or the determination of the status of any tenant in the area to which the order applies; and

(*b*) the High Court may, if it thinks fit, transfer to the Revenue-officer any proceedings pending in a Civil Court for the alteration of any such rent or for the determination of any of the matters specified or referred to in section 102.

Power to authorise a special settlement in special cases.

**112.** (*1*) The Local Government, with the previous sanction of the Governor General in Council, may, on being satisfied that the exercise of the powers hereinafter mentioned is necessary in the interests of public order or of the local welfare, invest a Revenue-officer acting under this chapter with the following powers or either of them, namely:—

(*a*) power to settle all rents;

(*b*) power, when settling rents, to reduce rents if in the opinion of the officer the maintenance of existing rents would on any ground, whether specified in this Act or not, be unfair or inequitable.

(*2*) The powers given under this section may be made exerciseable within a specified area either generally or with reference to specified cases or classes of cases.

(*3*) When the Local Government takes any action under this section, the settlement-record prepared by the Revenue-officer shall not take effect until it has been finally confirmed by the Governor General in Council.

### (*Chaper XI.—Record of Proprietors' Private Lands.—Secs. 113—120.*)

### (*Chapter XII.—Distraint.—Sec. 121.*)

Period for which rents as settled are to remain unaltered.

**113.** When the rent of a tenure or holding is settled under this chapter, it shall not, except on the ground of a landlord's improvement or of a subsequent alteration in the area of the tenure or holding, be enhanced, in the case of a tenure or an occupancy-holding for fifteen years, and, in the case of a non-occupancy-holding, if the rent is settled in any case under section 112 or on the application of the landlord under section 104, for five years. The periods of fifteen and five years shall be counted from the date of the final publication of the record.

Expenses of proceedings under chapter.

**114.** Where an order is made under this chapter in any case except under section 101, sub-section (*2*), clause (*d*), the expenses incurred by the Government in carrying out the provisions of this chapter in any local area, or such part of those expenses as the Local Government may direct, shall be defrayed by the landlords and tenants of land in that local area, in such proportions as the Local Government, having regard to all the circumstances of each case, may determine; and the proportion of those expenses so to be defrayed by any person shall be recoverable by the Government from him as if it were an arrear of revenue due by him.

Presumption as to fixity of rent not to apply where record has been prepared.

**115.** When the particulars mentioned in section 102, clause (*b*), have been recorded under this chapter in respect of any tenancy, the presumption under section 50 shall not thereafter apply to that tenancy.

Saving as to khámár land.

**116.** Nothing in Chapter V shall confer a right of occupancy in, and nothing in Chapter VI shall apply to, a proprietor's private lands known in Bengal as khámár, nij or nij-jot, and in Behar as zirát, nij, sír or kamat, where any such land is held under a lease for a term of years or under a lease from year to year.

Power for Government to order survey and record of proprietor's private lands.

**118.** In the case of any land alleged to be a proprietor's private land, on the application of the proprietor or of any tenant of the land, and on his depositing the required amount for expenses, a Revenue-officer may, subject to and in accordance with rules made in this behalf by the Local Government, ascertain and record whether the land is or is not a proprietor's private land.

Procedure for recording private land.

**119.** When a Revenue-officer proceeds under either of the two last foregoing sections, the provisions of sections 105 to 109, both inclusive, shall apply.

Rules for determination of proprietor's private land.

**120.** (*1*) The Revenue-officer shall record as a proprietor's private land—

(*b*) cultivated land which is recognized by village usage as proprietor's khámár, zirát, sír, nij, nij-jot or kamat.

(*2*) In determining whether any other land ought to be recorded as a proprietor's private land, the officer shall have regard to local custom, and to the question whether the land was before the second day of March, 1883, specifically let as proprietor's private land, and to any other evidence that may be produced; but shall presume that land is not a proprietor's private land until the contrary is shown.

(*3*) If any question arises in a Civil Court as to whether land is or is not a proprietor's private land, the Court shall have regard to the rules laid down in this section for the guidance of Revenue-officers.

## CHAPTER XII.

### Distraint.

Cases in which an application for distraint may be made.

**121.** Where an arrear of rent is due to the landlord of a raiyat or under-raiyat, and has not been due for more than a year, and no security has been accepted therefor by the landlord, the landlord may, in addition to any other remedy to which he is entitled by law, present an application to the Civil Court requesting the Court to recover the arrear by distraining, while in the possession of the cultivator,—

*(Chapter XII.—Distraint.—Secs. 122-126.)*

Provided that an application shall not be made under this section—

(*1*) by a proprietor or manager as defined under the Land Registration Act, 1876, or a mortgagee of such a proprietor or manager, unless his name and the extent of his interest in the land in respect of which the arrear is due have been registered under the provisions of that Act; or

(*b*) the name of the tenant;

(*c*) the period in respect of which the arrear is claimed;

(*d*) the amount of the arrear, with the interest, if any, claimed thereon, and, when an amount in excess of the rent payable by the tenant in the last preceding agricultural year is claimed, the contract, or proceeding, as the case may be, under which that amount is payable;

(*e*) the nature and approximate value of the produce to be distrained;

(*f*) the place where it is to be found, or such other particulars as may suffice for its identification; and

(*g*) if it is standing or ungathered, the time at which it is likely to be cut or gathered.

(*2*) The application shall be signed and verified in the manner prescribed by the Code of Civil Procedure for the signing and verification of plaints.

V of 1882.

**123.** (*1*) The applicant shall, at the time of filing an application under the foregoing sections, file in Court such documentary evidence (if any) as he may consider necessary for the purposes of the application.

Procedure on receipt of application.

(*2*) The Court may, if it thinks fit, examine the applicant, and shall, with as little delay as possible, admit the application or reject it, or permit the applicant to furnish additional evidence in support of it.

(*3*) Where a Court cannot forthwith admit or reject an application under sub-section (*2*), it may, if it thinks fit, make an order prohibiting the removal of the produce specified in the application pending the execution of an order for distraining the same or the rejection of the application.

(*4*) When an order for distraining any produce is made under this section at a considerable time before the produce is likely to be cut or gathered, the Court may suspend the execution of the order for such time as it thinks fit, and may, if it thinks fit, make a further order prohibiting the removal of the produce pending the execution of the order for distraint.

**124.** If an application is admitted under the last foregoing section, the Court shall depute an officer to distrain the produce specified therein, or such portion of that produce as it thinks fit; and the officer shall proceed to the place where the produce is, and distrain the produce by taking charge of it himself or placing some other person in charge of it in his behalf, and publishing a notification of the distraint in accordance with rules to that effect to be made by the High Court:

Execution of order for distraint

Provided that produce which from its nature does not admit of being stored shall not be distrained under this section at any time less than twenty days before the time when it would be fit for reaping or gathering.

**125.** (*1*) The distraining officer shall, at the time of making the distraint, serve on the defaulter a written demand for the arrear due, and the costs incurred in making the distraint, with an account exhibiting the grounds on which the distraint is made.

Service of demand and account.

(*2*) Where the distraining officer has reason to believe that a person other than the defaulter is the owner of the property distrained, he shall serve copies of the demand and account on that person likewise.

(*3*) The demand and account shall, if practicable, be served personally; but if a person on whom they are to be served absconds or conceals himself, or cannot otherwise be found, the officer shall affix copies of the demand and account on a conspicuous part of the outside of the house in which he usually resides.

**126.** (*1*) A distraint under this chapter shall not prevent any person from reaping, gathering or storing any produce, or doing any other act necessary for its due preservation.

Right to reap, &c., produce.

(*2*) If the person entitled to do so fails to do so at the proper time, the distraining officer shall cause any standing crops or ungathered products

*(Chapter XII.—Distraint.—Secs. 127—136.)*

distrained to be reaped or gathered when ripe, and stored in such granaries or other places as are commonly used for the purpose, or in some other convenient place in the neighbourhood, or shall do whatever else may be necessary for the due preservation of the same.

(3) In either case the distrained property shall remain in the charge of the distraining officer, or of some other person appointed by him in this behalf.

Sale proclamation to issued unless demand is satisfied.

127. (1) Unless the demand, with all costs of the distraint, be immediately satisfied, the distraining officer shall issue a proclamation specifying the particulars of the property distrained and the demand for which it is distrained, and notifying that he will, at a place and on a day specified, not being less than three or more than seven days after the time of making the distraint, sell the distrained property by public auction:

Provided that when the crops or products distrained from their nature admit of being stored but have not yet been stored, the day of the sale shall be so fixed as to admit of their being made ready for storing before its arrival.

(2) The proclamation shall be stuck up on a conspicuous place in the village in which the land is situate for which the arrears of rent are claimed.

Place of sale.

128. The sale shall be held at the place where the distrained property is, or at the nearest place of public resort if the distraining officer is of opinion that it is likely to sell there to better advantage.

When produce may be sold standing.

129. (1) Crops or products which from their nature admit of being stored shall not be sold before they are reaped or gathered and are ready for storing.

(2) Crops or products which from their nature do not admit of being stored may be sold before they are reaped or gathered, and the purchaser shall be entitled to enter on the land by himself, or by any person appointed by him in this behalf, and do all that is necessary for the purpose of tending and reaping or gathering them.

Manner of sale.

130. The property shall be sold by public auction, in one or more lots as the officer holding the sale may think advisable; and if the demand, with the costs of distraint and sale, is satisfied by the sale of a portion of the property, the distraint shall be immediately withdrawn with respect to the remainder.

Postponement of sale.

131. If, on the property being put up for sale, a fair price (in the estimation of the officer holding the sale) is not offered for it, and if the owner of the property, or a person authorised to act in his behalf, applies to have the sale postponed till the next day, or (if a market is held at the place of sale) the next market-day, the sale shall be postponed until that day, and shall be then completed, whatever price may be offered for the property.

Payment of purchase-money.

132. The price of every lot shall be paid at the time of sale, or as soon thereafter as the officer holding the sale directs, and in default of such payment the property shall be put up again and sold.

Certificate to be given to purchaser.

133. When the purchase-money has been paid in full, the officer holding the sale shall give the purchaser a certificate describing the property purchased by him and the price paid.

Proceeds of sale how to be applied.

134. (1) From the proceeds of every sale of distrained property under this chapter, the officer holding the sale shall pay the costs of the distraint and sale, calculated on a scale of charges prescribed by rules to be made, from time to time, by the Local Government in this behalf.

(2) The remainder shall be applied to the discharge of the arrear for which the distress was made, with interest thereon up to the day of sale; and the surplus (if any) shall be paid to the person whose property has been sold.

Certain persons may not purchase.

135. Officers holding sales of property under this Act, and all persons employed by, or subordinate to, such officers, are prohibited from purchasing, either directly or indirectly, any property sold by such officers.

Procedure where demand is paid before the sale.

136. (1) If at any time after a distraint has been made under this chapter, and before the sale of the distrained property, the defaulter, or the owner of the distrained property where he is not the defaulter, deposits in the Court issuing the order of distraint, or in the hands of the distraining officer, the amount specified in the demand served under section 125, with all costs which may have been incurred after the service of the demand, the Court or officer, as the case may be, shall grant a receipt for the same and the distraint shall forthwith be withdrawn.

(2) When the distraining officer receives the deposit, he shall forthwith pay it into the Court.

(3) A receipt granted under this section to an owner of distrained property not being the defaulter shall afford a full protection to him against any subsequent claim for the arrears of rent on account of which the distraint was made.

(4) After the expiration of one month from the date of a deposit being made under this section,

## *Bengal Tenancy Act.*

*(Chapter XII.—Distraint.—Secs. 137-142.)*

*(Chapter XIV.—Judicial Procedure.—Secs. 143-144.)*

the Court shall pay therefrom to the applicant for distraint the amount due to him, unless in the meanwhile the owner of the property distrained has instituted a suit against the applicant contesting the legality of the distraint and claiming compensation in respect of the same.

(5) A landlord shall not be deemed to have consented to his tenant's sub-letting the holding or any part thereof merely by reason of his having received an amount deposited under this section by an inferior tenant.

Amount paid by under-tenant for his lessor may be deducted from rent.

**137.** (1) When an inferior tenant, on his property being lawfully distrained under this chapter for the default of a superior tenant, makes any payment under the last foregoing section, he shall be entitled to deduct the amount of that payment from any rent payable by him to his immediate landlord, and that landlord, if he is not the defaulter, shall in like manner be entitled to deduct the amount so deducted from any rent payable by him to his immediate landlord, and so on until the defaulter is reached.

(2) Nothing in this section shall affect the right of an inferior tenant making a payment under the last foregoing section to institute a suit for the recovery from the defaulter of any portion of the amount paid which he has not deducted under this section.

Conflict between rights of superior and inferior landlords.

**138.** When land is sub-let, and any conflict arises under this chapter between the rights of a superior and of an inferior landlord who distrain the same property, the right of the superior landlord shall prevail.

Distraint of property which is under attachment.

**139.** When any conflict arises between an order for distraint issued under this chapter and an order issued by a Civil Court for the attachment or sale of the property which is the subject of the distraint, the order for distraint shall prevail; but, if the property is sold under that order, the surplus proceeds of the sale shall not be paid under section 134 to the owner of the property without the sanction of the Court by which the order of attachment or sale was issued.

Suit for compensation for wrongful distraint.

**140.** No appeal shall lie from any order passed by a Civil Court under this chapter; but any person whose property is distrained on an application made under section 121 in any case in which such an application is not permitted by that section may institute a suit against the applicant for the recovery of compensation.

Power for Local Government to authorize distraint in certain cases.

**141.** (1) When the Local Government is of opinion that in any local area or in any class of cases it would, by reason of the character of the cultivation or the habits of the cultivators, be impracticable for a landlord to realize his rent by an application under this chapter, to the Civil Court, it may, from time to time, by order, authorize the landlord to distrain, by himself or his agent, any produce for the distraint of which he would be entitled to apply under this chapter to the Civil Court:

Provided that every person distraining any produce under such authorization shall proceed in the manner prescribed by section 124, and shall forthwith give notice, in such form as the High Court may, by rule, prescribe, to the Civil Court having jurisdiction to entertain an application for distraining the produce, and that Court shall, with no avoidable delay, depute an officer to take charge of the produce distrained.

(2) When an officer of the Court has taken charge of any distrained produce under this section, the proceedings shall thereafter be conducted in all respects as if he had distrained it under section 124.

(3) The Local Government may at any time rescind any order made by it under this section.

Power for High Court to make rules.

**142.** The High Court may, from time to time, make rules consistent with this Act for regulating the procedure in all cases under this chapter.

## CHAPTER XIII.

### JUDICIAL PROCEDURE.

Power to modify Civil Procedure Code in its application to landlord and tenant suits.

**143.** (1) The High Court may, from time to time, with the approval of the Governor General in Council, make rules consistent with this Act declaring that any portions of the Code of Civil Procedure shall not apply to suits between landlord and tenant as such or to any specified classes of such suits, or shall apply to them subject to modifications specified in the rules.

(2) Subject to any rules so made, and subject also to the other provisions of this Act, the Code of Civil Procedure shall apply to all such suits. XIV of 1882.

Jurisdiction in proceedings under Act.

**144.** (1) The cause of action in all suits between landlord and tenant as such shall, for the purposes of the Code of Civil Procedure, be deemed to have arisen XIV of 1882. within the local limits of the jurisdiction of the Civil Court which would have jurisdiction to entertain a suit for the possession of the tenure or holding in connection with which the suit is brought.

(2) When under this Act a Civil Court is authorized to make an order on the application of a landlord or a tenant, the application shall be made to the Court which would have jurisdiction to entertain a suit for the possession of the tenure or holding in connection with which the application is brought.

## *Bengal Tenancy Act.*

### (*Chapter XIII.—Judicial Procedure.—Secs. 145-151.*)

**145.** Every náib or gumáshta of a landlord empowered in this behalf by a written authority under the hand of the landlord shall, for the purposes of every such suit or application, be deemed to be the recognized agent of the landlord within the meaning of the Code of Civil Procedure, notwithstanding that the landlord may reside within the local limits of the jurisdiction of the Court in which the suit is to be instituted or is pending, or in which the application is made.

Náibs or gumáshtas to be recognized agents.

XIV of 1882

**146.** The particulars referred to in section 58 of the Code of Civil Procedure shall, in the case of such suits, instead of being entered in the register of civil suits prescribed by that section, be entered in a special register to be kept by each Civil Court, in such form as the Local Government may, from time to time, prescribe in this behalf.

XIV of 1882.

Special register of suits.

**147.** Subject to the provisions of section 373 of the Code of Civil Procedure, where a landlord has instituted a suit against a raiyat for the recovery of any rent of his holding, the landlord shall not institute another suit against him for the recovery of any rent of that holding until after three months from the date of the institution of the previous suit.

XIV of 1882.

Successive rent-suits.

**148.** The following rules shall apply to suits for the recovery of rent:—

Procedure in rent-suits.

(*a*) sections 121 to 127 (both inclusive), 129, 305, and 320 to 326 (both inclusive) of the Code of Civil Procedure shall not apply to any such suit:

XIV of 1882.

(*b*) the plaint shall contain, in addition to the particulars specified in section 50 of the Code of Civil Procedure, a statement of the situation, designation, extent and boundaries of the land held by the tenant; or, where the plaintiff is unable to give the extent or boundaries, in lieu thereof a description sufficient for identification:

XIV of 1882.

(*c*) the summons shall be for the final disposal of the suit, unless the Court is of opinion that the summons should be for the settlement of issues only;

(*d*) the service of the summons may, if the High Court by rule, either generally, or specially for any local area, so directs, be effected, either in addition to, or in substitution for, any other mode of service, by forwarding the summons by post in a letter addressed to the defendant and registered under Part III of the Indian Post Office Act, 1866; when a summons is so forwarded in a letter, and it is proved that the letter was duly posted and registered, the Court may presume that the summons has been duly served:

XIV of 1866.

(*e*) a written statement shall not be filed without the leave of the Court:

(*f*) the rules for recording the evidence of witnesses prescribed by section 189 of the Code of Civil Procedure shall apply, whether an appeal is allowed or not:

XIV of 1882.

(*g*) the Court may, when passing the decree, order on the oral application of the decree-holder the execution thereof, unless it is a decree for ejectment for arrears:

(*h*) notwithstanding anything contained in section 232 of the Code of Civil Procedure, an application for the execution of a decree for arrears obtained by a landlord shall not be made by an assignee of the decree unless the landlord's interest in the land has become and is vested in him.

**149.** (*1*) When a defendant admits that money is due from him on account of rent, but pleads that it is due not to the plaintiff but to a third person, the Court shall, except for special reasons to be recorded in writing, refuse to take cognizance of the plea unless the defendant pays into Court the amount so admitted to be due.

Payment into Court of money admitted to be due to third person.

(*2*) Where such a payment is made, the Court shall forthwith cause notice of the payment to be served on the third person.

(*3*) Unless the third person within three months from the receipt of the notice institutes a suit against the plaintiff and therein obtains an order restraining payment out of the money, it shall be paid out to the plaintiff on his applicatio-

(*4*) Nothing in this section shall affect the right of any person to recover from the plaintiff money paid to him under sub-section (*3*).

**150.** When a defendant admits that money is due from him to the plaintiff on account of rent, but pleads that the amount claimed is in excess of the amount due, the Court shall, except for special reasons to be recorded in writing, refuse to take cognizance of the plea unless the defendant pays into Court the amount so admitted to be due.

Payment into Court of money admitted to be due to landlord.

**151.** When a defendant is liable to pay money into Court under either of the two last foregoing sections, if the Court thinks that there are sufficient reasons for so ordering, it may take cognizance of the defendant's plea on his paying into Court such reasonable portion of the money as the Court directs.

Provision as to payment of portion of money.

Court to grant receipt.

**152.** When a defendant pays money into Court under either of the said sections, the Court shall give the defendant a receipt, and the receipt so given shall operate as an acquittance in the same manner and to the same extent as if it had been given by the plaintiff or the third person as the case may be.

Appeals in rent-suits.

**153.** An appeal shall not lie from any decree or order passed, whether in the first instance or on appeal, in any suit instituted by a landlord for the recovery of rent where—

(*a*) the decree or order is passed by a District Judge, Additional Judge or Subordinate Judge, and the amount claimed in the suit does not exceed one hundred rupees, or

(*b*) the decree or order is passed by any other judicial officer specially empowered by the Local Government to exercise final jurisdiction under this section, and the amount claimed in the suit does not exceed fifty rupees;

unless in either case the decree or order has decided a question relating to title to land or to some interest in land as between parties having conflicting claims thereto, or a question of a right to enhance or vary the rent of a tenant, or a question of the amount of rent annually payable by a tenant:

Provided that the District Judge may call for the record of any case in which a judicial officer as aforesaid has passed a decree or order to which this section applies, if it appears that the judicial officer has exercised a jurisdiction not vested in him by law, or has failed to exercise a jurisdiction so vested, or has acted in the exercise of his jurisdiction illegally or with material irregularity; and may pass such order as the District Judge thinks fit.

Date from which decree for enhancement takes effect.

**154.** A decree for enhancement of rent under this Act, if passed in a suit instituted in the first eight months of an agricultural year, shall ordinarily take effect on the commencement of the agricultural year next following; and, if passed in a suit instituted in the last four months of the agricultural year, shall ordinarily take effect on the commencement of the agricultural year next but one following; but nothing in this section shall prevent the Court from fixing, for special reasons, a later date from which any such decree shall take effect.

Relief against forfeitures.

**155.** (*1*) A suit for the ejectment of a tenant, on the ground—

(*a*) that he has used the land in a manner which renders it unfit for the purposes of the tenancy, or

(*b*) that he has broken a condition on breach of which he is, under the terms of a contract between him and the landlord, liable to ejectment,

shall not be entertained unless the landlord has served, in the prescribed manner, a notice on the tenant specifying the particular misuse or breach complained of, and, where the misuse or breach is capable of remedy, requiring the tenant to remedy the same, and, in any case, to pay reasonable compensation for the misuse or breach, and the tenant has failed to comply within a reasonable time with that request.

(*2*) A decree passed in favour of a landlord in any such suit shall declare the amount of compensation which would reasonably be payable to the plaintiff for the misuse or breach, and whether, in the opinion of the Court, the misuse or breach is capable of remedy, and shall fix a period during which it shall be open to the defendant to pay that amount to the plaintiff, and, where the misuse or breach is declared to be capable of remedy, to remedy the same.

(*3*) The Court may, from time to time, for special reasons, extend a period fixed by it under sub-section (*2*).

(*4*) If the defendant, within the period or extended period (as the case may be) fixed by the Court under this section, pays the compensation mentioned in the decree, and, where the misuse or breach is declared by the Court to be capable of remedy, remedies the misuse or breach to the satisfaction of the Court, the decree shall not be executed.

Rights of ejected raiyats in respect of crops and land prepared for sowing.

**156.** The following rules shall apply in the case of every raiyat ejected from a holding:—

(*a*) when the raiyat has, before the date of his ejectment, sown or planted crops in any land comprised in the holding, he shall be entitled, at the option of the landlord, either to retain possession of that land and to use it for the purpose of tending and gathering in the crops, or to receive from the landlord the value of the crops as estimated by the Court executing the decree for ejectment;

(*b*) when the raiyat has, before the date of his ejectment, prepared for sowing any land comprised in his holding, but has not sown or planted crops in that land, he shall be entitled to receive from the landlord the value of the labour and capital expended by him in so preparing the land, as estimated by the Court executing the decree for ejectment, together with reasonable interest on that value;

(*c*) but a raiyat shall not be entitled to retain possession of any land or receive any sum in respect thereof under this section where, after the commencement of pro-

ceedings by the landlord for his ejectment, he has cultivated or prepared the land contrary to local usage;

(*d*) if the landlord elects under this section to allow a raiyat to retain possession of the land, the raiyat shall pay to the landlord, for the use and occupation of the land during the period for which he is allowed to retain possession of the same, such rent as the Court executing the decree for ejectment may deem reasonable.

Power for Court to fix fair rent as alternative to ejectment.

**157.** When a plaintiff institutes a suit for the ejectment of a trespasser he may, if he thinks fit, claim as alternative relief that the defendant be declared liable to pay for the land in his possession a fair and equitable rent to be determined by the Court, and the Court may grant such relief accordingly.

Application to determine incidents of tenancy.

**158.** (*1*) The Court having jurisdiction to determine a suit for the possession of land may, on the application of either the landlord or the tenant of the land, determine all or any of the following matters, (namely) :—

(*a*) the situation, quantity and boundaries of the land;

(*b*) the name and description of the tenant thereof (if any);

(*c*) the class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy-raiyat, non-occupancy-raiyat, or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not and whether his rent is liable to enhancement during the continuance of his tenure; and

(*d*) the rent payable by him at the time of the application.

(*2*) If, in the opinion of the Court, any of these matters cannot be satisfactorily determined without a local inquiry, the Court may direct that a local inquiry be held under Chapter XXV of the Code of Civil Procedure by such Revenue-officer as the Local Government may authorize in that behalf by rule made under section 392 of the said Code.

XIV of 1882.]

(*3*) The order on any application under this section shall have the effect of, and be subject to the like appeal as, a decree.

## CHAPTER XIV.

### SALE FOR ARREARS UNDER DECREE.

General powers of purchaser as to avoidance of incumbrances

**159.** Where a tenure or holding is sold in execution of a decree for arrears due in respect thereof, the purchaser shall take subject to the interests defined in this chapter as "protected interests", but with power to annul the interests defined in this chapter as "incumbrances":

Provided as follows :—

(*a*) a registered and notified incumbrance within the meaning of this chapter shall not be so annulled except in the case hereinafter mentioned in that behalf;

(*b*) the power to annul shall be exercisable only in manner by this chapter directed.

Protected interests.

**160.** The following shall be deemed to be protected interests within the meaning of this chapter :—

(*a*) any under-tenure existing from the time of the Permanent Settlement;

(*b*) any under-tenure recognized by the settlement-proceedings of any current temporary settlement as a tenure at a rent fixed for the period of that settlement;

(*c*) any lease of land whereon dwelling-houses, manufactories or other permanent buildings have been erected, or permanent gardens, plantations, tanks, canals, places of worship or burning or burying grounds have been made;

(*d*) any right of occupancy;

(*e*) the right of a non-occupancy-raiyat to hold for five years at a rent fixed under Chapter VI by a Court, or under Chapter X by a Revenue-officer;

(*f*) any right conferred on an occupancy-raiyat to hold at a rent which was a fair and reasonable rent at the time the right was conferred; and

(*g*) any right or interest which the landlord at whose instance the tenure or holding is sold, or his predecessor in title, has expressly and in writing given the tenant for the time being permission to create.

Meaning of "incumbrance" and "registered and notified incumbrance."

**161.** For the purposes of this chapter—

(*a*) the term "incumbrance", used with reference to a tenancy, means any lien, sub-tenancy, easement or other right or interest created by the tenant on his tenure or holding or in limitation of his own interest therein, and not being a protected interest as defined in the last foregoing section;

(*b*) the term "registered and notified incumbrance", used with reference to a tenure or holding sold or liable to sale in execution of a decree for an arrear of rent due in respect thereof, means an incumbrance created by a registered instrument of which a copy has, not less than three months before the accrual of the arrear, been served on the landlord in manner hereinafter provided.

Application for sale of tenure or holding.

**162.** When a decree has been passed for an arrear of rent due for a tenure or holding, and the decree-holder applies under section 235 of the Code of Civil Procedure for the attach-

ment and sale of the tenure or holding in execution of the decree, he shall produce a statement showing the parganá, estate and village in which the land comprised in the tenure or holding is situate, the yearly rent payable for the same and the total amount recoverable under the decree.

XIV of 1882.

**163.** (*1*) Notwithstanding anything contained in the Code of Civil Procedure, when the decree-holder makes the application mentioned in the last foregoing section, the Court shall, if under section 245 of the said Code it admits the application and orders execution of the decree as applied for, issue simultaneously the order of attachment and the proclamation required by section 287 of the said Code.

Order of attachment and proclamation of sale to be issued simultaneously.

(*2*) The proclamation shall, in addition to stating and specifying the particulars mentioned in section 287 of the said Code, announce—

(*a*) in the case of a tenure or a holding of a raiyat holding at fixed rates, that the tenure or holding will first be put up to auction subject to the registered and notified incumbrances, and will be sold subject to those incumbrances if the sum bid is sufficient to liquidate the amount of the decree and costs, and that otherwise it will, if the decree-holder so desires, be sold on a subsequent day, of which due notice will be given, with power to annul all incumbrances; and

(*b*) in the case of an occupancy-holding, that the holding will be sold with power to annul all incumbrances.

(*3*) The proclamation shall, besides being made in the manner prescribed by section 289 of the said Code, be published by fixing up a copy thereof in a conspicuous place on the land comprised in the tenure or holding ordered to be sold, and shall also be published in such manner as the Local Government may, from time to time, direct in this behalf.

(*4*) Notwithstanding anything contained in section 290 of the said Code, the sale shall not, without the consent in writing of the judgment-debtor, take place until after the expiration of at least thirty days, calculated from the date on which the copy of the proclamation has been fixed up on the land comprised in the tenure or holding ordered to be sold.

**164.** (*1*) When a tenure or a holding at fixed rates has been advertised for sale under the last foregoing section, it shall be put up to auction, subject to registered and notified incumbrances; and, if the bidding reaches a sum sufficient to liquidate the amount of the decree and costs, including the costs of sale, the tenure or holding shall be sold subject to such incumbrances.

Sale of tenure or holding subject to registered and notified incumbrances, and effect thereof.

(*2*) The purchaser at a sale under this section may, in manner provided by section 167, and not otherwise, annul any incumbrance upon the tenure or holding not being a registered and notified incumbrance.

**165.** (*1*) If the bidding for a tenure or a holding at fixed rates put up to auction under the last foregoing section does not reach a sum sufficient to liquidate the amount of the decree and costs as aforesaid, and if the decree-holder thereupon desires that the tenure or holding be sold with power to avoid all incumbrances, the officer holding the sale shall adjourn the sale and make a fresh proclamation under section 289 of the Code of Civil Procedure, announcing that the tenure or holding will be put up to auction and sold with power to avoid all incumbrances upon a future day specified therein, not less than fifteen or more than thirty days from the date of the postponement; and upon that day the tenure or holding shall be put up to auction and sold with power to avoid all incumbrances.

Sale of tenure or holding with power to avoid all incumbrances, and effect thereof.

XIV of 1882.

(*2*) The purchaser at a sale under this section may, in manner provided by section 167, and not otherwise, annul any incumbrance on the tenure or holding.

**166.** (*1*) When an occupancy-holding has been advertised for sale under section 163, it shall be put up to auction and sold with power to avoid all incumbrances.

Sale of occupancy-holding with power to avoid all incumbrances, and effect thereof.

(*2*) The purchaser at a sale under this section may, in manner provided by the next following section, and not otherwise, annul any incumbrance on the holding.

**167.** (*1*) A purchaser having power to annul an incumbrance under any of the foregoing sections and desiring to annul the same, may, within one year from the date of the sale or the date on which he first has notice of the incumbrance, whichever is later, present to the Collector an application in writing, requesting him to serve on the incumbrancer a notice declaring that the incumbrance is annulled.

Procedure for annulling incumbrances under the foregoing sections.

(*2*) Every such application must be accompanied by such fee for the service of the notice as the Board of Revenue may fix in this behalf.

(*3*) When an application for service of a notice is made to the Collector in manner prescribed by this section, he shall cause the notice to be served in compliance therewith, and the incumbrance shall be deemed to be annulled from the date on which it is so served.

(*4*) When a tenure or holding is sold in execution of a decree for arrears due in respect thereof, and there is on the tenure or holding a protected interest of the kind specified in section 160, clause (*c*), the purchaser may, if he has power under this chapter to avoid all incumbrances, sue to enhance the rent of the land which is the subject of the protected interest. On proof that the land is held at a rent which was not at the time the lease was granted a fair rent, the Court may enhance the rent to such amount as appears to be fair and equitable.

This sub-section shall not apply to land which has been held for a term exceeding twelve years at a fixed rent equal to the rent of good arable land.

## *Bengal Tenancy Act.*

### (*Chapter XIV.—Sale for Arrears under Decree.—Secs. 168-174.*)

Power to direct that occupancy-holdings be dealt with under foregoing sections as tenures.

**168.** (*1*) The Local Government may, from time to time, by notification in the official Gazette, direct that occupancy-holdings or any specified class of occupancy-holdings in any local area put up for sale in execution of decrees for rent due on them shall, before being put up with power to avoid all incumbrances, be put up subject to registered and notified incumbrances, and may by like notification rescind any such direction.

(*2*) While any such direction remains in force in respect of any local area, all occupancy-holdings, or, as the case may be, occupancy-holdings of the specified class in that local area, shall, for the purposes of sale under the foregoing sections of this chapter, be treated in all respects as if they were tenures.

Rules for disposal of the sale-proceeds.

**169.** (*1*) In disposing of the proceeds of a sale under this chapter, the following rules, instead of those prescribed by section 295 of the Code of Civil Procedure, shall be observed, that is to say:— XIV of 1882.

(*a*) there shall first be paid to the decree-holder the costs incurred by him in bringing the tenure or holding to sale;

(*b*) there shall, in the next place, be paid to the decree-holder the amount due to him under the decree in execution of which the sale was made;

(*c*) if there remains a balance after these sums have been paid, there shall be paid to the decree-holder therefrom any rent which may have fallen due to him in respect of the tenure or holding between the institution of the suit and the date of the sale;

(*d*) the balance (if any) remaining after the payment of the rent mentioned in clause (*c*) shall, upon the expiration of two months from the confirmation of the sale, be paid to the judgment-debtor upon his application.

(*2*) If the judgment-debtor disputes the decree-holder's right to receive any sum on account of rent under clause (*c*), the Court shall determine the dispute, and the determination shall have the force of a decree.

Tenure or holding to be released from attachment only on payment into Court of amount of decree with costs, or on confession of satisfaction by decree-holder.

**170.** (*1*) Sections 278 to 283 (both inclusive) of the Code of Civil Procedure shall not apply to a tenure or holding attached in execution of a decree for arrears due thereon. XIV of 1882.

(*2*) When an order for the sale of a tenure or holding in execution of such a decree has been made, the tenure or holding shall not be released from attachment unless, before it is knocked down to the auction-purchaser, the amount of the decree, including the costs decreed, together with the costs incurred in order to the sale, is paid into Court, or the decree-holder makes an application for the release of the tenure or holding on the ground that the decree has been satisfied out of Court.

(*3*) The judgment-debtor or any person having in the tenure or holding any interest voidable on the sale may pay money into Court under this section.

Amount paid into Court to prevent sale to be in certain cases a mortgage-debt on the tenure or holding.

**171.** (*1*) When any person having, in a tenure or holding advertised for sale under this chapter, an interest which would be avoidable upon the sale, pays into Court the amount requisite to prevent the sale,—

(*a*) the amount so paid by him shall be deemed to be a debt bearing interest at twelve per centum per annum and secured by a mortgage of the tenure or holding to him;

(*b*) his mortgage shall take priority of every other charge on the tenure or holding other than a charge for arrear of rent; and

(*c*) he shall be entitled to possession of the tenure or holding as mortgagee of the tenant, and to retain possession of it as such until the debt, with the interest due thereon, has been discharged.

(*2*) Nothing in this section shall affect any other remedy to which any such person would be entitled.

Inferior tenant paying into Court may deduct from rent.

**172.** When a tenure or holding is advertised for sale under this chapter in execution of a decree against a superior tenant defaulting, and an inferior tenant, whose interest would be voidable upon the sale, pays money into Court in order to prevent the sale, he may, in addition to any other remedy provided for him by law, deduct the whole or any portion of the amount so paid from any rent payable by him to his immediate landlord; and that landlord, if he is not the defaulter, may in like manner deduct the amount so deducted from any rent payable by him to his immediate landlord, and so on until the defaulter is reached.

Decree-holder may bid at sale; judgment-debtor may not.

**173.** (*1*) Notwithstanding anything contained in section 294 of the Code of Civil Procedure, the holder of a decree in execution of which a tenure or holding is sold under this chapter may, without the permission of the Court, bid for or purchase the tenure or holding. XIV of 1882.

(*2*) The judgment-debtor shall not bid for or purchase a tenure or holding so sold.

(*3*) When a judgment-debtor purchases by himself or through another person a tenure or holding so sold, the Court may, if it thinks fit, on the application of the decree-holder or any other person interested in the sale, by order set aside the sale, and the costs of the application and order, and any deficiency of price which may happen on the re-sale, and all expenses attending it, shall be paid by the judgment-debtor.

Application by judgment-debtor to set aside sale.

**174.** (*1*) Where a tenure or holding is sold for an arrear of rent due thereon, then, at any time within thirty days from the date of sale, the judgment-debtor may apply to have the sale set aside, on his depositing in Court, for payment to the decree-holder, the amount recoverable

under the decree with costs, and, for payment to the purchaser, a sum equal to five per centum of the purchase-money.

(2) If such deposit is made within the thirty days, the Court shall pass an order setting aside the sale, and the provisions of section 315 of the Code of Civil Procedure shall apply in the case of a sale so set aside:

XIV of 1882.

Provided that, if a judgment-debtor applies under section 311 of the Code of Civil Procedure to set aside the sale of his tenure or holding, he shall not be entitled to make an application under this section.

XIV of 1882.

(3) Section 313 of the Code of Civil Procedure shall not apply to any sale under this chapter.

**Registration of certain instruments creating incumbrances.**

III of 1877.

**175.** Notwithstanding anything contained in Part IV of the Indian Registration Act, 1877, an instrument creating an incumbrance upon any tenure or holding which has been executed before the commencement of this Act, and is not required by section 17 of the said Registration Act to be registered, shall be accepted for registration under that Act if it is presented for that purpose to the proper officer within one year from the commencement of this Act.

**Notification of incumbrances to landlord.**

**176.** Every officer who has, whether before or after the passing of this Act, registered an instrument executed by a tenant of a tenure or holding and creating an incumbrance on the tenure or holding, shall, at the request of the tenant or of the person in whose favour the incumbrance is created, and on payment by him of such fee as the Local Government may fix in this behalf, notify the incumbrance to the landlord by causing a copy of the instrument to be served on him in the prescribed manner.

**Power to create incumbrances not extended.**

**177.** Nothing contained in this chapter shall be deemed to enable a person to create an incumbrance which he could not otherwise lawfully create.

(ii) when a landlord has reclaimed waste land by his own servants or hired labourers, and subsequently lets the same or a part thereof to a raiyat, nothing in this Act shall affect the terms of any contract whereby a raiyat is prevented from acquiring an occupancy-right in the land or part during a period of thirty years from the date on which the land or part is first let to a raiyat;

### Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 13th March 1885, and was referred to a Select Committee :—

No. 5 OF 1885.

*A Bill to amend the Petroleum Act, 1881.*

WHEREAS it is expedient to amend the Petroleum Act, 1881, in manner hereinafter appearing; VIII of 1881. It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Petroleum Act, 1885; and

(*2*) It shall come into force at once.

VIII of 1881.

Amendment of *explanation* to definition of "petroleum" in section 3 of Act VIII of 1881.

2. In section 3 of the Petroleum Act, 1881, in the *explanation* to the definition of "petroleum," for the last thirteen words the following words shall be substituted, namely :—

"in accordance with the directions contained in the schedule hereto annexed, with an apparatus which has been stamped and certified as provided by section 17A, within a period of five years immediately preceding the date on which the apparatus is used for the testing, and after the corrections (if any) which the certificate declares are to be applied to the results of the testing have been made."

"(*c*) to determine the places at which and the conditions on and subject to which petroleum may be landed, stored or transhipped;

"(*d*) to fix the fees to be paid for the storage of petroleum at such places;

"(*e*) to provide for the selection by an officer appointed by the Local Government in this behalf, and for the delivery to him by the consignees of samples of all petroleum so landed and stored; and

"(*f*) to provide, in the case of each consignment which is stated to be of one uniform quality, for the averaging of the results of testing the selected samples."

"(2) In this section 'ship' includes anything made for the conveyance by water of human beings or property.

"7A. (*1*) Petroleum landed and stored in accordance with rules made under the last foregoing section shall not be removed from the place at which it is stored until the samples selected therefrom in accordance with the said rules have been tested by an officer appointed by the Local Government in this behalf in the manner described in the schedule hereto annexed with an apparatus which has been stamped and certified as provided by section 17 A, and until such officer has given a certificate that the petroleum is not dangerous petroleum.

Procedure after petroleum has been landed and stored.

"(2) If the said officer after testing the said samples refuses to give the said certificate in respect of any petroleum, the Local Government may permit the consignee within a time to be fixed by the Local Government in this behalf—

"(*a*) to rectify the petroleum,

"(*b*) to apply for a license to import the petroleum as dangerous petroleum, or

"(*c*) to re-export the petroleum.

"(*3*) If the consignee does not within the time fixed under sub-section (*2*) avail himself of the permission granted under that sub-section, the Local Government may order the petroleum to be destroyed."

7. After section 17 of the said Act the following section shall be inserted, namely:—

New section to be inserted after section 17.

"*Test-apparatus.*

[cf. 42 & 43 Vic., c. 47, s. 8.]

"17A. Whereas a model of the apparatus for testing petroleum under this Act constructed in accordance with the description contained in the schedule hereto annexed has been deposited in the office of the Chemical Examiner to Government, Calcutta, and has been marked with the words 'Model test-apparatus;' It is hereby enacted as follows:—

Model test-apparatus.

[cf. 42 & 43 Vic., c. 47 s. 8.]

"(*1*) The Chemical Examiner with whom the said model test-apparatus is deposited may, on payment of such fee as the Governor General in Council may, from time to time, by notification in the *Gazette of India*, prescribe, compare with the said model and verify every apparatus for testing petroleum which is submitted to him for the purpose.

Verification of test-apparatus.

"(*2*) If any apparatus for testing petroleum, when compared and verified as provided by this section, is found correct, or correct subject to certain corrections to be applied to the results of the tests, the Chemical Examiner shall stamp the same with a special number, and shall further give a certificate in writing under his hand to the effect that the apparatus has been compared and verified by him and found to be correct, or correct subject to certain specified corrections to be applied to the results of the tests.

"(*4*) Subject to the payment of such fees as the Governor General in Council may, by notification in the *Gazette of India*, prescribe in this behalf, the said model test-apparatus shall be at all reasonable times open to inspection by any person desiring to inspect it."

8. For the Schedule to the said Act the following schedule shall be substituted, namely:—

New schedule substituted for the schedule to the same Act.

"THE SCHEDULE.

"*I.—Nature of the Test-apparatus.*

"The apparatus consists of the following parts:—

(1) the oil-cup;

(2) the cover, with slide, test-lamp, and clock-work arrangement for opening and closing the holes in the cover, and for dipping the test-flame;

(3) the water-bath or heating vessel;

(4) the tripod stand, with jacket, and spirit-lamp for heating the water-bath;

(5) the thermometer for indicating the temperature of the oil in the oil-cup;

(6) the thermometer for indicating the temperature of the water in the water-bath;

(7) the thermometer for indicating the temperature of the oil before it is poured into the oil-cup;

(8) the dropping bottle, for replenishing the test-lamp;

(9) the forceps, for adjusting the wick of the test-lamp.

"The oil-cup is a cylindrical flat-bottomed vessel, made of gun-metal or brass, and tinned or silvered inside. A gauge is fixed to the inside of the cup to regulate the height to which it is to be filled with the sample under examination.

"The cup is provided with a close fitting overlapping cover, which carries the thermometer, the test-lamp, and the adjuncts thereto. The test-lamp is suspended upon two supports by means of trunnions, which allow it to be easily inclined to a particular angle and restored to its original position. The socket in the cover, which is to hold a round bulb thermometer for indicating the temperature of the oil during the testing operation, is so adjusted that the bulb of the latter is always inserted in a definite position below the surface of the liquid.

"The cover is provided with three holes, one in the centre and two smaller ones close to the sides. These are closed and opened by means of a pivoted slide. When the slide is moved so as to uncover the holes, the suspended lamp is caught by a projection fixed on the slide, and tilted in such a way as to bring the end of the spout just below the surface of the lid. As the slide moves back so as to cover the holes, the lamp returns to its original position. Upon the cover, in front of and in a line with the nozzle of the lamp, is fixed a white bead, the diameter of which represents the size of the test-flame to be used.

"The water-bath or heating vessel is so constructed that, when the oil-cup is placed in position in it, an air-space or air-chamber intervenes between the two; consequently, in applying the test under ordinary circumstances, the heat is transmitted gradually to the oil from the hot water through the air-space. The water-bath is fitted with a socket for receiving a long bulb thermometer, to indicate the temperature of the water. It is also provided with a funnel, an overflow-pipe and two handles.

"The water-bath rests upon a tripod stand, which is fitted with a copper cylinder or jacket, so that the bath is surrounded by an enclosed air-space, which retains and regulates the heat. One of the legs of the stand serves as a support for a spirit-lamp, which is attached to it by a small swing bracket.

"The clockwork arrangement, by which during the operation of testing the slide is withdrawn, and the test-flame dipped into the cup and raised again as the slide is replaced, is provided with a ratchet key for setting it in action for each test, and with a trigger for starting it each time that the test-flame is applied.

"*II.—Directions for drawing the Sample and preparing it for Testing.*

"1. *Drawing the sample.*—In all cases the testing officer shall personally superintend the drawing of the sample from an original unopened tin.

"An opening sufficiently large to admit of the oil being rapidly poured or syphoned from the tin shall be made.

"Two bottles, each of the capacity of about 40 fluid ounces, are to be filled with the oil. One of these, the contents of which is intended to be preserved for reference in case of need, is to be carefully corked, the cork being well driven home, cut off level with the neck, and melted sealing-wax worked into it. The other bottle may be either stoppered or corked.

"2. *Preparing the sample for testing.*—About ten fluid ounces of the oil, sufficient for three tests, are transferred from the bottle into which the sample has been drawn to a pint flask or bottle, which is to be immersed in water in which ice is floating until a thermometer, introduced into the oil, indicates a temperature not exceeding 50° Fahrenheit.

"*III.—Directions for preparing and using the Test-apparatus.*

"1. *Preparing the water-bath.*—The water-bath is filled by pouring water into the funnel until it begins to flow out at the overflow-pipe. The temperature of the water at the commencement of each test, as indicated by the long bulb thermometer, is to be 130° Fahrenheit, and this is attained in the first instance by mixing hot and cold water, either in the bath or in a vessel from which the bath is filled, until the thermometer, which is provided for testing the temperature of the water, gives the proper indication; or the water is heated by means of the spirit-lamp (which is attached to the stand of the apparatus) until the required temperature is indicated.

"2. *Preparing the test-lamp.*—The test lamp is fitted with a piece of cylindrical wick of such thickness that it fills the wick-holder, but may readily be moved to and fro for the purpose of adjusting the size of the flame. In the body of the lamp, upon the wick, which is coiled within it, is placed a small tuft of cotton wool, moistened with petroleum, any oil not absorbed by the wool being removed. When the lamp has been lighted, the wick is adjusted by means of a pair of forceps until the flame is of the size of the bead fixed on the cover of the oil-cup; should a particular test occupy so long a time that the flame begins to get smaller, through the supply of oil in the lamp becoming exhausted, three or four drops of petroleum are allowed to fall upon the tuft of wool in the lamp from the small open orifice of the bottle provided for that purpose. This can be safely done without interrupting the test.

"3. *Filling the oil-cup.*—The oil-cup having been previously cooled, by placing it bottom downwards in water at a temperature not exceeding 50° Fahrenheit, is to be rapidly wiped dry, placed on a level surface in a good light, and the oil to be tested is poured in very slowly, without splashing, until its surface is level with the point of the gauge which is fixed in the cup. The round bulb thermometer is inserted into the lid of the cup, care being taken that the projecting rim of the collar touches the edge of the socket; the test-lamp, prepared as already described, is placed in position, and the cover is then put on to the cup and pressed down so that its edge rests on the rim of the cup.

"4. *Application of the test.*—The water-bath, with its thermometer in position, is placed in some locality where it is not exposed to currents of air, and where the light is sufficiently subdued to admit of the size of the entire test-flame being compared with that of the bead on the cover. The cup is carefully lifted without shaking it, and placed in the bath, the test-lamp is lighted, and the clockwork wound up by turning the key. The thermometer in the oil-cup is now watched, and when the temperature has reached 56° Fahrenheit the clockwork is set in motion by pressing the trigger.

"If no flash takes place the clockwork is at once re-wound, and the trigger pressed at 57° Fahrenheit, and so on, at every degree rise of temperature, until the flash occurs, or until a temperature of 95° Fahrenheit has been reached.

"If the flash takes place at any temperature below 77° Fahrenheit the temperature at which it occurs is to be recorded. Two fresh portions of the sample are then to be successively tested in a similar manner and the results recorded. If no greater difference than 2° Fahrenheit exists between any two of the three recorded results, each result is to be corrected for atmospheric pressure, as hereafter described, and the average of the three corrected

results is the flashing point of the sample. In the event of there being a greater difference than 2° Fahrenheit between any two of the results, the series of tests is to be rejected and a fresh series, of three, similarly obtained, and so on until a sufficiently concordant series is furnished, when the results are to be corrected and the average taken in the manner already described.

"If a temperature of 76° Fahrenheit has been reached without a flash occurring, the application of the test flame is to be continued at every degree rise of temperature until a temperature of 95° Fahrenheit has been reached. If no flash has occurred up to this point, the oil-cup is to be removed from the water-bath, and the temperature of the water in the water-bath is to be reduced to 95° Fahrenheit by pouring cold water into the funnel (the hot water escaping by the overflow-pipe). The air-chamber is then to be filled to a depth of 1½ inches with water at a temperature of about 95° Fahrenheit, the oil-cup is to be replaced in the water-bath and the spirit-lamp attached to the water-bath is to be lighted and placed underneath. The test-flame is then to be again applied, from 96° Fahrenheit, at every degree rise of temperature as indicated by the thermometer in the oil-cup until a flash takes place or until a temperature of 200° Fahrenheit has been reached. If during this operation the test flame appears to diminish in size, the lamp is to be replenished in the manner prescribed at (2) without interrupting the test.

"If a flash occurs at any temperature between 76° and 200° Fahrenheit the temperature at which it occurs, subject to correction for atmospheric pressure, is the flashing point of the sample.

"In repeating a test, a fresh sample of oil must always be used, the tested sample being thrown away, and the cup must be wiped dry from any adhering oil and cooled, as already described, before receiving the fresh sample.

5. *Correction for atmospheric pressure.*—As the flashing point of an oil is influenced by changes in atmospheric pressure to an average extent of 1·6° Fahrenheit for every inch of the barometer, a correction of the observed flashing point may become necessary. For this purpose a table is appended to this schedule, giving the flashing points of oils ranging from 65° to 80° Fahrenheit, under pressure ranging from 27 to 31 inches of mercury.

"The table is used in the following manner:—

"*Example.*—An oil has given a flashing point of 71°, the barometer being at 28·6 inches; take the nearest number to 71° in the vertical column headed 28·6. This number is 70·8. Substitute for this the number in the same horizontal line in the column headed 30 (the normal height of the barometer). The substituted number, that is, the true flashing point of the oil, is 73°.

## STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to amend the Petroleum Act, 1881, in certain points in which experience has shewn that its amendment would be desirable.

2. "Dangerous petroleum" is defined by the Act (section 3) as petroleum having its flashing point below seventy-three degrees of Fahrenheit's thermometer. The Government of India does not see any reason for changing the standard so fixed, but in view of the possibility of variations in the application of the test, which, according to the opinions of the experts, may, even with the utmost care, cause deviations of 2° or 3° in the results, it is of opinion that the nominal legal minimum standard for non-dangerous petroleum may be slightly raised. Accordingly, section 3 of the Bill fixes the standard for dangerous petroleum at 76° instead of 73°, but to this enhanced standard a proviso is added to the effect that a consignment represented to be of one uniform quality shall not be deemed to be dangerous when on an average of tests the oil does not fall below that standard by more than 3°, and no one sample has a flashing point below 70°.

3. Section 5 of the Act permits small quantities of dangerous petroleum to be kept in "glass," among other, vessels, if each vessel does not contain more than a pint and is securely stopped. Looking to the comparatively fragile nature of glass vessels and to the possibility of such vessels, when filled with the highly volatile liquids included under the head of "dangerous petroleum," bursting even if "securely stopped," when exposed to powerful sunlight for a brief period, the prudence of including *glass* vessels among those specified in the section is, as has been pointed out to the Government of India, doubtful. Section 4 of the Bill therefore amends the section by the omission of the word "glass."

4. The object of section 5 of the Bill is to bring the provisions of section 6 of the Act, which relate to the marking of the vessels containing dangerous petroleum, and which declare that all such vessels "shall bear an indelible mark on a label in conspicuous characters, stating the nature of the contents thereof" into accordance with the English law (34 & 35 Vic., cap. 105, section 6), which lays down that the label shall state in conspicuous characters the description of the petroleum with the addition of the words "highly inflammable" and with the addition of the name and address of the consignee or owner or of the sender or vendor.

5. As the Act now stands, not only is the importation of "dangerous" petroleum subjected to a strict system of licensing, but no petroleum may be landed from any ship until samples of the petroleum on board thereof have been delivered for the purpose of the petroleum being tested.

While considering that the importation of dangerous petroleum should continue to be thus regulated, the Government of India is of opinion that the restrictions at present placed on the importation of other petroleum may be somewhat relaxed. It seems to it that, instead of requiring the delivery of samples before any oil is landed, it would be sufficient to give the Local Government power to determine the places at which, and the conditions on and subject to which, petroleum may be landed and stored. The necessary power is conferred by section 6 of the Bill, which substitutes a new section for section 7 of the Act. There would thus be nothing to prevent petroleum, other than dangerous petroleum, being in future landed and stored at once. But, in order to protect the public, no petroleum should be allowed to be removed from the place where it is stored until it has been tested and declared to satisfy the legal standard. Section 7A therefore provides this, and further declares that, when petroleum which has been so landed and stored is found not to come up to the legal standard, the Local Government may direct the consignees either to rectify it or to import it as dangerous petroleum or to re-export within a fixed period, and that, on the consignees failing to do whichever of these things they may be directed to do, the Local Government may order the petroleum to be destroyed.

In addition to re-producing clauses (*a*) and (*c*) of the present section 7, the new section 7 further empowers the Local Government to make rules to fix the fees to be paid for the storage of petroleum at places appointed for the purpose, and to regulate the selection of samples and the averaging the results of testing selected samples.

6. Section 7 of the Bill introduces certain new provisions in the Act as to the test-apparatus to be used. As the Act at present stands, the schedule contains a specification explanatory of the test-apparatus. As it is, however, proposed by this Bill to substitute a new schedule for the present one, in which a new description of the test-apparatus is inserted, it seems desirable, for the convenience of the public, to provide for the deposit of a model test-apparatus, which shall be open to inspection, and after which all the instruments to be used under the Act shall be constructed. This is what the new section 17 A, which section 7 of the Bill adds to the Act, does. This section also provides for the verification of each test-apparatus which it is proposed to use for the purposes of the Act. Each apparatus when verified is to be marked with a special number, and the officer making the verification is to give a certificate in which shall be noted any corrections which must be applied to the results of the tests made with the apparatus. This last provision is necessary, because it is practically impossible to construct instruments which will not need corrections of this sort. The certificate granted is declared to be conclusive proof of the matters stated therein.

7. Section 8 of the Bill substitutes a new schedule for the schedule at present appended to the Act, the instructions contained in which it is now generally admitted require modification.

This schedule has been prepared mainly by Sir F. Abel in conjunction with Mr. Redwood and Dr. Warden, the Professor of Chemistry in the Medical College, Calcutta, and Chemical Examiner to Government, and Dr. Lyon, the Chemical Analyser in Bombay, and it has also been examined and considered by Professor Pedler of the Presidency College, Calcutta. It embodies very definite directions regarding the sampling and testing of petroleum, and it lays down in a most detailed manner the procedure to be adopted. The Governor General in Council believes that the adoption of this schedule will meet all the difficulties which have been found to occur under the present law in regard to the sampling and testing of petroleum, and that, if the procedure therein described is carefully followed, there is every reason to hope that trustworthy and generally concordant results will be obtained.

9. Lastly, the new provisions as to the deposit of a model test-apparatus and the verification of all other test-apparatus therewith has necessitated the amendment of the *explanation* of the term "flashing point" which is appended to the definition of "petroleum" in section 3. It is necessary that, in order to ascertain the true flashing point, the petroleum should be tested with a verified and certificated apparatus, and after the corrections (if any) to be applied to the results of the testing have been made. Moreover, it would appear to be necessary that every apparatus used for the testing of petroleum should be verified at least once in every five years. All these points are provided for in the amendment made by section 2 of the Bill.

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

[Third Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 13th March 1885, and was referred to a Select Committee:—

## No. 6 OF 1885.

*A Bill to amend the law relating to Government Securities.*

WHEREAS it is expedient to amend the law relating to Government securities in manner hereinafter appearing; It is hereby enacted as follows:—

Short title and commencement.

1. (*1*) This Act may be called the Indian Securities Act, 1885; and

(*2*) It shall come into force at once.

[X Act III 1881, s 2]

Definitions.

2. In this Act, unless there is something repugnant in the subject or context,

The expression "Government securities" includes promissory notes, debentures, stock-certificates, and all other securities issued by the Government of India or by any Local Government, in respect of any loan issued under notification in the official Gazette, whether before or after the passing of this Act: and

"prescribed" means prescribed by rules made from time to time by the Governor General in Council in this behalf.

X of 1872.

Right of survivors of joint payees of Government securities.

3. (*1*) Notwithstanding anything contained in the Indian Contract Act, section 45, when a Government security is payable to two or more persons jointly and any of them dies, the security shall be payable to the survivor or survivors of those persons.

(*2*) Nothing herein contained shall affect any claim which the representative of the deceased person may have against the survivor or survivors in respect of the security jointly payable to them and the deceased.

(*3*) This section shall apply whether the death of the person to whom the security was jointly payable occurred or occurs before or after this Act comes into force.

Issue of renewed securities.

4. Any person to whom a Government security is payable may, on payment of the prescribed fee and on delivering the security duly receipted to the prescribed officer, obtain from the officer a renewed security payable to himself. [Cf. sec. 49 of 33 & 34 Vic., cap. 71.]

Issue of duplicate securities.

5. (*1*) When a Government security has been wholly or partly lost or destroyed the person to whom it was payable at the time of the loss or destruction or his representative may, on application to the prescribed officer, and on producing proof to his satisfaction of the loss or destruction, obtain from him an order for:—

(*a*) the payment of interest in respect of the security said to be lost or destroyed pending the issue of a duplicate security; and

(*b*) the issue of a duplicate security payable to such person.

(*2*) An order shall not be passed under sub-section (*1*) until after the issue of the prescribed notification of the loss or destruction and after the expiration of the prescribed period, nor until the applicant has given the prescribed indemnity against the claims of all persons deriving title under the security lost or destroyed.

(*3*) A list of the securities in respect of which an order is passed under sub-section (*1*) shall be published in the *Gazette of India* at such times as the Governor General in Council may, from time to time, direct.

Period after which Government is released from liability in respect of original security.

6. When a renewed security has been issued under section 4, or a duplicate security has been issued under section 5, the Government shall be discharged of all liability in respect of the original security of which such renewed or duplicate security has been issued— [Cf. 33 & 34 Vic., cap. 71, s. 51.]

(*a*) in the case of a renewed security, after the lapse of six years from the date of the issue of the renewed security,

(*b*) in the case of a duplicate security, after the lapse of six years from the date of the publication under section 5, sub-sec-

tion (3), of the list in which the security is first mentioned, or from the date of the last payment of interest on the original security, whichever date is latest.

Power for Governor General in Council to make rules.

7. The Governor General in Council may, from time to time, make rules to prescribe—

(a) the fees to be paid for applications under sections 4 and 5;

(b) the form in which securities delivered for renewal are to be receipted;

(c) the officer who is to exercise all or any of the powers and perform all or any of the duties prescribed by sections 4 and 5;

(d) the proof which is to be produced by persons applying for duplicate securities;

(e) the form and mode of publication of the notification mentioned in section 5 and the period after which interest may be paid or a duplicate security may be issued under that section;

(f) the nature and amount of the indemnity to be given by a person applying under section 5 for the payment of interest or the issue of a duplicate security; and

(g) generally all matters connected with the grant of renewed and duplicate securities.

Publication of drafts and rules.

8. (1) The Governor General in Council shall before making rules under the last foregoing section, publish a draft of the proposed rules in such manner as may, in his opinion, be sufficient for the information of the public.

(2) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(3) The Governor General in Council shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(4) Every rule made under the last foregoing section shall be published in the *Gazette of India*, and the publication in the *Gazette of India* of a rule purporting to be made under that section shall be conclusive evidence that it has been duly made.

## STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for certain matters connected with Government securities as to which legislation appears to be desirable.

2. Under the English law, on the death of one of several joint promisees or creditors, the right to sue on the contract vests in the survivors or survivor, and, on the death of the last of two or more survivors, in his personal representative. But a person receiving money under this right of survivorship may be accountable for it to the representatives of the deceased.

3. This rule has been altered in India by section 45 of the Contract Act, which provides that—

"When a person has made a promise to two or more persons jointly, then, unless a contrary intention appears from the contract, the right to claim performance rests, as between him and them, with them during their joint lives, and, after the death of any of them, with the representative of such deceased person jointly with the survivor or survivors, and, after the death of the last survivor, with the representatives of all jointly."

4. With reference to this section, the Law Commissioners, who prepared the draft of the Act, remarked :—"In regulating the devolution of rights and liabilities, we propose, in accordance with the rule of English Courts of Equity and of the Indian Code of Civil Procedure, that joint liabilities and rights shall, after the death of one of the persons liable or entitled, go to his representative jointly with the survivor, and after the death of the survivor to the representatives of both jointly." So far as can be ascertained, this proposal was accepted without criticism in India.

5. It appears that, both before and since the passing of the Contract Act, the practice of the Indian Public Debt Offices has been to treat the right of suing on, and giving receipts for money payable under, Government promissory notes as vesting in the survivor or survivors of two or more joint holders. But the law officers of the Government have recently given an opinion that, having regard to section 45 of the Contract Act, it is not safe to continue this practice.

6. Under those circumstances, the Government of India think that legislation is desirable both for the purpose of confirming what has been done in the past, and for the purpose of laying down a convenient rule for the future.

7. Accordingly, section 3 of the Bill declares that, notwithstanding anything contained in the Indian Contract Act, 1872, section 45, when a Government security is payable to two or more persons jointly and any of them dies, the security shall be payable to the survivor or survivors of those persons. But to this a clause is added making it clear that the section will not affect the liability of the survivor or survivors to the representative of the deceased holder of the security.

8. Lastly, sections 4 to 6 of the Bill deal with the issue of renewed and duplicate Government securities.

9. With regard to the renewal of Government securities, the holder of a security may, under existing rules, upon payment of the prescribed fee and delivering up his security properly receipted, obtain a clear title in the form of a renewed security in his own favour. This right is affirmed by section 4 of the Bill; but as Government by the renewal becomes liable in respect of the new note independently of any question as to legal completeness of discharge upon the original security, opportunity is taken to fix a term within which claims in respect of the original security must be made. Accordingly, section 6 of the Bill releases Government from liability in respect of the original security after the lapse of six years from the date of the issue of the renewed security.

10. With regard to duplicate securities, the practice has hitherto been, when a Government security has been lost or destroyed, to issue a notification, under the terms of the security, of the discharge of the security upon a given date, and to refuse to issue any duplicate until six years (the period fixed by the law of limitation) has elapsed from the date so fixed for discharge. If, however, the loan is not mature, no such notification of discharge can be issued, and the Government is obliged to refuse to issue any duplicate, in the face of the risk of claims being made in respect of the security alleged to be lost. The Bill adopts the existing practice in respect of the issue of duplicates, but, by applying in every case the period of limitation which under the existing law applies only in the case of securities of loans dischargeable upon notice given at any time, enables the Government to issue duplicates (under the usual safeguard of a bond of indemnity) in every case of a security proved to have been lost or destroyed.

## RESOLUTION ON THE ADMINISTRATION REPORT OF THE CALCUTTA MUNICIPALITY FOR THE YEAR 1883-84.

MUNICIPAL DEPARTMENT—MUNICIPAL.

*Calcutta, the 31st March* 1885.

RESOLUTION.

READ—

The Administration Report of the Calcutta Municipality for 1883-84.

Read again—

The Report for 1882-83, and the Resolution recorded upon it.

In the opening pages of the Report an interesting comparison is instituted between some of the more prominent features of Calcutta, as reflected in its statistics, and those of Madras and Bombay. The most striking circumstance brought out by this comparison is the great relative wealth of Calcutta in proportion to its size and population. Thus, the area of Calcutta is 3,754 acres, while Bombay and Madras cover areas of 14,246 and 17,165 acres respectively, and the populations of the three cities, according to the census of 1881, are 429,871, 773,196, and 405,848 respectively. Yet the assessed annual value of house property and land in Calcutta is 133 lakhs of rupees, while that of Bombay is only 125 lakhs, and that of Madras is so low as 35 lakhs. The gross municipal income of each of the three capitals is in round numbers 30 lakhs, 35 lakhs, and 8 lakhs, and it is clear, therefore, that, in proportion to its wealth, the

municipal taxation is lighter in Calcutta than in either Madras or Bombay, the ratios being 22·5 per cent., 23 per cent., and 28 per cent. respectively. This comparison is perhaps not quite fair, for the reason that, while the municipalities of Bombay and Madras include the entire metropolitan areas of the Eastern and Southern Presidencies, the municipal limits of Calcutta exclude certain extensive and important tracts which really form a part of the capital of Bengal. The Suburbs and, in a less degree, Howrah cannot properly be left out of account when the extent, wealth, population and revenue of Calcutta are compared with those of the other Presidency towns. These tracts are comparatively remote from the heart of the business quarter of the town, their population is less dense, their area is more scattered, and their assessed value is proportionately low. If the area, population, and income of the Suburban Municipality be added to those of Calcutta, the differences as compared with Bombay dwindle away to very small proportions. The area of greater Calcutta is seen to be 28 square miles against the 22 square miles of Bombay, its population is 681,310 against 773,196, and its annual revenue from all sources slightly exceeds the 35 lakhs raised in Bombay.

2. Twenty-six general meetings were held by the Commissioners during the year, of which eight were special general meetings, four were quarterly, and five were special meetings. Of standing committees there were 110 meetings, and of special committees 27 meetings. The Town Council met 41 times, the Water-supply Extension Committee 14 times, the amalgamated Tank and Bustee Committee 18 times, and the Market Committee 12 times. The Sanitary Committee, which is one of the two special committees, held 18 meetings during the year, and did a large amount of important business. The total number of attendances at meetings amounted to 2,347, out of 5,188 invitations, which compares somewhat unfavourably with the corresponding figures of the previous year. It is stated that the distinction observable between the amount of attention to work shown by elected and nominated Commissioners respectively seems to be gradually disappearing. The elected are to the nominated Commissioners as 48 to 24, but their attendances in 1881 were as 48 to 16·1, in 1882-83 as 48 to 17·7, and in the past year as 48 to 20·2.

3. The Town Council as usual dealt with a large number of miscellaneous matters of varying degrees of importance. Among others were the preparations for the reception of their Royal Highnesses the Duke and Duchess of Connaught, the negotiations for the lease to the Corporation of the Mahratta Ditch, a number of minor street improvements, the most considerable of which was the construction of a road to connect Arpooly Lane with Punchanantola Lane, the Marcus Legacy, and the inspection of articles for food and drink exposed for sale. There was reason to believe that considerable quantities of ghee, mustard oil, and other provisions were exposed for sale after being so adulterated as to be unwholesome, and even dangerous, and it was felt that the public, especially the poorer classes, was not able to protect itself adequately against frauds of this description. A qualified Inspector on Rs. 100 per mensem was accordingly appointed experimentally to examine articles of food exposed for sale, and is reported to have done much good. It is stated that the appointment lapsed at the end of the official year, and has not been renewed. This is much to be regretted. The reasons for the discontinuance of the arrangement have not been specified.

Arrangements have been made at the instance of the Howrah Municipality to systematize the licensing of hackney carriages, and the new rules have come into force from the 1st April last. The hackney carriages of Calcutta are, as a rule, very inferior, and it is hoped that some improvement will now be effected.

4. At the end of 1882-83 the total debt of the Corporation amounted to—

| | Rs. |
|---|---|
| Debenture loans ... ... ... ... | 79,50,100 |
| Consolidated loan from Government ... ... | 72,64,423 |
| Total ... | 1,52,14,523 |

Against the debenture loans the Commissioners had a sinking fund of the nominal value of Rs. 23,31,145. In July 1883 they were authorized to borrow three lakhs by means of debentures, bearing interest at 4½ per cent., on the security of their water-rate. The money market, however, was not favourable, and the Commissioners raised a loan of Rs 97,800 only. During the year the Government debt was reduced by Rs 1,57,228, and the Reserve or Sinking Fund rose to the nominal value of Rs 25,59,385. The indebtedness of the Corporation amounted to Rs. 1,25,95,710, being Rs. 2,87,668 less than at the close of 1882-83.

5. The following statement compares the income of the Municipality under the three ordinary revenue funds during 1883-84 and 1882-83 :—

| *Lighting-rate Fund* ... ... ... | 2,46,714 | 2,50,318 |
| GRAND TOTAL ... | 26,80,886 | 27,10,641 |

In the column for 1882-83 the amount of "taxes" credited to the General Fund is taken at four-fifths of the actual collections of the five quarters from January 1882 to March 1883, the period embraced by the last report. It is explained that as the largest proportion of the trade and profession licenses is paid in the first quarter of each year, any other mode of comparison would give fallacious results. According to this calculation, the receipts of the General Fund exceeded those for the preceding year by Rs. 15,014. This increase is attributed to the elastic and expanding character of the revenue. The receipts of the Water-rate Fund exceeded those of the previous year by Rs. 11,137. This is attributed partly to the greater productiveness of the rate caused by an increase in the assessed value of property in the town, and partly to larger receipts from the sale of water to the shipping. In the Lighting-rate Fund there was an increase of Rs. 3,604 due to re-assessments.

6. The following table shows the expenditure of the Municipality from the three ordinary revenue funds during the period under review, as compared with the actuals of the two previous years:—

The total expenditure from the General Fund is shown to be Rs. 19,65,265. To this should be added the fourth instalment of payments to the Reserve or

Sinking Fund, amounting to Rs. 32,498, which was not paid till April, but was due for the year 1883-84. This would raise the expenditure to Rs. 19,97,763. The total expenditure of the year from the General Fund exceeded the receipts by Rs. 50,003, instead of by Rs. 3,06,863 as provided for in the budget, and fell short of the amount (Rs. 22,66,863) provided in the budget by Rs. 2,69,100. Of this decrease upwards of one lakh of rupees was on account of the expenditure on bustee improvement, which fell largely short of the estimate. There was a saving of Rs. 25,224 in the payments to the Sinking Fund, in consequence of the loan which had been projected not having been raised during the year. There was also short expenditure of some Rs. 40,000 under the head of road repairs, and of Rs. 16,000 in consequence of the postponement of the repairs of the Town Hall. The expenditure from the Water-rate Fund is shown to be Rs. 4,99,430. Allowing for a quarter's instalment (Rs. 2,500) to the Sinking Fund, which was paid in April, the receipts exceeded the expenditure by Rs. 10,633. This result, as compared with that of the previous year, is satisfactory. The expenditure from the Lighting-rate Fund was less than the receipts by Rs. 6,340.

7. There are certain special funds, the accounts of which are not included in the above statements of receipts and expenditure. The receipts of the *Police-rate Fund* during the year amounted to Rs. 2,81,548, and the disbursements made to the Commissioner of Police on account of the municipal share of the police expenditure amounted to Rs. 2,78,556. Including the opening balance of the year, Rs. 21,630, there remained a sum of Rs. 24,622 in hand at the close of the year. The receipts of the *Jute Warehouse Fund* consist of 20 per cent. of the collections under the Licensed Warehouse and Fire-Brigade Act of 1883. The old arrangement, under which the Commissioners were bound to pay seven-tenths of the cost of the Fire-brigade, lasted to the middle of May, when the net deficiency was found to be Rs. 8,519, which sum had to be made good from the General Fund. The receipts of the new fund amounted to Rs. 4,054 against disbursements of Rs. 3,010. The balance was a set-off against the Rs. 8,519, and reduced the contribution from the General Fund to Rs. 7,475. The gross receipts of the *Hackney Carriage Registration Fund* amounted to Rs. 19,010, against Rs. 17,343 in the preceding year. The increase was probably due to the Exhibition. After defraying working expenses, the receipts from Calcutta, the Suburbs and Howrah are divided in the proportion of eleven-sixteenths, four-sixteenths, and one-sixteenth, respectively, the Calcutta share being credited to the Police Fund. The receipts from carriages plying between Calcutta and Dum Dum are divided in equal proportions between the Calcutta Municipality and the Dum Dum Cantonment. The receipts of the *Cart Registration Fund* amounted to Rs. 74,196, and the disbursements to Rs. 4,739. The balance is shared by Calcutta, the Suburbs and Howrah in the proportions of nine-twelfths, two-twelfths, and one-twelfth. The *Marcus Legacy Fund* was created during the year. In 1864 Mr. G. T. Marcus left property of the value of about Rs. 1,16,000 for the benefit of Calcutta, subject to the liability to pay £250 a year to his sister, Mrs. Thornton, during her life. For this purpose Rs. 70,000 was invested, and the balance was utilized in building the Municipal Office. In the course of the year under review, information was received of the death of this lady, and the Administrator-General made over to the Corporation the securities to the value of Rs. 70,000, together with a cash balance of Rs. 2,228. The *Chitpore Road Improvement Fund* had an opening balance of Rs. 1,55,207, to which was added Rs. 20,592 during the year, being the sale proceeds of surplus land and building materials. The expenditure amounted to Rs. 1,63,829, leaving a balance of Rs. 11,969. All the claims for compensation for property acquired, however, were not finally adjusted at the close of the year.

8. The various branches of municipal taxation were levied during the year at the same rates as in 1882-83, viz.—

| | Maximum. | Levied in 1883-84. |
|---|---|---|
| House-rate ... ... ... | 10 | 7¼ |
| Water-rate . ... ... | 6 | 3¼ |
| Lighting-rate ... ... ... | 2 | 2 |
| Police-rate ... ... ... | 3 | 2¼ |
| Total . . | 21 | 15 |

The assessment of Wards Nos. 1, 3, 4, 6 and 9 was revised during the year. The valuation was enhanced in 4,540 cases, and reduced in 1,135 cases. The increase in the assessed rental valuation of property amounted to Rs. 3,23,978, and the decrease to Rs. 1,07,048, with the net result that the rates were increased by Rs. 32,538.

9. The work in the Bill, Collection, and Warrant Departments sustained the efficiency displayed in previous years. The gross demand made by the Bill Department amounted to Rs. 21,93,046 against Rs. 21,89,237 in 1882-83. The outstanding balance on the 31st March 1884 was Rs. 67,240 as compared with Rs. 92,630 in the previous year. It is stated that this would have been reduced to Rs. 46,289 had not bills to the amount of Rs. 20,951 been returned by the Collector and Warrant Officer a few days before the close of the year. Of the total demand of the year, the Collector recovered 92·24 per cent. against 90·96 per cent. in the previous year. In the Warrant Department the outstandings amounted to Rs. 44,849 against Rs. 73,999 in 1882-83. Collections in the Night-soil Department are still backward as compared with those of the four principal rates, but some improvement was effected during 1883-84. The efficiency of the collecting staff of the Corporation, and the material progress that has been made in successive years in the realization of the municipal demands, is evidenced by the following statement, which shows the percentage of collections realized in each of the last six years:—

| | | | | | | |
|---|---|---|---|---|---|---|
| In 1878 the percentage of collections was | ... | ... | 74·3 | per cent. |
| „ 1879 | ... | ... | ... | 80·3 | „ |
| „ 1880 | ... | ... | ... | ... | 81· | „ |
| „ 1881 | ... | ... | ... | ... | 87·6 | „ |
| „ 1882-83 | ... | ... | ... | ... | 90·96 | „ |
| „ 1883-84 | ... | ... | ... | ... | 92·24 | „ |

These figures reflect high credit on the officers of the Corporation, and especially on the Collector, Babu Omesh Chunder Dutt.

10. The receipts under the head of License fees aggregated Rs. 4,94,735. Four-fifths of the fees realized during the 15 months of 1882-83, and the fees realized in 1881, amounted to Rs. 4,89,902 and Rs. 4,87,659 respectively. Trade and profession licenses are shown to have yielded Rs. 2,64,508; carriage and horse licenses Rs. 1,00,159; trade refuse fees Rs. 38,603; hackney carriage registration fees Rs. 17,053; and cart registration fees Rs. 74,208. The figures against the two latter items, as given in paragraphs 155 and 152 of the Commissioners' report, do not agree with the corresponding figures shown in paragraphs 116 and 117. An explanation should be furnished of this apparent discrepancy. The receipts from the carriage and horse licenses are gradually falling off owing to the extension of the tramways. In 1881 the receipts were Rs. 1,03,823, in 1882-83 Rs. 1,02,479, and in the year under review Rs. 1,00,159 only. The Commissioners observe that the receipts of the License Department during a year in which trade was active, and in which the Exhibition attracted such a large concourse of strangers, did not come up to the expectations formed by the Budget Committee.

11. The Corporation were engaged in nine civil suits during the year, being plaintiffs in eight cases and defendants in one case. Of the eight suits, decrees in favour of the Municipality were obtained in six cases, the remaining two cases being pending when the year closed. In the case in which the Corporation were defendants, an application was made to the High Court by a rate-payer, praying for the issue of a writ of *certiorari* against the Commissioners in the matter of the assessment of his house. The High Court held that it had no power to issue such a writ against the Commissioners, as they had acted within the powers conferred on them by the Municipal Act. Judgment was given during the year in the case of Anderson *versus* the Corporation. Mr. Anderson sued the Corporation, together with the Secretary of State, for the recovery of damages sustained by him in March 1882, in consequence of his carriage and horse falling into an excavation in Chowringhee Road, which had been made under orders of the Executive Engineer, 1st Calcutta Division, who, on behalf of Government, had obtained permission from the Municipality to make it. Mr. Anderson claimed damages to the extent of Rs. 50,000. The High Court held that there was negligence on the part of the contractors, and that the Secretary of State was not liable. The damages were fixed at

Rs. 6,500, and it was ordered that the costs of the plaintiff should be paid by the contractor and the Corporation, and the costs of the Secretary of State by the plaintiff, which, however, he was empowered to recover from the contractor and the Corporation. Having regard to the result of this case, the Commissioners decided that it was not expedient to allow any excavations in the streets to be left open, without payment of a fee sufficient to defray the charge of maintaining a special establishment for supervising the fencing and lighting of the openings at night. In the criminal courts 12,387 persons were prosecuted for various offences, against 11,611 during the 15 months ending the 31st March 1883. The increase occurred among the cases instituted by the Conservancy Department in which 6,698 persons were prosecuted, 2,870 persons were fined, 2,114 persons were warned and discharged, 1,560 cases were withdrawn, and 154 cases were dismissed. The total amount of fines imposed was Rs. 6,703.

12. There was some increase in the supply of filtered water during the year, the daily average being 7,975,960 gallons against 7,868,062 in 1882-83, and 7,208,453 in 1881. In the hot weather, March to June, when the needs of the town are the greatest, and the filters work best owing to the river water being more free from silt, the daily average reached 8,238,000 gallons. The Commissioners state that the increase of the supply in the hot weather is not recognized by those who use the water. When the weather becomes hot, the consumption of water is so much increased that the portions of the town which are less favourably situated have a very inadequate supply. The dwellers in connected houses all want water simultaneously, the head of water is not sufficient to reach all parts of the town at once, the entire supply is intercepted by the connections lying nearer to the head works, and none is left for those which are more remote. The officers of the Department were, however, not unmindful of the necessity of adopting measures to minimise the inconvenience by securing a more equal distribution of water. Experiments were made during the year by which the water was shut off periodically from those parts of the town where the pressure is generally high, and by this means much relief was afforded to those parts where it is generally low. After some trials, an arrangement was arrived at which appears to have given satisfaction to the public. It has long been recognized that the supply of filtered water is incommensurate with the essential requirements of the town. Calcutta is now, however, within measurable distance of an adequate provision of this first necessary. The unfiltered supply shows a steady progressive increase, the daily average during the year under review being 2,035,808 gallons against 1,988,175 in 1882-83, and 1,257,387 in 1881.

13. In regard to the extension of the drainage system, the work done during the year under review does not compare favourably with that of previous years. In 1881, 74,751 feet of pipe sewers were laid down, and in the 15 months of 1882-83 a further length of 109,158 feet was completed, but in 1883-84 only 46,672 feet of sewers were constructed. This outturn of work is not satisfactory. It is urged that the work was retarded to some extent by the time of the superior officers being taken up with preparing an answer to the charges brought against the Department. This explanation does not seem sufficient. Two years ago the Commissioners were sanguine that the main drainage scheme would be practically completed before the end of 1884, and it is the more desirable that this should not be delayed, for the reason that arrangements will probably have to be made before long for extending the system. Out of the 46,672 feet of sewers constructed, 18,796 feet were converted into paths from 3 to 10 feet wide, and 3,713 feet were converted into roads 15 to 20 feet wide. The Commissioners observe that, as the town has been more and more opened up for conservancy, there has been a steady increase in the quantity of refuse removed. In 1878 the number of wagon loads removed by the municipal railway was 7,284. This has gone on increasing year after year, till, in 1883-84, 14,189 wagon loads were removed. There was a falling off in the number of house connections; 2,159 houses were connected against 3,053 in the 15 months of 1882-83. The total expenditure on the sewers during the year was Rs. 1,76,757, in addition to Rs. 2,57,624 spent on the storm-water outfall works. Of this latter amount one-half was contributed by Government.

14. Some progress was made in the construction of metalled roads; but there was a falling off in the road repairs. The grant for repairs was Rs. 2,86,204,

but the expenditure amounted to only Rs. 2,45,575. Many streets and lanes are in a bad state of repair, which is specially noticeable during the rains in the northern division of the town, and it is, as the Commissioners observe, to be regretted that the Engineer's Department failed to utilize the whole grant. The work done by this Department in connection with the removal of the deposits of house refuse in the streets was not so prompt and thorough as could be desired, and it is observed that in this branch also the Engineer failed to work up to the full allotment provided.

15. Under the head of Town improvements, the Report describes at length the several projects which have been framed for the reclamation of bustees, and the work actually done during the year under review. As the report of the Commission appointed under section 28 of the Act is still under the consideration of the Commissioners, the Lieutenant-Governor will only now review the report of the work done under this head, without expressing any opinion upon its sufficiency or otherwise. It appears that a great divergence of opinion existed as to the extent of bustee area in the town, as well as the number of bustees, and it was accordingly resolved, as a preliminary measure, to have the whole of them surveyed and classified by the new conservancy establishment under the control of the Chairman. The result showed the bustees to be as follows:—

| | | | | |
|---|---|---|---|---|
| Blocks exceeding 50 bighas | ... | ... | ... | 7 |
| Blocks of 40 to 50 „ | . | ... | ... | 4 |
| Ditto 30 to 40 „ | ... | ... | ... | 2 |
| Ditto 20 to 30 „ | ... | ... | ... | 10 |
| Ditto 10 to 20 „ | ... | ... | ... | 35 |
| Ditto 5 to 10 „ | ... | ... | ... | 81 |
| Ditto 2 to 5 „ | ... | ... | ... | 67 |
| | | Total | ... | 206=2,222 bighas. |

These figures are not strictly accurate, as the census of the bustees was not carried out by professional agency. The special establishment sanctioned during 1882-83 for the cleansing of bustees consisted of 200 scavengers, called dhangurs, with 32 carts and 12 peons, under two Inspectors, assisted by one sircar each. They commenced their work in the north of the town, and cleansed 72 bustees, covering an area of 1,270 bighas, which were then placed under a permanent staff of 156 dhangurs. The work thus done consisted of the removal of accumulations of refuse, which was buried in holes and ditches and covered over with earth; the levelling of the surface; and the filling up of small ponds and hollows. In this way the whole of the bustees in Wards 4 and 8, and the greater part of those in Wards 2, 3, 6, and 9, were thoroughly cleansed, and a regular staff assigned to them to provide for their conservancy in the future. Exclusive of the bustees so treated, it seems that an area of 952 bighas remained outside the operations of the special establishment. It is explained that nearly the whole of this area was cleansed for the time by an extra establishment while the Exhibition was open, but the work done was not sufficiently thorough to admit of its being placed under permanent conservancy arrangements.

16. The structural improvement of the bustees stands on a different footing from their conservancy arrangements. Eighteen projects of this class were under the consideration of the Commissioners during the year, and the following statement shows the stages reached in regard to each of them at the end of the year:—

| | Area in bighas. |

| (*g*).—Work completed— | | |
| (18). | Soorteebagan ... ... ... ... | 64 |
| | Total ... | 453 |

From the above it appears that work was completed in one bustee only, viz., Soorteebagan, covering an area of 64 bighas. This project had been first taken in hand by the Bustee Committee in 1881. In four bustees, with an area of 134 bighas, the work was well advanced. In Soorteebagan, about one mile of roadway was constructed, nearly half of the cost being paid by the municipality, and the remainder by the owners. Sewering to a length of 4,655 feet, and surface drains to the extent of 2,055 feet, were also executed. The cost to the municipality on account of the Soorteebagan project amounted to Rs. 28,767. The cost to the owners is not known. The works executed up to the end of the year in the four bustees, in which some actual progress was made, are shown below—

| | Length of road in feet. | Length of sewering in feet. | Length of surface drains in feet. |
|---|---|---|---|
| Kalabagan ... ... | 5,000 | 4,040 | 1,800 |
| Bamunbagan ... ... | 1,380 | 1,380 | ..... |
| Jorapooker ... ... | 1,397 | 1,397 | ..... |
| Patwarbagan ... ... | 1,695 | 1,885 | ..... |

The other thirteen projects appear not to have advanced beyond the preliminary stage. The area dealt with under the compulsory provisions of sections 280—283A of the Calcutta Municipal Act was in all 481 bighas, out of the total bustee area of 2,222 bighas. The Municipal Commissioners are of opinion that it should not be assumed that the whole of the remaining area will require the adoption of similar coercive measures. They remark :—

"As a matter of fact, when the projects now in hand have been carried through, not much bustee land will remain to need structural improvement, while the owners of this residue are in many cases manifesting a readiness to carry out the improvements required by the Commissioners without legal measures of coercion. In no less than three of the bustees taken up in 1883-84, the owners have come forward and have spontaneously constructed or are constructing the roads that are wanting."

The salutary effect of the works already carried out is observable in the improved death-rates of the year in those Wards where most has been done.

| Ward No. | Mortality. | | |
|---|---|---|---|
| | Rate per mille, decennial mean. | Rate per mille, 1882. | Rate per mille, 1883-84. |
| 3 ... ... ... | 34·2 | 32·8 | 29·0 |
| 4 ... ... ... | 32·9 | 35·4 | 31·9 |
| 8 ... .. | 33·3 | 32·0 | 27·5 |
| 9 .. ... ... | 31·1 | 30·0 | 29·4 |

The bustee improvements have also been simultaneously attended with an augmentation of the value of property brought under the action of the municipality ; every rupee spent by the Commissioners has increased the value of the

property by Rs. 7, while even to the Corporation the rise in the assessed annual value of the tenements, and consequent increase of rates, has yielded a return of nearly 6 per cent. on the total outlay.

17. Four bathing platforms, supplied with unfiltered water, were erected during the year, and were eagerly resorted to by the neighbouring inhabitants. The Commissioners state that "it is now clear that the poorer inhabitants will readily accept bathing platforms in lieu of foul tanks, but that separate accommodation is needed for females." The cost of the sanitary and structural improvements carried out in the bustees, as given by the Commissioners, is as follows:—

| | Rs. |
|---|---|
| Establishment, carts, &c. ... ... ... ... | 27,633 |
| Land acquisition ... ... ... .. | 17,596 |
| Construction, metalling and sewering of roads made by the Corporation ... ... ... ... | 5,821 |
| Payment to hut-owners who were compelled to remove their huts ... .. ... ... ... | 2,745 |
| Construction of bathing platforms ... ... ... | 2,076 |
| Total ... | 55,871 |

The grant made by the Commissioners for this purpose was Rs. 1,50,000, out of which only Rs. 55,871 was expended. The Commissioners remark that the expenditure could be shown at a much higher figure, if certain heavy charges, for which provision had been made on account of acquisition of land and salary of special establishment, but which were not actually incurred, be brought into the accounts of the year.

18. During the year under review forty-four tanks were obliterated, besides 477 small holes and pits. These were filled up with refuse covered over with earth, and with the materials obtained by levelling mounds, and ashes and cinders obtained for the cost of carriage from the mills in the east of the town. It is reported that Drs. Coates and Harvey, in the course of their inspection of one of the bustees, expressed a doubt whether the ultimate effects of filling up all tanks in bustees would not be detrimental to the health of the inhabitants by facilitating the overcrowding of huts and interfering with the ventilation of thickly populated localities. The Commissioners are therefore disposed to acquire many of the tanks in future, converting the larger and better tanks into small public squares, and filling up only the smaller and dirtier ones, the spaces thus liberated being utilized for bathing-platforms, or for building stables for cattle and milch cows.

19. The year was normal in respect of average temperature. January was an unusually dry month. The rains came to a close at an earlier period than usual, and the rainfall of the year was deficient to the extent of 17·11 inches as compared with the mean of the previous 48 years, the most defective months in this respect being May and October 1883. The price of food was considerably higher than in the previous year. Rice sold at from Rs. 4-4 to Rs. 2-8 per maund, according to quality.

20. The number of births registered was 7,655 as compared with 7,500 of the previous year. The average number for the previous ten years is 6,798, but this decennial mean admittedly does not represent correctly the annual number of births in the town. The birth-rate was 17·6 per mille as compared with 17·4 of the previous year. The Health Officer is of opinion that birth registration is still defective, though gradually manifesting signs of improvement. As compared with European standards, the birth-rate is certainly low, but allowance must be made for the floating character of the population of Calcutta, where only 33 per cent. are females. Among the various races, the recorded birth-rates per mille were—

| | Birth-rates. | |
|---|---|---|
| | 1883-84. | 1882-83. |
| Non-Asiatics ... ... ... | 12·4 | 13·8 |
| Mixed Races ... ... ... | 45·9 | 47·2 |
| Hindus ... ... ... | 18·8 | 18·5 |
| Mahomedans ... ... ... | 14·3 | 13·5 |
| Other classes ... ... ... | 6 | 6·8 |

21. The number of deaths recorded during the year was 12,346 as compared with 13,453 in the previous year, giving a death-rate of 28·4 per mille

against 31. The mortality from cholera was severe, 2,122 persons having died from this cause. This number is less than that (2,390) recorded in 1882-83, but is greater than that of any previous year since 1870. The deaths from dysentery, diarrhœa and fevers show a decrease. The mortality from small-pox, however, was higher than in either of the three preceding years. The wave of small-pox is now advancing, and there are signs that the disease will be again present in an epidemic form during the ensuing cold weather. The number of vaccinations performed was 9,538, of which 8,357 were primary vaccinations and 1,181 re-vaccinations. The ratio of success in primary vaccinations was 99·38, and in re-vaccinations 16·17.

22. The offices of Chairman and Vice-Chairman continued to be held by Mr. H. L. Harrison and Rai Shama Churn Dey Bahadur. During the three months that the Vice-Chairman was on privilege leave, his duties were performed by the Secretary, Mr. Turnbull, in addition to his own. Mr. Turnbull went on leave on medical certificate for seven months, and during his absence Mr. C. W. Hope, late Secretary and Engineer to the Lahore Municipality, officiated as Secretary. Dr. McLeod's resignation of his office as Health Officer to the Corporation took place at the end of April last. He had held the post for four years and six months, and the Commissioners express their appreciation of the valuable services rendered by him. Since the close of the year the Corporation have had to sustain the loss by death of two of their most distinguished colleagues—Rai Shama Churn Dey Bahadur and the Hon'ble Kristodas Pal.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

*Secretary to the Government of Bengal.*

## RESOLUTION ON THE COLONIAL EMIGRATION REPORT FOR THE YEAR 1883-84.

GENERAL DEPARTMENT.—COLONIAL EMIGRATION.

*Calcutta, the 7th April* 1885.

READ—

The Report of the Protector of Emigrants for the year 1883-84.

In the Resolution recorded on the Protector's report for the year 1883-84, the Lieutenant-Governor took the opportunity of explaining the policy of the Bengal Government in regard to colonial emigration. It was stated in that Resolution that while cordially approving of emigration as beneficial both to those who emigrate and to those that remain at home, the Lieutenant-Governor could do no more in the way of aiding it, than to see that no obstruction is unnecessarily placed in the way of emigration, to encourage the dissemination among the masses of accurate information regarding the Colonies and the prospects of colonial emigrants, and to facilitate the interchange of communications between the emigrants and their friends in India. During the year under review this policy has been kept in view, and rules have now been framed and submitted for sanction to the Government of India, whereby it is hoped that full effect will be given to it. With the object also of securing the health and comfort of emigrants, attention was paid during the year under review to fixing the seasons for emigration, as it is highly desirable in the interests of all concerned that the voyage should be made at the most favourable time, and that the emigrants should arrive in the most healthy seasons at the Colonies. The year under report has also been productive of improvements in the treatment of emigrants before embarkation, on board-ship, and in the chief colonies to which they resort.

2. The Emigration Agencies at work during the year were eight in number, as in the preceding year. But Jamaica last year took no labourers, while St. Lucia did. The British Colonies which imported emigrants were Mauritius, Trinidad, Fiji, St. Lucia, Demerara, and Natal. The Dutch Colony of Surinam was also in the field, and the French Colony of Guadeloupe made up the total. The requisitions for emigrants and the number despatched in the last two years were as follow:—

* Requisition from Mauritius and Natal, specially the number of *men* only, and leave the number of women to be adjusted by the rule regulating their proportion.

An inspection of the figures in the preceding table will show how largely the requirements of the Colonies exceeded the supply of labour. This will be more clearly brought out by the following statement, which shows that while the Colonies have been yearly asking for more labour, they have been getting less than they want. The figures represent *statute adults*.

| 1881-82 ... ... ... | 12,314 | 7,946 |

There is no doubt that the tide of emigration ebbs and flows with the greater or less prosperity of the country, and the rise in the number of emigrants in the last year is no doubt due in a large measure to the pressure caused by a deficient harvest. This is an important consideration in an annual review of the emigration operations, which, however, has not received from the Protector sufficient attention. In future reports the Lieutenant-Governor will expect that this consideration be more fully treated, and that the interaction of colonial and inland emigration, the one upon the other, be fully discussed. Inland and colonial recruiters compete with each other in the labour market, and the degree of success which each attains is instructive both for the Emigration Agencies and for the Government.

3. It is satisfactory to find that although the difficulty of procuring emigrants, commented on in the Resolution for last year, became more marked during the year 1883-84, the conduct of the recruiters was unusually free from blame. The number of recruiting licenses granted rose from 576 in the earlier year to 757 in the past season, showing an increase of 181, while out of the greater number, 6 alone were cancelled or withdrawn for misconduct as against 16 in 1882-83. No prosecutions appear to have been instituted.

4. The total number of emigrants registered during the year was 18,021, or, omitting 936 re-registrations in the 24-Pergunnahs, 17,085; and distributed according to the provinces where they were registered, the details are these—

| | | | | | |
|---|---|---|---|---|---|
| North-Western Provinces | | ... | ... | ... | 6,836 |
| Bengal and Behar | ... | ... | ... | ... | 6,795 |
| Oudh | ... | ... | ... | ... | 1,763 |
| Punjab | ... | ... | ... | ... | 501 |
| Central India | ... | ... | ... | ... | 348 |
| Madras | ... | ... | ... | ... | 648 |
| Bombay | ... | ... | ... | ... | 158 |
| Rajputana | ... | ... | ... | ... | 36 |
| | | | Total | ... | 17,085 |

These figures, compared with the corresponding figures for last year, present no features calling for special attention, except in Oudh and Bengal. In Oudh there has been a considerable falling off, and in Bengal and Behar, a very large increase in the number of emigrants. The explanation given by the Protector is the early cessation of the monsoon in Bengal, which led to partial crop failure; and this explanation is borne out by the circumstance that recruitment was most brisk in Shahabad and Patna, which suffered from deficient rainfall, and in Calcutta, when the labour market was over-stocked. The districts of recruitment, with the extent of operations in each, are well illustrated in the report by coloured maps. The small extent to which emigration has as yet taken hold on the population will be apparent from the facts exhibited in these maps, that the districts of Gya, Benares, Allahabad, Fyzabad, Lucknow, Cawnpore, Agra, Aligarh, Muttra and Bareilly supply only one emigrant to every 10,000 of the people. The largest proportion is in Shahabad where out of every million people 500 emigrated during the year. As regards their registration, the 24-Pergunnahs, Benares and Lucknow come first with more than 1,000 registrations per million of population, and Patna, Shahabad, Allahabad, Fyzabad, Cawnpore, Agra and Muttra next with above 500 per million.

5. Out of the 18,021 emigrants registered, only 17,592 were admitted into the Calcutta depôts, the balance being accounted for by 222 deaths and desertions in the interior, 134 detentions in mofussil depôts, and 73 discharges by the Agents on account of unfitness, unwillingness to emigrate, and claims by relatives. These results, representing 2·32 per cent. on the total number registered, are considerably better than those of the previous year, when the percentage was 5·99.

6. Of the 17,592 emigrants admitted to the Calcutta depôts, 114 died, 841 persons deserted, and 2,422 were rejected by the recruiting agencies for one cause or another. Of the remainder, 13,808 persons were despatched to the Colonies. The numerical total differs of course from the number of statute adults mentioned in a preceding paragraph. A larger majority of the coolies admitted into the depôts were found fit and willing to emigrate than in the

previous year, and a greater number were ready to volunteer for other agencies, when the agency which recruited them could not despatch them. The depôt population enjoyed better health, and the mortality was less; the chief complaints were, as usual, fever, diarrhœa, dysentery, cholera and chest-affections. The Guadeloupe, Surinam and Trinidad depôts were again visited with fever this year. Last year the Lieutenant-Governor desired the Protector to enquire into the sanitary condition of these depôts, and suggest measures for improving it. Dr. Grant now attributes the prevalence of the fever to the comparative lowness of the sites of these depôts along the Garden Reach Road, and to the fact that the growth of mills and other places of business in that locality limits the space available. Measures have, however, been taken to remedy the defects: thus the water-supply has been improved, and better arrangements made for bathing-places and latrines, while other suggestions are now receiving the attention of the Agents.

7. Among the emigrants who embarked were 722 who had previously been in the Colonies, chiefly Mauritius and Demerara. No difficulty appears to have been found in obtaining the full proportion of 40 women to every 100 men, and in most cases surplus women were shipped. The emigrants, 13,808 in number, were despatched in 29 sailing vessels, with an average of 476 in each, both figures being in excess of the previous year. On four vessels—the *Poona*, *British Statesman*, *British Nation*, and *County of Berwick*,—the mortality exceeded 3½ per cent. The mortality on board the *Poona* was due to cholera, but the report furnishes no satisfactory explanation regarding the cause of the sickness on board the other ships. One vessel, the *Syria*, was wrecked near Fiji, but with the exception of 50, all the emigrants, 497 in number, were saved. The total number of emigrants who reached the Colonies appears to have been about 13,528.

8. The return emigrants, all from British Colonies, who arrived in Calcutta during the year numbered 3,877, or 331 more than the year before. They brought with them savings amounting to Rs. 8,21,235, or an average of nearly Rs. 212, both figures being far above those for the preceding year. The richest were those from Trinidad and Demerara. The health of the return vessels appears to have been fairly good.

9. Dr. Grant held the office of Protector of Emigrants throughout the year, and has discharged its duties efficiently.

By order of the Lieutenant-Governor of Bengal,

A. P. MacDONNELL,

*Secretary to the Government of Bengal.*

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

CALCUTTA, *the 7th April* 1885.

## SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 3RD OF APRIL 1885.

THE principal features in the meteorology of the past week have again been rapid reduction of pressure and very rapid increase of temperature.

At the close of the previous week a small area of barometric depression had passed over North Bengal towards Purneah and Darjeeling, and this had given rise to moderately general, and in some cases rather heavy, rain in some of the districts of East Bengal and in the hill districts of North Bengal. These conditions continued on the 28th and 29th, when the depression filled up and the weather cleared. On the 31st, however, an area of low pressure was developed in Behar, which on the following day passed into West Bengal, and on the second moved to North Bengal. On these two days again rain fell in moderate quantities in the hill districts of North Bengal.

Pressure, with some slight exceptions, has fallen steadily throughout the work, and while during the previous week it was in most districts slightly above the normal pressure, during the past week the average pressure, except in Chutia Nagpur, where it has shown an excess of 0·015″, has in all cases been below the normal. Thus in South-West Bengal the average defect has been 0·034″, in South Behar it has been 0·025″, in East Bengal and South Behar it has equalled 0·015″, while in Orissa the defect has only been 0·005.″

Temperature has continued to rise almost throughout the whole week, and except in East Bengal it is now decidedly above the normal. The rise of temperature during the week, and its considerable intensity, will be seen from the following table giving the daily maximum temperatures at four stations :—

Table showing daily maximum temperature in the shade :—

| | March. | | | | April. | | |
|---|---|---|---|---|---|---|---|
| | 28th. | 29th. | 30th. | 31st. | 1st. | 2nd. | 3rd, |

| Rampore Beauleah ... | 99·4° | 103·4° | 105·4° | 103·4° | 100·4° | 101·4° | 101·4° |

From the above table, it will be seen that at several of the Bengal stations maximum temperatures have been very high during the week.

Rainfall has been entirely absent during the week in Orissa, North Behar, South Behar and Chutia Nagpur. One or two isolated showers were reported from South-West Bengal, but the only rainfall of importance has occurred in the East and North Bengal divisions. Rain in these districts fell on the 28th and 29th, and in some cases on the 30th, while in the hill districts of North Bengal rain again fell on the 1st and 2nd. In some cases the rain was heavy, and thus Buxa on the 2nd reported 2·32 inches. The rainfall has been almost entirely confined to the Dacca, Commillah, and Mymensing districts in East Bengal, and to the Rungpore, Julpigoree, Cooch Behar, and Darjeeling districts in North Bengal. The average fall over the whole of East Bengal equalled 0·65 inch, and in North Bengal 0·57 inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 3rd of April 1885 :—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1·0° lower; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

* A special census of the Europeans in the Darjiling Municipality was recently taken as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to, cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

### RED SEA—COAST OF NUBIA.

*Shoals in Northern approaches to Trinkitat Harbour.*

THE Admiralty, London, has notified that information has been received, of the existence of two shoals lying in the approach to Trinkitat or Taring-hatah harbour from the northward.

1. A shoal apparently about 1 cable in extent, with 4 fathoms on it, and 8 fathoms close around, lies with north extreme of the detached reef outside Trinkitat harbour bearing S by W ½ W, distant one and half miles.

Position—Latitude 18° 41′ 20″ N; longitude 37° 44′ 50″ E.

2. The outer edge of a shoal, with 3 fathoms on it, lies with north extreme of the reef outside Trinkitat, bearing S E by S, distant 5 cables, thus narrowing the approach to the harbour to about 4½ cables: within this 3 fathoms the depth decreases quickly to one fathom. This shoal probably fringes the coast from the north entrance point of Trinkitat harbour to Rás Makdah.

NOTE.—The above shoals are not indicated by discolouration of the water. Vessels from the northward are therefore recommended to pass the islets and reefs north of Rás Makdah at the distance of about 3 miles, and to approach Trinkitat with the northern extreme of the detached reef outside the harbour on a S W bearing, a careful look-out being kept from aloft and the speed reduced.

IRRIGATION.

*The 24th March* 1885.

*No.* 119.—*Notification.*—Notice is hereby given that the Lieutenant-Governor of Bengal proposes under sections 78, 79, 80, 81 and 99 of Act III (B.C.) of 1876 to pass the following rules for carrying out the provisions of the said Act, with respect to the Sarun Canals. These rules will supersede those at present in force :—

1. In Notification No. 179, dated 18th August 1879, under the provisions of Part II of Act III of 1876, Government has reserved to itself the rights of property in the water in the following canals and river beds forming part of the Sarun irrigation scheme :—

1. Roopun Chap Sota.
2. The head cut.
3. The Daha river and the water channels in continuation of or in connection with it.
4. The Gandaki river and the water channels in continuation of or in connection with it.
5. The Dhanai river and the water channels in continuation of or in connection with it.
6. Gangri river and the water channels in continuation of or in connection with it.

These canals and rivers will hereinafter be referred to as the Sarun Canals.

2. No person shall take water from the Sarun Canals for irrigation or manufacturing purposes without the written permission of a duly authorized person.

Licenses will be required—

(*a*)—For the construction of temporary dams in the canal beds.

(*b*)—For the irrigation of lands by flow or lift.

(*c*)—For the construction of village channels and distributaries leading from the canals for the irrigation of lands.

(*d*)—For water used for the purpose of any manufacture by any person other than a canal manager.

(*e*)—For the erection of fishing weirs or the use of fishing nets—(1) in the head cut; (2) in the new cuts from the Roopun Chap Sota to the Daha, Gandaki, Dhanai, and Gangri river beds; (3) in any other new cuts which may be made hereafter.

3. Government reserves at present its right to levy tolls for irrigation, and to charge for filling tanks, watering cattle, or for water for other domestic purposes.

4. The revenue administration of the Sarun irrigation scheme is vested in the Collector, who is ex-officio head of the Canal Revenue Department. The Executive Engineer of the Gunduck Division as canal officer is charged with the maintenance and management of the canals, but all orders passed by him under the Act or these rules are appealable to the Collector under whose general directions he will act. All orders relating to the canal revenue will usually be issued by the Collector (through the Executive Engineer or not, as the case may be), and all correspondence intended for the Collector in this department should be addressed to the Collector direct, or through the Executive Engineer, Mozufferpore, or the Assistant Engineer, Gopalgunge.

5. For administrative purposes, the Sarun district is divided into the sub-districts enumerated in the following rule, and shown in a map deposited in the Collector's office. The boundaries of the sub-districts and their number may be hereafter modified.

6. The following guarantors are, till further orders, appointed canal managers, and will, within the under-mentioned sub-districts, act as the agents of Government in managing the affairs of the canals.

| | | |
|---|---|---|
| Manager of the Arua concern for the time being. | | |
| Ditto | Bansapali | ditto. |
| Ditto | Bahrowli | ditto. |
| Ditto | Burhoga | ditto. |
| Ditto | Harpur | ditto. |
| Ditto | Hatwa estates | ditto. |
| Ditto | Jogapur concern | ditto. |
| Ditto | Nowada | ditto. |
| Ditto | Rajapatti | ditto. |
| Ditto | Ramkola | ditto. |
| Ditto | Sadowa | ditto. |
| Ditto | Sitalpur | ditto. |

7. The more particular duties of a Canal Manager will be—

*1st.*—To receive applications and grant permits, printed in the prescribed form, for the use of water under sections 74, 75, and 77 of the Irrigation Act.

*2nd.*—Subject to the instructions of the canal officers to distribute, under the provisions of section 76, the water-supply allotted to his sub-district.

*3rd.*—To recover and credit to Government the water-rates.

*4th.*—To superintend and maintain such establishment as may be found necessary for the assessment and collection of water-rates within his sub-district.

8. Canal Managers have no power under Parts III, IV, and V of the Act; and all claims to remission under section 76 of Part VI should be referred to the canal officer or his assistant for disposal. Complaints regarding unauthorized use of canal water under sections 79, 80, and 81 are also to be referred to the canal officer or Collector for decision. All proceedings connected with the recovery of water-rates by distraint or other compulsory process will be undertaken by the Collector.

9. Any Manager desiring the construction of a temporary dam across the Roopan Chap Sota, or across the bed of the Daha, Gandaki, Dhanai, or Gangri rivers must prefer a written application to the canal officer specifying the object of the work and the length of time for which it is required. It will be at the discretion of the canal officer to reject the application or to grant it on such conditions as he may think fit, one of the conditions being the power reserved to the canal officer of cutting the bund, if it should ever appear to him, in the public interests, necessary to do so.

Provided, however, that no such dam shall be constructed without due provision being made, by means of a proper escape channel, for the supply to the guarantor or guarantors, on the same river below such dam, of the share of water to which he or they may be entitled under the decision of the canal officer.

10. Any person other than a Manager who may desire to construct a temporary dam across the bed of any of the rivers mentioned in the last rule must prefer his application to the Canal Manager in charge of the sub-district in which the site of the proposed dam lies. The latter will then forward the application with his remarks to the canal officer for orders.

11. Any person, whether he be a Canal Manager or not, who constructs a dam across any of the river beds referred to in Rule 9, without having first obtained the written permission of the canal officer, or who after the construction of an authorized dam, does or abets the doing of any act to impede the free flow of water through the escape channel provided for such dam, will be liable to prosecution under section 93, Act III (B.C.) of 1876, chapter XVII of the Indian Penal Code, or otherwise as may seem proper to the Collector.

12. With reference to Rule 7, paragraph 2 above, it will be competent to the Canal Manager, subject to the control of the canal officer, and on his own responsibility,* to allow the construction of such temporary dams in any of the village channels (subsidiary to the main river beds mentioned in Rule 9) within his sub-district, as he may consider necessary for the proper distribution of the water-supply allotted thereto.

* With reference to the possible damage to crops, &c.

13. If one or more of the riparian proprietors desire to have a permanent dam or regulator constructed in any channel or river bed, he or they shall present an application to that effect to the Collector, who will consult the Canal Manager and the canal officer as to the desirability of constructing such dam or regulator. Should its construction be deemed desirable, the Collector will cause plans and estimates to be prepared, and he shall also call upon the applicants to deposit the cost (including cost of establishment), or to give a guarantee securing its payment when required, and providing that, if the cost of the work should, through unforeseen causes, exceed the original estimate, the balance will be made good by the applicant. The agreement will also provide for the dam or regulator being kept in proper repair, as well as for its being taken over by Government at a fair valuation, should this ever be considered expedient. The construction of such dam or regulator will be carried out by the canal officer, who shall also have power to stop all supplies of water if it is not subsequently maintained in proper repair.

14. Each application for a permanent dam or regulator will be considered on its own merits, and will only be granted on such conditions as the Collector in consultation with the Superintending Engineer shall consider fit.

15. A register will be kept of the owners of each permanent dam or regulator, and any person may at any time apply to the canal officer to be made a joint owner. The canal officer may either reject such application, or if he think fit, he may issue a notice upon the registered owner or owners, and after hearing any objection which the registered owner or owners may prefer against the admission of such applicant to be a joint owner, in either case he shall report fully to the Collector, who may confirm the original rejection of the application, or may direct that the applicant be registered as such joint owner, on payment to the registered owner or owners of such sums as may be fixed by him.

16. Persons desiring to irrigate their fields with canal water by flow or lift, must apply in person or by agent to the Canal Manager, whereupon the latter shall issue a permit in the prescribed form (Appendix B). The right to irrigate without extra charge extends up to the 31st of March following the date on which the permit was issued; provided, however, that under the operation of this rule one and the same crop be not assessed more than once. The rate charged shall not exceed Re. 1 per acre (or 12 annas per bigha), irrespective of the crops grown, except in special cases to be determined by Government.

17. Any person other than a Canal Manager desirous of taking water for the manufacture of indigo must apply for a permit to the Canal Manager, stating the estimated outturn, and undertaking that he will, on the 1st of October, declare the quantity he has manufactured. The charge will be at the rate of Rs. 2 per maund of indigo manufactured.

18. No person may allow water to run to waste, and no person other than a Canal Manager may use water for irrigation or for any other purpose without having first obtained a permit as required by the preceding two rules. Any person infringing this rule will, with the consent in writing of the Collector (but not otherwise), be charged double the ordinary rates for the water used without authority or wasted, and will in addition be liable on prosecution by the Collector or canal officer, to the penalty provided by section 93 of Act III (B. C.) of 1876, or by any other law under which his offence may come. The charge in such cases will, as a rule, be laid by the Canal Manager by the submission to the canal officer or Collector of an "Unauthorized Irrigation Certificate." (*See* Appendix C.)

19. The privileges of guarantors are as follows:—

(1)—A prior claim to a supply of water for irrigation and manufacture during the continuance of their guarantee.

(2)—The right to use water for manufacturing purposes free of charge.

20. Any person may apply to the Collector to become a guarantor. If the Collector accept the application, which at his discretion he may or may not do, he shall proceed, in

communication with the canal officer, to determine whether the new guarantee shall be utilized towards extending the canals, providing distributaries or embankments, or towards reducing the responsibility of any of the original guarantors. If the original guarantor (within whose sub-district the applicant's property or interest is situated) claims a reduction in his guarantee, and can at the same time show that the application of the new guarantor towards an extension of the canal would operate to reduce his collections below the amount of his guarantee, his claims to have his guarantee reduced shall be considered: otherwise the new guarantee may be applied towards extending the canals, and an area corresponding to the applicant's property or interests be marked off to him, within which he shall exercise the rights and privileges now exercised in their sub-districts by the guarantors mentioned in paragraph 6 of these rules.

If the applicant's interest or property be not situated within any sub-district as specified in paragraph 6, then the Collector shall apply the guarantee towards extending the benefits of the canal system.

21. The irrigation year will commence on the 1st April; and as soon as possible after the irrigation of any land has been completed or the manufacture of indigo [by a person other than the Canal Manager] has been concluded, the Canal Manager shall present the persons who used the water with bills for water-rates (in a form approved by Government) based upon the actual area irrigated or the outturn of indigo manufactured. If those bills are not paid [*a*] in the case of indigo manufacture within one month after presentation, [*b*] in the case of *rubbi* crops by the 1st March, [*c*] in the case of other crops within one month after the crop irrigated has been cut, the Canal Manager shall, without delay, submit a list of such unpaid bills to the Collector, who will put in force the powers vested in him for the recovery of the amount due in accordance with sections 83, 84, and 85 of the Indian Irrigation Act. Such list must be supported by the counterfoils of the bills (Appendix D) prepared by the Manager, as well as by his personal certificate, that he has satisfied himself of the justness of the claims; and in the case of unauthorized irrigation, by the "Unauthorized Irrigation Certificates" (Appendix C) required by Rule 18.

22. The sums thus recovered by the Collector will be placed in his (the Collector's) accounts to the credit of the Canal Manager as a set off against the amount due from him under his guarantee for the year during which such recoveries are made. The Canal Manager will be entitled to a commission of 20 per cent. on all recoveries (over and above the amount of his guarantee), made either by himself or by the Collector on lists submitted on or before the 31st March. Sums due on this account will not be shown by the Manager in his accounts, but will be paid to him by cheque after the adjustment by the Collector of the year's accounts. No percentage allowance will be granted to the Manager in respect of recoveries made by the Collector on lists submitted later than the 31st March, although the amount of such recoveries will, as stated above, be credited to him as an asset against the amount of his guarantee.

23. For water used by a Manager for the irrigation of his own lands, he will be charged at the ordinary rate of Re. 1 per acre (or 12 annas per bigha), and for sums due on this account he will not be entitled to any commission allowance.

24. It will be the duty of Canal Managers—

*1st.*—To see that all permits for the use of water be issued in the prescribed form, and a copy be kept in counterfoil in books supplied for the purpose.

*2nd.*—That copies of bills presented for payment be kept in the counterfoils supplied, for record.

*3rd.*—That a cash-book of all receipts of water-rates be kept in forms supplied for the purpose.

*4th.*—That for all cash received receipts be granted in the form supplied by the canal officer, which will be kept in counterfoil.

*5th.*—That all cash received be paid monthly into the sub-divisional or district treasury, and that the treasury receipts be filed with the cash-book as vouchers.

*6th.*—To submit such returns as may be required from time to time by the Collector.

*7th.*—To afford every facility to the canal officer and Collector in their periodical inspection of the Canal Managers' office and accounts.

25. The amount yearly guaranteed by each Manager is payable in two equal instalments, viz. on the 30th of June and the 31st December of each year, and any arrear due on either of these dates will be deemed to be a demand under Act VII (B. C.) of 1880, and shall be recoverable by the processes prescribed by the above Act.

26. A yearly adjustment up to the 31st March will be made of each Manager's account as soon as possible after the close of the official year (31st March). For this purpose each Manager will, by the 15th April, submit to the Collector in duplicate a statement in form Appendix D, with the entries of the first 12 columns duly filled in. The Collector will supply the figures for the remaining columns, and return one copy to the Manager with a cheque for the sum payable on account of commission as shown in column 15, should no arrears from him be due. The Collector will also require the immediate deposit by the Manager of any arrears which may be shown to be due. Such arrears if not paid within one month after due notice to the Manager, will be recoverable under the Certificate Procedure Act (VII B.C. of 1880).

### PUBLIC WORKS DEPARTMENT, BENGAL.

### DISTRICT ROAD FUND.

NOTIFICATION No. 147.

*The 10th April* 1885.

THE following annual accounts and reports of the Road Cess Committees of the districts of 24-Pergunnahs, Nuddea, Jessore, Khoolna, and Moorshedabad for the cess year 1883-84, together with the remarks thereon of the Commissioner of the Presidency Division, are published for general information.

G. F. E. S. NEILL, *Major*, M.S.C.,
*Under-Secy. to the Govt. of Bengal, P. W. Dept.*

No. 70R., dated Alipore, the 15th December 1884.

From—C. C. STEVENS, Esq., Chairman, Road Cess Committee, 24-Pergunnahs,
To—The Commissioner of the Presidency Division.

UNDER section 179 of the Cess Act, IX of 1880, I have the honour to submit herewith the annual accounts and reports of the District Committee for the past cess year 1883-84, which have been duly approved at a special meeting of the said Committee held for the purpose on the 28th ultimo.

2. During the year under report four special meetings were held by the Sudder Committee, and at each of them there was a quorum. Copies of the proceedings of each of the six Branch Committees in the district were regularly received by the District Committee. A statement in the prescribed form is annexed showing the attendance of the members at meetings, both at the Sudder and Branch Committee. The reason why only two meetings were held by the Barrackpore Branch Committee was that there was no occasion for more, as that Committee has only to look after the few village roads situated within the rural portion of the Barrackpore Cantonments, outside the proper cantonment limits. The attention of the Chairman of that Committee, however, has been drawn to the requirements of section 119, which enjoins that at least four meetings of the Committee should be held in the year.

3. The principal business of the Branch Committees in this district is simply to distribute the funds allotted to them by the District Committee among the several village roads within their respective jurisdictions, and the Chairman of each Branch Committee personally tests the work or deputes his subordinates or any individual member of the Committee for the purpose before making payments for it.

4. A sum of Rs. 12,387 was allotted to the Branch Committees for the improvement of village roads and footpaths; and it is reported that the money has been usefully and economically spent by the several Committees. At Barrackpore Rs. 1,900 were received as private contributions for the construction of the Bundipore village road in that subdivision, namely Rs. 1,500 from Baboo Chundy Churn Chatterjee, and Rs. 400 from the South Barrackpore Municipality. People are clamorous in their demands for repairs and construction of village roads, and applications numerously signed are frequently received. The allotment made for village roads is insufficient to satisfy the wants of the people. The small amount left after providing for the repairs and maintenance of the existing thoroughfares in the district is all that is allotted to Branch Committees for the improvement of village roads. But this is not sufficient for the numerous village roads in the district. However, this grant, supplemented by local subscriptions and private donations, has helped much to improve the state of the village roads in the district.

5. The district thoroughfares are in a fair state of repair. On one of them, namely the Takee road, a mail cart is regularly driven daily from Baraset to Bussirhat.

6. Besides the outlay required for the maintenance of district and village roads as stated above, the Committee spent Rs. 1,287-9-6 for planting fruit trees on the sides of the roads named on the margin, and Rs. 890-0-9 for the maintenance of trees planted in previous years on such roads. All the old as well as the new trees are thriving, and it is expected that some of the former will bear fruit next spring. Nokur coolies have been entertained to water the trees, and an enclosure has been put round each young plant to protect it from animals. The total number of fruit trees planted up to the end of the past cess year is about 3,000.

Goburdanga, Takee, Sodepore, Ghoseparah, Amdanga, Barripore, and Russa roads.

7. The people seem now quite reconciled to the levy of cess. Two liberal contributions were received during the year for the construction of two specific works, namely Rs. 1,500 for the construction of the Bundipore road by Baboo Chundy Churn Chatterjee, referred to in paragraph 4, and Rs. 1,200 for the construction of a bridge over the Sorisa khal by Baboo Radha Mohun Munde. The slenderness of the resources of the Committee, however, prevents the satisfaction of the many demands which are made on them.

8. The several establishments under the Committee are reported to have worked well.

*Explanatory memorandum to accompany the Road Cess Annual Accounts of the district of 24-Pergunnahs for the cess year 1883-84, under paragraph 14 of the instructions from Government for the preparation of the annual account conveyed in its circular No. 8A., dated 14th February 1879, of the Public Works Department.*

| As per budget head. | Increase or decrease. | EXPLANATION. |
|---|---|---|
| | | *Receipts.* |
| Land cess ... | Increase ... | This increase is owing to the collection of nearly all arrears of the past year, as well as the realization of an extra instalment of cess due from revenue-free estates. |
| Fines and fees ... | Ditto ... | The increase was owing chiefly to head of fees for the issue of a large number of certificates for the realization of arrears. |
| Miscellaneous ... | Decrease ... | The decrease is to the non-receipt of the full amount of contribution from the several municipalities which was originally expected from them. |
| | | *Expenditure.* |
| Refunds ... | Increase ... | The increase was owing to refunds of several amounts of contribution credited to the fund for private parties, under section 49 of the Cess Act. |
| Establishment on Provincial Rates. | Ditto .. | The increase was owing to payment of salaries for the month of September 1884, within the month owing to Doorga Poojah holidays. |
| Ditto ditto, Administration. | Ditto ... | Ditto ditto ditto. |
| Stationery ... | Ditto ... | This was owing to payments of certain arrears of cost of forms for the past year. |
| Original work ... | Ditto ... | This was owing to the construction of a bridge over the Sorisa khall, which was not provided for in the budget, but was undertaken in the middle of the year on account of a liberal contribution received from a private party. |
| Repairs ... | Decrease ... | The decrease due to the full estimated amounts not having been paid to contractors on account of certain repair works, the contractors having undertaken them at less than the estimated rate. |
| Establishment ... | Increase ... | This was also due to payments of salaries within September 1884 for the intervention of the Doorga Poojah holidays. |
| Tools and plant ... | Decrease ... | The decrease was owing to the fact that no new tools were bought during the year. |
| Miscellaneous ... | Increase ... | This was owing to purchase of an increased amount of court fees for the speedy recovery of arrears of cess. |

No. 216R.F., dated Kishnaghur, the 29th December 1884.

From—The Magistrate and Chairman of the District Road Cess Committee, Nuddea,
To—The Commissioner of the Presidency Division.

I HAVE the honour to submit the annual account for the cess year ending September last, with the following report.

2. The working, both of the District and Branch Committees, was on the whole satisfactory. The former met five times during the year, and all the meetings were attended by quorum.

3. The financial condition of the Committee was no way better than that in the preceding year. The Government made no grant-in-aid of their general revenue, and only a sum of Rs. 1,939 was contributed by it during the year for completion of the Chagda road drainage works.

4. The operation of the year chiefly consisted of ordinary repairs of the existing roads, of which 133¾ miles are metalled and 558 miles are unmetalled. As in previous years, the Committee were unable to make sufficient grants for their metalled roads: the unusual draught, on the other hand, was greatly unfavourable for them. The wear and tear of metalling on them was consequently greater than what was anticipated and provided for. The draught also stood in the way of their estimated repairs being carried out off-hand in proper time. They were, however, efficiently finished within the year. The annual maintenance of the unmetalled roads was carried out before the rains set in.

5. The completion of the Khoksa road and the drainage work on the Chagda road were the principal original works of the year. The Committee have during the year spent for them Rs. 6,905 and Rs. 1,346 respectively. Four arched culverts were built on the Chupra and Nischindpore road, and some materials also were collected for one of its timber bridges. The outlay amounted to Rs. 1,976. These works form a part of a project which the Government had sanctioned for the road. The Gurkhal bridge was finished within the year at an expenditure of Rs. 297, and only one work, viz. the 3rd mile bridge of the Kanchadiar road, was not finished owing to interruption caused by a sudden spill flood of the Padma river. The main structure was set up within the year, and planks and rails are being fitted in now. The bridges on the Buggula road were virtually repairs and restorations: their expenditures appear under the head of original works for mere technicality.

6. In the sudder the village road works were carried out as usual through respectable inhabitants of villages, under control of a sub-committee called Village Road Sub-Committee. The branch committees worked partly through their members and partly through village agencies. The result, on the whole, was satisfactory. In the sub-divisions grants in some cases were supplemented by private donations. The total outlay on the work was Rs. 1,516.

7. The flood was an average one all over the district, except in some parts of the Koostia sub-division, where rather a somewhat severe flood suddenly occurred owing to Padma spills going inland on the removal by the river of a high ridge by which it was separated from a spacious low-level area. Some roads of the flooded tract were badly assailed by the flood, but the damage, however, was not much in any case, as the bridges were all saved by timely protective measures.

8. The cess is gradually becoming popular in this district, as the majority of the people now appreciate the benefits it confers.

9. The works budgetted for the current year comprise chiefly repairs, and the only original work worthy of the name is the extension of metalling over a mile of the Nuddea road, for which a sum of Rs 3,500 has been sanctioned.

10. The year was not favourable for arboriculture. The young trees on the roads were, however, nursed with great care, and they thrived well on the whole. There was not much fresh transplantation during the year, and the money which could be spared for the work was mostly required for the maintenance of the existing trees.

11. A sum of Rs. 160 was contributed during the year to the Furreedpore District Road Committee for construction of a diversion on the Coomercally and Simla road, just at the place where it intersects a khal which forms the boundary between the two districts. The diversion will benefit both the districts equally.

12. The collection office and Committee's establishment gave satisfaction

13. The District Engineer worked satisfactorily, as did most of his establishment.

R. C. MUKERJI,
*Vice-Chairman.*

No. 74R, dated Jessore, the 17th January 1885.

From—E. J. BARTON, Esq., Magistrate, and Chairman, District Road Cess Committee, Jessore,

To—The Commissioner of the Presidency Division.

I HAVE the honour to submit herewith the Road Fund Annual Report and Accounts for the cess year 1883-84, together with the requisite explanatory notes required under Government circular No. 8A, dated the 4th February 1878.

2. The estimates of Income and expenditure for the year under review were considered and passed by the District Committee at a meeting held on the 30th July 1883. The receipts, including previous balance, were estimated at Rs. 97,928, and the expenditure at Rs. 95,808. The actual receipts were Rs. 1,03,806 and the expenditure Rs. 1,02,883. The details of expenditure are shewn in form No. 6, part II of the annual accounts. The local works were carried out as usual by the District Engineer and his staff. Village roads and minor works were conducted by the Branch Committees under the supervision of the Chairman and members.

3. The District Committee met seven times during the year, and at all the meetings there was a quorum

Two meetings were held in the beginning of the year to pass estimates, to consider Government letter No. 3296E, dated 22nd September 1883, in regard to the question of District Engineer's salary and to pass the revised budget estimate according to Government resolution No. 3814RC of 6th November 1883.

Two meetings were held to pass the annual accounts and report for 1882-83 and estimates for various works, as also to consider the question of arboriculture.

Three meetings were held towards the close of the year to fix rates of cess to be levied during 1884-85, to pass the budget estimate for that year, and to sanction District Engineer's application for a month's privilege leave.

4. The Committee resolved at a meeting, held on the 15th August 1884, to levy the maximum rate of cess for the ensuing year to meet the estimate of expenditure.

5. With very few exceptions the non-official members took but little interest in the administration of the fund at their disposal.

6. The accounts now submitted were laid before a meeting, held on the 8th instant, after being previously examined and passed by a Sub-Committee. The report of the Sub-Committee is hereto attached—*vide* statement B.

7. The following is a brief description of the principal works carried out during the year:—

(*a*) Surface repairs have been executed on 430½ miles of roads, that is on all the roads entered in the printed list with the exception of a few in the Bongong sub-division.

(*b*) Metal has been renewed on eight of the principal roads, and there have been two miles of new construction.

(*c*) All the bridges and culverts have been maintained throughout the dsitrict, and eight new culverts have been constructed.

(*d*) Three inspection bungalows have been constructed at Mohispore, Mashroompore, and Samanta in the Bongong sub-division to facilitate the better supervision of work along these long lines of road. All the existing bungalows throughout the district have been maintained in proper order.

(*e*) The drainage works in the Bongong sub-division have all been completed.

(*f*) *Arboriculture.*—The fruit trees planted out on the roadsides have been maintained.

8. *Station roads.*—The sum of Rs. 450 was expended in repairing the roads in the different sub-divisions, and the works were carried out under the immediate superintendence of the sub-divisional officers.

9. *Village roads.*—A sum of Rs. 4,800 was expended on village roads in the different sub-divisions of this district in the maintenance and construction of different roads and bridges. These works were also carried out under the immediate supervision of the sub-divisional officers and members of the Committees.

10. I now proceed to state briefly the road cess operations which have been projected for the ensuing year 1884-85 as required by Government circular No. 50, dated the 23rd July 1873. The expected income from cess leviable under the Act and from other sources is estimated at Rs. 84,689 of which sum it is proposed to expend Rs. 20,506 on original works and Rs. 46,330 on maintenance and repairs.

11. The principal works for execution are the following:—

(*a*) Four hundred and eighty-seven main lines of roads which are exclusive of station and village roads will be repaired and kept in order.

(*b*) Two miles of new metalling will be executed on the Rajahat and Keshabpore and Kallygunge and Jhenidah roads.

(*c*) Portions of metalling will be renewed on eight of the principal roads.

(*d*) The bridges and culverts will be repaired to the extent of Rs. 2,710 as provided in the budget estimate, and 18 new culverts will be constructed, as also three causeways.

(*e*) Two inspection bungalows will be built—one at Monirampore in the sudder sub-division and the other at Mulnahatti in the Bongong sub-division.

(*f*) Arboriculture operations will be carried out as usual to the extent of the budget allotment.

12. A statement (appendix A) is herewith submitted, shewing the number of meetings held by the District and Branch Committees during the year, as per form referred to in Bengal Government resolution No. 395A, dated the 15th May 1877, from which it will be seen that the percentage shewing the attendance of members is larger than last year.

13. As usual the sub-divisional officers have taken an interest in the roads of their sub-divisions. They have supervised the construction and repairs of village roads. The indigo planters and a few native members have likewise rendered assistance.

14. *Road cess collection establishment.*—The total demand of both road and public works cess, for the year 1883-84 was Rs. 1,59,134, to which Rs. 32,233, arrears outstanding from the last year, being added, the total realizable gross demand for the year comes up to Rs. 1,91,367, out of this amount Rs. 1,62,035 were realized within the year, or in other words 84·6 per cent. of the gross demand, leaving a balance of Rs. 29,332 at the close of the year. From this balance Rs. 1,129 being deducted as previously paid in advance for the present year, there remains an arrear of Rs. 28,203. Out of this balance Rs. 23,631 have been realized, since the close of the year.

15. Out of the arrear balance of Rs. 32,233, with which the year under report opened, there was a collection of Rs. 32,017, or in other words 99·3 per cent. of the arrear balance was realized within the year. The collection therefore seems to be very satisfactory, and reflects credit on the establishment.

16. *Engineering establishment.*—Mr. Burt, the District Engineer, and his subordinates worked satisfactorily. Baboo Uma Churn Ghose, sub-overseer, deserves special mention. In my previous report I gave a short account of the embezzlements committed by the late accountant, Mohind Chunder Sen. It is needless therefore to reiterate the facts here. I beg, however, to state, for your information, that the entire amount embezzled by the accountant has been realized in accordance with his security bond by the sale of his property.

SHYAMADHUB ROY,

*Meeting of the Members of the Audit Sub-Committee, on the 29th November 1884.*

PRESENT:

Baboo Shyamadhub Roy, *Vice-Chairman.*
,, Tarani Charan Chowdhury, *Member.*

WE examined the accounts for the months of September and October 1884, and the annual account for the year 1883-84, and found them correct.

It seems that Rs. 3,187 was paid to the Manager of the Coal Company for the purchase of coal by cheque No. 114 in the month of September, but no receipt* has been received up to date. The Accountant, Road Cess, says that this has been owing to a change in the management of the Coal Company.

2. A payment of Rs. 62-0 6 was made by cheque No. 148, but there is no signature of the Vice-Chairman to the pay order. This should be supplied now.

3. We are of opinion that the order for adjusting the advance accounts should be always laid before the Audit Sub-Committee.

SHYMADHUB ROY,

*The 29th November* 1884. *Vice-Chairman.*

* This receipt has since been received.

No. 85R., dated Khulna, the 29th November 1884.

From—W. M. CLAY, ESQ., Chairman District Road Cess Committee, Khulna,

To—The Commissioner of the Presidency Division.

I HAVE the honour to submit the Annual Report of the District Road Cess Committee, Khulna, for the cess year 1883-84, together with the Annual Accounts, in duplicate in accordance with No. 973A., dated 14th September 1880.

At the beginning of the year, the Committee consisted of 25 members, 6 official and 19 non-officials. During the year one died and 6 ceased to be members under section 115 of the Act for non-attendance. One new member was appointed. At close of the year there were in all 19 members including the Chairman. Deputy Magistrate Baboo Dinanath De was the Vice-Chairman of the Committee throughout the year. There were seven special meetings and one ordinary meeting during the year, and the average attendance of each member was 8·6 against 10·2 of the previous year. The attendance of members from the Satkhira sub-division was small in consequence of the distance of the place from the head-quarters. The result of the year's work has not been seen as yet, but the District Engineer reports that all the district roads have been greatly improved during the year. The roads in the sub-division of Satkhira have become passable now and many bridges have been provided. The Bagirhat road has also been improved, temporary bridges have been constructed in places where they were required, and a large number of pipe culverts put in. The roads in the sudder station of Khulna have been remodelled and widened, and at the same time a new system of drainage introduced. The village roads of the Sudder sub-division were under the supervision of the Vice-Chairman, and of the sub-divisions of Bagirhat and Satkhira under the Branch Road Cess Committees of those places. All these roads have been also greatly improved, and it is in contemplation to transfer some of them to the list of district roads. Rupees 12,836 have been spent for village roads.

Fruit trees have been planted on one mile of each of four roads and a sum of Rs. 431 has been spent for the purpose.

The different establishments under the Committtee have worked well.

No. 63, dated Berhampore, the 1st December 1884.

From—The Chairman of the District Road Cess Committee, Moorshedabad,
To—The Commissioner of the Presidency Division.

I HAVE the honour to submit, under section 179 of the Road Cess Act, the Annual Accounts and the following Annual Report on the operations of the Moorshedabad District Road Fund during the past year from 1st October 1883 to 30th September 1884.

2. All members of the District Committee except four or five attended the meetings with reasonable regularity and some of the latter had good reasons for their not attending. No difficulty was experienced last year in securing a quorum except on one occasion only. The Statement A. is annexed to show the details of the meetings and attendance of members of the Sudder and Branch Committees.

3. There are three Branch Committees, namely at Jangipore, Kandee and Choa. As regards the Choa Branch Committee I repeat what was said last year that it is very irregular in submitting its accounts. This Branch Committee was not only irregular in this respect but the members of the Committee seem to have taken very little interest in their duties. The other two Branch Committies have worked well. The District Committee allotted a sum of Rs. 10,000 for repairs to village roads. The general distribution of the allotments for village roads and the expenditure of those allotments are believed to have given general satisfaction to the villagers concerned.

4. The maximum rate of cess was levied during the year. In the collection of the road cess great improvement was observable over past year. The percentage of collection was 99·49 exclusive of the arrears of the previous years.

5. As regards the nature of the feelings of the people towards the levy of the road cess it is believed that the people of this district have appreciated the benefit of the cess, and at the present time the district fund is providing labour for a number of indigent persons.

6. The establishment under the District Engineer and the Deputy Collector in charge of Road Cess appears to have worked only fairly well, the re-valuation work has not yet been completed, and a report will be made when it is finally accomplished.

## ORIGINAL WORKS.

7. A portion of the 15th mile of the Murcha road was carried away by the river Bhyrab, a new line of road was constructed a little north of the Tatoolia Bazar. Besides this one talwood bridge across Beesharpukhur Nulla and an inspection bungalow at Kandi were constructed during the year under report. The former was completed and opened to traffic and the latter was finished with the exception of fixing the doors. This has since been done. The Katigunga cut was also cleaned and sand bars and other obstructions from the bed of the drainage channel known as Sooty river were cut and removed to facilitate the discharge of water.

## REPAIRS

8. *Pucka road.*—There are about 26¾ miles of metalled roads maintained from Road Cess Funds of this district. Eight miles received an annual coat of metal three inches thick and the remainder were patched up and repaired.

9. *Kutcha roads.*—The total mileage of kutcha roads brought under the operation of Road Cess Act is some 575 miles. Of these 207½ miles are embanked and bridged and were kept in good repairs; 278 miles are embanked but temporarily bridged, and were also repaired throughout, and the remainder are unraised tracks which received the ordinary surface repairs.

10. *Drainage cuts.*—The two main drainage cuts that drain the bheels and low lands between Berhampore and Gobra Nullah were cleaned throughout and repaired.

11. *Village roads.*—The village roads under the Branch Road Cess Committees and under the Sudder Sub-Division were repaired and constructed as provided in the budget. Some of these roads are important and they are repaired every year.

12. *Tree planting.*—The fruit bearing trees planted by the sides of the roads, 47 miles in length, were regularly watered and protected at a cost of Rs. 499-15.

13. At a meeting held on the 26th July 1884, the estimate for 1884-85 was passed. The total income including the estimated balance has been set down at Rs. 85,204 and the expenditure at Rs. 71,129. A sum of Rs. 2,727 was allotted for original works and for maintaining trees planted along the roads. A sum of Rs. 40,648 was allotted for repairs to main roads and drainages and Rs. 10,000 were allotted for village roads.

H. TURNER,
*Chairman.*

*Report by the Members of the District Road Cess Audit Sub-Committee of Moorshedabad on an examination of the Road Cess Accounts under section* 179 *of the Road Cess Act.*

WE, the undersigned members of the Audit Sub-Committee, beg leave to report that we have examined the annual accounts of the Vice-Chairman for the road cess year 1883-84, as required in section 179 of the Road Cess Act, and found them to be correct.

P. B. ROBERTS, *Executive Engineer.*
RADHICA CHURN SEN.
RAM DASS SEN.

BERHAMPORE,
*The 30th October* 1884.

No. 9P.R., dated Calcutta, the 13th February 1885.

From—A. SMITH, ESQ., Commissioner of the Presidency Division,
To—The Secretary to the Govt. of Bengal, Public Works Department.

I HAVE the honour to submit herewith the annual accounts and expenditure of the road cess funds of all the districts of this division for the past cess year ending 30th September 1884, together with copies of the Administration Reports received from the Chairmen of the Road Cess Committees of those districts.

2. The total income of the several districts of this division, including the balance of the preceding year, amounted to Rs. 5,32,271 in the year under notice. Out of the total expenditure (Rs. 4,72,935) the sum spent on original works was but small, being only 12·12 per cent. of the total amount spent. This is owing to the insufficiency of funds generally in all the districts of this division. Most part of the income was absorbed in repairing and maintaining the existing roads, and sufficient money was not awardable to take up important original works. The 24-Pergunnahs and Moorshedabad spent a very small percentage of their total income in this direction.

3. The grants made by the several District Road Cess Committees for the improvement of village roads during the year under review, and the two preceding years, are as follows :—

| DISTRICTS. | 1881-82. | 1882-83. | 1883-84. |
|---|---|---|---|
| | Rs. | Rs. | Rs. |
| 24-Pergunnahs ... | None. | 11,000-12 | 12,387 |
| Nuddea ... ... | 15,376 | 6,265 | 5,132 |
| Jessore ... ... | 17,278 | 4,882 | 4,300 |
| Khoolna ... ... | ..... | 7,120 | 12,836 |
| Moorshedabad ... | 10,800 | 10,000 | 10,000 |

4. It is reported that the district and village roads have generally been kept up in a proper state of repair, and that fair progress has been made in tree-planting in all the districts.

## Proceedings of the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations.

*Saturday, the 28th March* 1885.

### Present:

HIS HONOR THE LIEUTENANT-GOVERNOR OF BENGAL, *Presiding.*
The HON. G. C. PAUL, C.I.E., *Advocate-General.*
The HON. H. J. REYNOLDS.
The HON. C. P. L. MACAULAY.
COLONEL the HON. S. T. TREVOR.
The HON. A. P. MACDONNELL.
The HON. C. B. GARRETT.
The HON. MOULVI ABDUL JUBBER.
The HON. KUMAR BAIKANTO NATH DE.
The HON. RAI JOY PROKASH LALL BAHADOOR.
The HON. G. IRVING.

### NEW MEMBER.

The HON. G. C. PAUL, Advocate-General, took his seat as a Member of the Council.

### REGULATION OF FERRIES.

The HON. MR. MACAULAY presented the Report of the Select Committee on the Bill to regulate Ferries in Bengal, and gave notice that he would at the

next meeting of the Council move that the Report be taken into consideration in order to the settlement of the clauses of the Bill.

## LOCAL SELF-GOVERNMENT.

The Hon. MR MACAULAY moved that the clauses of the Bill to extend the system of Local Self-Government in Bengal be considered for settlement in the form recommended by the Select Committee.

The motion was put and agreed to.

The HON. JOY PROKASH LALL moved to substitute the word "Board" for the words "Self-Government" in line 3 of section 1. He observed that, as he had said on the last occasion, the title of the Bill appeared to be a misnomer, and the hon. member in charge of the Bill was good enough to say that he would take this point into consideration. It seemed to him that "Bengal Local Boards Act of 1885" would be a suitable title, and would stand side by side with the Bengal Municipal Act of 1884, one working in the town and the other in the mofussil, and discharging almost the same functions. In the North-Western Provinces they had District Boards as well as Local Boards, and yet the Act was designated the "Local Boards Act." He hoped that this measure would ultimately lead to the revival of the old punchayet system which prevailed in early times.

The HON. MR. MACAULAY had nothing to say with reference to this motion, beyond that the fact that the North-Western Provinces having a Bill, which provided for the establishment of both Local Boards and District Boards, proceeded to call it the Local Boards Act, did not seem to him to be a sufficient reason for changing the title of this Bill. In this Bill the District Board was the unit on which the Bill proceeded; the question of Local Boards below the District Board was a subsidiary question. There might be districts in which there would be District Boards without any Local Boards, and therefore the title proposed would be a misnomer. He thought that the title of the Bill was the best available under the circumstances, although he himself was not wholly satisfied with it.

The motion was put and negatived.

The HON. JOY PROKASH LALL, by leave of the Council, moved the following amendments in sections 3 and 6 together:—

Insert the words "or Local Board" after the word "District Board" in line 8 of the first paragraph of section 3.

*Section* 6.—In line 1 of section 6, substitute "may" for "shall."

In line 3, substitute "any" for "every"

In line 4, substitute "shall" for "may."

In line 5, substitute "every" for "any."

Omit the proviso of this section.

These amendments, he said, were based on the consideration that the Local Board should be the unit of administration and not mere agents of the District Boards. From his experience as a member of a District Road Cess Committee and of Branch Committees, he saw that too much money and energy were spent to meet the wants of the people of the sudder station, or head-quarters of a district, while the wants of the inhabitants of the interior of the district were neglected. At or around the sudder station there would be found good metalled roads, but in rural villages there was hardly a road so to speak of, and in the rainy season the roads in some villages simply became impassable, though it was the agricultural population who chiefly paid the Road Cess. The time had surely come when the Government should look to the wants of the agricultural population; they required better roads for transporting the products of their lands to the chief marts of the country. The wants of the towns or sudder stations might well be left to the municipalities to attend to; it was the wants of the rural population that deserved greater attention of the Government officials. He thought that instead of centralizing all the executive work in the hands of the District Board, it would be better if it were distributed among Local or Sub-Divisional Boards all over the district. In almost every sub-division there would be found many intelligent persons on or near the spot who would be only too glad to undertake the work, and by establishing such "Local Boards" the scheme would be rendered a success. There would be a fair distribution of work,

while the local wants would be more sympathetically attended to than they could be by the District Board. The greater the area of action, the greater the prospect of utilizing the services of gentlemen possessed of local knowledge; what was wanted was that the funds at the disposal of the District Committee Boards, as in the Bill, should be spent by Local Boards and Union Committees. Let the District Board be the centre for supervision, control, and advice, and for doing such business as the Local Boards could not do, such as making railways, tramways, steam communications, or joining in joint Committees with other districts. The original Bill was framed in a more liberal spirit, but the present Bill was too narrow and had been generally condemned as such; any one who had studied rural life would find that there was a vast difference between the mode of living and thought of the town and village people. So if the whole administration was placed in the hands of the District Board, the scheme would. he feared, fail.

The HON MR. MACAULAY said he did not propose to follow the hon. member in all the remarks he had made, but he would merely point out that if the Council adopted the words of the amendment, the Bill would have to be reconstructed afresh, and there had been enough in the way of reconstruction of this Bill already, and he did not think anything had been said which would induce the Council to allow any more. It had been decided that it should be left to the District Board to determine and appoint the establishments to be employed under it, and that included establishments under Local Boards, Local Boards not being corporate bodies. In the same way, the duties and powers of Local Boards had not been detailed, as they were made the agents only of the District Board. But under the amendment it would be necessary to define separately the duties and powers, first of Unions, then of Local Boards, and then of District Boards.

The motion for the amendment of section 3 was put and negatived, and the motions for the amendment of section 6 were by leave withdrawn.

COLONEL the HON. S. T. TREVOR moved that in section 3, after the proviso of this section, the following further proviso be inserted:—

"Provided further that if such office shall be abolished or a new appointment made in respect thereof, compensation pension or gratuity shall be paid from the District Fund to any person not being a servant of the Government who may be deprived of such office, and the amount of such pension or gratuity shall be calculated in accordance with any rules made under the provisions of section 138 of the Cess Act, 1880; or if no such rules have been made, the amount shall be calculated in accordance with the rules regulating the payment of compensation pensions and gratuities to uncovenanted servants of the Government"

He said he did not think it was necessary for him to detain the Council by explaining this amendment at any great length. The object of the amendment was obvious on the face of it, namely, to provide for the payment of pension or gratuity by way of compensation for loss of appointment to any of the employés of the Road Cess Committees whose appointments might be abolished, or whose services might be dispensed with, under the operation of the new Local Self-Government Bill. He thought hon. members would admit that it was only fair and in accordance with the custom of the Government service that men should receive compensation when they were deprived of their means of livelihood without any fault of their own, and he imagined it was only by oversight that some provision of this nature was omitted from the original Bill.

The amendment which he was moving to introduce would, he trusted, have another effect besides providing for the payment of compensation to men who were deprived of their appointments. He trusted it would have the effect of making District Boards weigh carefully whether any man's discharge was really necessary under this Act—that it would make them reflect before burdening the District Fund with the payment of gratuities. He hoped when this Act came into force it would have the effect of giving something like permanence to the establishments of District Boards. Hitherto these Local Fund establishments under the Road Cess Committees had been in a very unsettled condition. They had had, as it were, a sword hanging over them for the last five years. The last Cess Act was passed in 1880, and section 132 of that Act provided that all the District Engineers appointed before it was passed should be required to vacate their appointments two years after the passing of the Act, *i.e.*, on the 1st October 1882; but that they should be eligible for re-appointment. Therefore,

all through those two years these gentlemen had lived in dread of being turned out of their appointments. Before those two years expired the new Local Self-Government scheme was started, so when the 1st October 1882 arrived, instead of being finally discharged or permanently re-appointed according to the intention of the Cess Act, it was deemed expedient to re-appoint them provisionally and as a temporary measure, subject to any change in the constitution of the office of District Engineer which might be decided on under the Local Self-Government scheme. He would read to the Council the circular which was issued at the time:—

"With reference to the circular from this office on the subject of the re-appointment of District Engineers in those cases in which the office would become vacant on the 1st October next under the provisions of section 132 of Act IX of 1880, I am directed to inform you that it is not improbable that some change will be made in the constitution of District Road Cess Committees by the legislation that will have to be adopted with reference to the Local Self-Government scheme now under consideration, and the Lieutenant-Governor therefore sanctions the re-appointment of the gentlemen named below, only as a temporary measure, subject to any change in the constitution of the office of District Engineer that may be decided on."

He might remind the Council that when the Local Self-Government Bill was originally introduced, it was in contemplation to abolish District Boards, and to make Local Boards the administrative unit; therefore at that time it seemed probable that the office of District Engineer would be abolished altogether. The present Bill, however, provided for a District Board and for District Engineers, and there was no reason why most of the present District Engineers should not be retained in their appointments At the same time he recognized the expediency of giving the new District Boards that were to be constituted under this Act the option of retaining the old men or appointing new. And so long as due care and discrimination were shown in the exercise of this option, and compensation was given to men whose services were dispensed with, he did not think there should be any reasonable grounds for complaint against the operation of the Bill.

He had had a statement prepared showing the strength of the Road Cess establishment, and he found the number of men employed to be 222. Of these 16 were Government servants, viz. 10 District Engineers and 6 subordinates; 4 were Government pensioners, viz. 3 District Engineers and 1 subordinate, and the remaining 202 were persons unconnected with Government. Of the latter, 29 were District Engineers, 137 were subordinates, and 36 were accountants. Now he ventured to hope that the great bulk of this large establishment would be re-employed by the new District Board. They had been working well and gaining experience, and it would be difficult to replace them. But there would be some few men, no doubt, whose services would be dispensed with, and they ought to be compensated. He found that none of the men had served so long as 15 years, which was the minimum service to entitle them to pension. They would, therefore, only be able to claim gratuity at the rate of a month's pay for every year's service. His reason for introducing into the wording of the amendment the expression "compensation pensions or gratuities" was that that was a sort of technical term used in the Civil Pension Code.

The amendment was put and agreed to.

The Hon. Kumar Baikanto Nath De moved that in line 3 of section 7 the word "fifteen" be substituted for the word "nine." He said that his object in proposing this amendment was to widen the basis of the District Board. A representative Board in a large district with only four elected members could not be strong, nor could it command that confidence of the community which it was desirable it should. The object of the Bill was to place a reasonable amount of power in the hands of the people, and this could not satisfactorily be effected if the number of their representatives was extremely limited. It was, moreover, well known that large communities could not exist anywhere without giving rise to parties more or less antagonistic to each other, and the selection of members from one or two parties out of several could not but give rise to very unpleasant consequences. This subject gave rise to much discussion in this Council when the Mofussil Municipal Bill was under consideration last year, and some places were deprived of the power of electing their own Chairman simply on the ground of the existence of

strong party feeling. The argument applied as much to District Boards as to Municipal Committees, and the best mode of overcoming the evil appeared to him to widen the field of election and to provide for the representation of all the leading parties. Moreover, the Bill was called Local Self-Government, and necessarily implied a wider distribution of power than what obtained before; and since the Road Cess Committees which the Board was to replace contained more members than nine in each place, it was but meet and proper that the Board should have a larger number than what obtained in those Committees. He admitted that the law fixed only the minimum number, and that it was left to the Government to permit a larger number; but it would be much more satisfactory to the people if the minimum were fixed by law at a higher figure. As the District Boards would be located at the sudder stations, and the class of men to be elected would be the same as that which represented the Road Cess Committees, he did not at all apprehend any want of qualified candidates, and the hon. member in charge of the Bill had already borne testimony to the readiness of the people to work for their common interest. He trusted therefore that hon. members would see no objection to the adoption of the amendment.

The Hon. Abdool Jubber said he objected to this amendment. There were many districts in Bengal in which it would be difficult to establish Boards of qualified persons if the number was raised higher. The section empowered the Lieutenant-Governor to fix any number he thought fit above the minimum, and he had every reason to believe that in fixing the number for each district His Honor would take all the circumstances into consideration.

The Hon. Mr. Macaulay said that, notwithstanding what had fallen from the hon. mover of the amendment, he was unable to accept it. He maintained what he said on a previous occasion regarding the interest which had been displayed by the people in the municipal elections which had taken place. But that did not touch the question at issue. As the hon. member opposite (Moulvie Abdool Jubber) had pointed out, the minimum number of nine had been fixed in reference to backward districts, and it was extremely likely that the number would be considerably raised in more advanced places under the discretion vested in the Lieutenant-Governor. He hoped this explanation would satisfy the hon. mover of the amendment.

The motion was put and negatived.

The Hon. Kumar Baikanto Nath De said that, since sending in the notice of the second amendment on section 7 which stood against his name, it had struck him that two of the provisos to this section might be allowed to stand. He therefore solicited His Honor the President's permission to take up his motion to omit the provisos separately. He objected to the first proviso, because it disqualified a district for election on the ground of some of its sub-divisions being in a backward state. This, it struck him, was not fair. There were unquestionably many good and trusty men in the sudder station of every district, and he saw no valid reason to deprive a district of the privilege of election because of the backwardness of some of its sub-divisions. The punishment at first sight also appeared heavy. Out of a total of 47 or 48 districts under the government of His Honor, only 17 he saw were declared to be fit for the extension of the principle of election, and 30 or 31 were put under an embargo. He confessed that his experience of the different districts of Bengal and Behar was limited, but from all he knew he could confidently assert that at least some of the excluded ones were by no means less advanced than those which had been favoured. For instance, he could conceive no principle of justice which would give the privilege of election to Baukoora and deny it to Mymensing or Bhagulpore or Gya. To the best of his information and belief, the last three were much more thickly peopled by wealthy, influential, and intelligent residents than the former. He held besides, as he had already stated in support of his first motion, that there was no sudder station where the principle of election could not be safely introduced, and he begged to propose therefore that the clog devised in the proviso under notice be removed.

The Hon. Mr. Macaulay said that the hon. member was under some misapprehension on two points. First he said it was not right that a district should be deprived of the privilege of election because some of its

sub divisions were in a backward state. But the hon. member had not observed that the first proviso only referred to districts in which there were no Local Boards. If there were any Local Boards in the district, then this proviso would not apply. The criticism that because one or two sub-divisions were precluded from having Local Boards, the district would be deprived of the privilege of election, was wholly erroneous. Then with regard to sudder stations, the hon. member said that, though the interior of a district might be in a backward condition, there were always in the sudder station many persons of intelligence and position who were fit to be elected. The question, however, was not whether there were people who were fit to be elected, but whether there were people who were fit to elect them, and the Government would be at least as well able to select members to serve on the Board as a number of ignorant people who had probably never heard the names of half of them.

The motion to omit the first proviso to section 7 having been put to the vote, the Council divided:

| *Ayes* 2. | *Noes* 9. |
|---|---|
| The Hon. Kumar Baikanto Nath De. | The Hon. Mr. Irving. |
| The Hon. Joy Prokash Lall. | ,, Moulvie Abdul Jubber. |
| | ,, Mr. Garrett |
| | Col. the Hon. S. T. Trevor. |
| | The Hon. Mr. MacDonnell. |
| | ,, Mr. Macaulay. |
| | ,, Mr. Reynolds. |
| | ,, the Advocate-General. |
| | ,, President. |

So the motion was negatived.

The Hon. Kumar Baikanto Nath De moved that the second proviso of section 7 be omitted. Its governing principle, he said, was the proportion of "one-half," and that he thought was objectionable. It made the whole scheme of Self-Government a mockery. With a clear majority of official or appointed members, there could be nothing of "self" left in the scheme. He was sure it was His Honor's wish to give some administrative power to the people, and not to make them appear on the Board as mere dummies; and seeing that His Honor had already extended the proportion of two-thirds to the case of municipalities, he hoped His Honor would see no objection to the omission of this proviso which he proposed in order to clear the way for the proportion of one-third for official members which he intended to move in connection with the last proviso of the section under notice. He believed that the security for the due discharge of business would depend entirely on the rules which the Lieutenant-Governor would frame under section 135, and it would be in reality be quite immaterial whether the relative proportion were one-third or one-half. Everything would depend upon the length of the tether which His Honor would permit; but in the face of the ostentatious name of "Self-Government" he thought it would look well if the proportion he proposed were adopted.

The Hon. Mr. Reynolds observed that the hon. member had overlooked the fact that the proviso required that *not less* than one-half the members should be elected; that would really admit of the whole number of the Board being elected if the Lieutenant-Governor thought fit.

The Hon. Mr. Macaulay said that the hon'ble member who had moved the amendment had probably overlooked the fact that the effect of omitting this proviso would be to remove the safeguard that at least one-half of the Board must consist of elected members wherever Local Boards had been established throughout the district. As had already been pointed out, it would be quite possible that under this provision all the members of a District Board might be elected, and it would no doubt be the object of the Government to work up as far as might be feasible to that point. The object here was to secure at least one-half of the members being elected, and the Government might work up to as large a number as might be found practicable.

The motion to omit the second proviso was put and negatived.

The Hon. Kumar Baikanto Nath De by leave withdrew the motions, of which he had given notice, to omit the third and fourth provisos of this section.

The HON. KUMAR BAIKANTO NATH DE moved that in the fourth proviso of section 7 the words "one-third" be substituted "for one-half." After what he had said as to the relative proportion of official and non-official members, he need not take up the time of the Council by saying anything in support of this motion.

The HON. MOULVIE ABDUL JUBBAR opposed this amendment. He observed that salaried servants of the Government had generally better knowledge of local affairs and of the requirements of the district in which they were employed than other persons, and if a further restriction was put on their appointment, it would deprive the District Board of some valuable members: the District Superintendent of Police, the Civil Surgeon, and the Deputy Collector in charge of the road cess would be useful members of District Boards.

The HON. MR MACAULAY pointed out what would be the practical result of this amendment if it were carried out. It would be observed that at least one-half of the members of the District Board would be elected. If the amendment was carried it would necessarily follow that only one-sixth of the total number of members might be salaried officers of the Government. Where, for instance, the Board consisted of 15 members, under the operation of the proposed rule only two could be salaried officers of the Government. In working the section of the Municipal Act after the recent elections, even the restriction there had been found in some cases just as much as the Government could manage to work with, and had the restriction been greater they would have been compelled to exclude Civil Surgeons, the head masters of schools, and others possessed of local knowledge and held in respect in the district. Even as this Bill stood, only two out of 15 members would probably be salaried servants of Government, and the effect of the amendment would be to compel the Government to proceed more cautiously in increasing the number to be elected. He did not know whether the hon. member had considered the effect of the amendment he proposed. It would affect seriously the working of the Board and tie the hands of the Government in respect of the further application of the principle of Local Self-Government.

The motion was put and negatived.

The HON. KUMAR BAIKANTO NATH DE by leave withdrew the motion, of which he had given notice, to omit the words "if any" in the penultimate paragraph of section 7.

The HON JOY PROKASH LALL by leave withdrew the motions, of which he had given notice, for the amendment of section 7.

The HON. MR. MACDONNELL moved to substitute in clause (*c*), section 9, the words "five hundred rupees" for the words "two hundred rupees," and in sub-section 3 of the same section to omit the words "or holds a certificate as a pleader or mukhtear." He said that perhaps it would meet the wishes of the Council, as he thought it would facilitate business, if he explained once for all the reasons which induced him to bring forward both these amendments. Both were based on the same principle and both had the same object in view, namely, the restriction of the franchise, as far as Local Boards were concerned, to the more substantial members of the community. Perhaps he might be permitted to explain that it was through no feeling of opposition to the principle of the Bill that he moved these amendments. Indeed, he might say that he accepted the principle of the Bill as wise and statesmanlike under the present circumstances of these provinces. He might also be permitted to say that he had always endeavoured, while in charge of a district, to give to the principle of local self-government as large a development as under the circumstances it was possible to give it. His hon. friend in charge of the Bill, when presenting the Report of the Select Committee, paid him a compliment upon that point which, looking to his (the speaker's) attitude in respect of this provision of the Bill, he might without egotism appropriate to himself. Therefore he came before the Council with a certain recommendation as having himself always been in favour of the principle of Local Self-Government and having thought that its development was called for by the circumstances of the time. It was because he thought that section 9 of the Bill did not give to the principle the fullest measure of fair play that he proposed his amendment. The strongest arguments which had been advanced both in that Council and in the public press against the principle of Local Self-Government were in the nature of appeals to

the backwardness of the classes whom they were inviting to assist them in managing their own affairs. Race hostility, caste distinctions, class differences, all these had been appealed to as reasons for not giving effect to this generous policy. He was quite aware that there were some gentlemen who despised warnings of this sort and who drew their inspiration more from the liberalism of the west than from the lessons to be gained from the history of their own country during centuries of despotism and unawakened political intelligence It was true that many changes were going on around them; old methods of thought were yielding place to new ideas, old habits and customs were being transformed under the salvents of modern progress. If this Council were worthy of the position which they held, they must also advance with the times. But to whom were they to appeal to nurse this new life to a healthy and robust maturity? Were they to appeal to those who as yet themselves felt no throbbings of the new life or saw no flush of the new dawn in the intellectual sky? Were they to appeal to those raiyats who with difficulty earned a precarious subsistence from a constantly diminishing modicum of land? Were they to appeal to the multitude to whom knowledge was yet a sealed book? It was because the answer to these questions should be given in the negative that he brought forward this amendment. He thought that the Road-Cess qualification of Re. 1 was a good qualification. He was once disposed to think it too high, but on consideration he thought it the best they could adopt; for if a man paid Re. 1 Road Cess he must pay Rs. 64 rent, and that implied, on the average of rent payable in these provinces, a holding of 20 acres of land. The net income of the ryot holding 20 acres of land would not on the average be less than Rs. 400 per annum; for the gross value of the produce in grain or cereals of an acre of land was usually about Rs 40 while the cost of production need not be taken at more than half that sum. The net profit would thus be Rs. 20 per acre or Rs. 400 for a 20 acre holding. A ryot with such an income would be a respectable, substantial man, and you could ask him to vote. In like manner the license-tax qualification was also fair, as it represented an income of Rs. 500. There was, however, a third qualification of Rs. 240, which Mr. MacDonnell did not think justifiable. For not only did he think that there should be a uniformity in the qualifications; but he also thought it essential that no qualification should have the effect of neutralizing another. If the receipt of an income of Rs. 500 was considered necessary in the cases already mentioned, this Rs. 240 qualification should be increased. If an income of Rs. 240 was sufficient in this case, then the others should be lowered. Uniformity in the qualifications being desirable, he thought they should rather level up than level down. These qualifications were maxima. The Lieutenant-Governor retained the power of reducing them if necessary, and he would remind the Council that it was much easier to advance in a matter of this description than to go back. If it was found that the experiment answered all expectations, it would be easy to lower the franchise; but it would be an invidious task to raise it, even should the experiment prove unsatisfactory. It would be better, therefore, to proceed cautiously, to appeal in the first instance to a high class of intelligence and stake in the country, and, if that answered expectations, to lower the franchise afterwards. That was the course which had been followed in England. The franchise was at first given to, comparatively speaking, a few. It was extended to a larger number as the country advanced in prosperity and general enlightenment. These were the grounds upon which he (Mr. MacDonnell) based the first portion of his motion. He understood from the hon. member in charge of the Bill that one reason for the qualification of Rs. 240 was that, if it was not retained, a very respectable class of Government pensioners would probably be excluded. That was not an argument or an objection which struck Mr. MacDonnell at first; but he was willing to confess that it deserved attention, and if he was not out of order, he would propose to meet it by adding to the Rs. 500 qualification the words "or having been in the public service had drawn a salary from the State of Rs. 500 during the three years preceding his retirement." This would bring in the Government pensioner who, in his experience, exercised a healthy and wholesome influence in the district. On this point he could speak from personal experience as Collector of Sarun, from which district a number of recruits for the army was drawn. Native Officers after retirement settled down and held a

most respectable position, and it was desirable on every ground that such persons should possess the franchise. It certainly might be said with truth that such native officers did not depend on their pensions alone; they held land, and possibly would have a vote even under a Rs. 500 qualification; but he (Mr. MacDonnell) was willing to make sure that they should have votes even if for that end it was necessary to go below a pension of Rs. 20 per month.

With regard to pleaders and mooktears he admitted that a University degree was a proper qualification; but he did not see why because a man was a pleader or a mookhtear, but not a graduate, he should have the franchise. He need hardly say that he held the legal profession in respect, but he thought that if the educational qualification did not apply, legal practitioners should be subject to the money qualification of Rs. 500, which would suffice to include all the respectable members of the profession. He saw no reason why a mookhtear, independent of the amount of his earnings, should be admitted and not a native doctor or a school-master who did not happen to be a graduate. Under these circumstances, he thought that the franchise was being unduly lowered by admitting, irrespective of any property qualification, particular classes of persons, whose characteristics might be empty pockets and glib tongues. He put it to the Council that in this first experiment they ought to appeal to the intellect and substantial interests of the country, and when they found that succeed then to appeal to a wider constituency.

The Hon. Moulvie Abdul Jubber observed that for the sake of avoiding inconsistency he was of opinion that the first amendment proposed by the hon. member ought to be made.

The Hon. Mr Macaulay said he was sure other hon. members, in common with himself, had listened with much interest to the warning which the hon. mover of the amendment had given them, and to the arguments which he had adduced in support of his amendment, but he thought that those remarks ought properly to lead to a different conclusion. He understood the hon. member maintained that in the essay the Council was making they should look for support to the intelligence and education of the country, and if his remarks had been followed by an amendment to raise the qualification for cultivators, Mr. Macaulay could have understood them; but the key-stone of his argument was uniformity as regards the actual amount of income. His argument was that because, under the property qualification for road cess, a man was supposed to earn about Rs. 500 a year, and because under the minimum for license tax he was also earning Rs. 500, therefore the Council should fix a qualification of about Rs. 500 for incomes from other sources. Mr. Macaulay might explain that the object of the Select Committee in taking payment of license-tax as a qualification was to make it easy for all but petty traders to claim the right to vote without going through a fresh process of proving income, a process from which they would shrink and which they would certainly regard with suspicion. Had it not been for that, we could have recognized two classes of income only—income from land, and income from other sources than land. And he maintained that it was not only unobjectionable but most appropriate that they should recognize a difference in the sources of income, and say that a lower income should be admitted as a qualification in regard to the second class of incomes than in regard to the first. What we desired to secure in our voters was local knowledge and interest, and intelligence. It had been considered that if a man derived about Rs. 500 a year from land he had a local interest so substantial that he could be admitted to the franchise without further enquiry as to intelligence. But there was another class whose income was supplemented by their intelligence. His hon. friend had recognized this in his reference to Government pensioners. But there were others. Mr. Macaulay maintained that if a man earned Rs. 240 a year by the exercise of his faculties, whether as a clerk or the lessee of a ferry, or if he had come into possession of Government securities which gave him an income of Rs. 240 a year, such a man certainly was as well qualified to vote for a member of a Local Board as a respectable ryat who earned Rs. 500 a year by driving a pair of bullocks across 20 acres of land. Any proposal made for uniformity would have the effect either of making the one qualification too high or the other too low. If the qualification from sources other than land was fixed at Rs. 500, then the qualification from land would have to be raised

to Rs. 1,000. From this point of view MR. MACAULAY would not have so much objection to the amendment of the Hon. Joy Prokash Lall as to the amendment now before the Council, because it would always be in the power of Government to reduce the limit of income which it would contemplate. It seemed to him that the income qualification from sources other than land should certainly be lower than that from land, and that the very uniformity for which the hon. member pleaded was the strongest argument against it.

With regard to the second amendment, MR. MACAULAY observed that this was a question not of a person filling the responsible position of a member of a Board, but of exercising the faculty of discernment in voting, and he did not think it was safe to say that a pleader or mookhtear was not fit to vote because he was not earning Rs. 40 a month. The policy of an educational qualification, coupled with some guarantee of local knowledge and interest, had been deliberately adopted, and he submitted that a man who had been able to secure a certificate as a mookhtear or pleader might fairly be considered intelligent enough to give a vote. For these reasons MR. MACAULAY was unable to support the amendment.

The HON. MR. MACDONNELL said he did not think the main argument had been touched. His main argument was that this was an experiment, and it being an experiment, the Council ought to proceed as cautiously and as tentatively as was consistent with the object of giving a fair measure of representation. He had pointed out that they were in the dark as to the success of the experiment. His hon. friend, in the course of a previous debate, referred to the success of the municipal elections. MR. MACDONNELL admitted that the municipal scheme, as far as it had gone, had been successful, but it had only been in operation a few months, and it was rather early to claim perfect and entire success such as would justify the extension of the franchise to the large classes included in this Bill. He maintained that a man who earned Rs. 20 a month, not from trade or agriculture, but by the exercise of his wits, was not a man who should be allowed the franchise.

[The HON. MR. MACAULAY observed that there was no reason why it should not be drawn from trade. The license-tax qualification had been adopted for the purpose of bringing in a particular class of traders, but other traders could come in under clause (*c*)].

The HON. MR. MACDONNELL continued.—Then the sweetmeat-seller or huckster at the corner of a street, who knew nothing about the requirements of the district, would be admitted to the franchise. They should have persons who had a substantial stake in the country, who were intelligent, and who could be expected to exercise the right of voting properly. Of course his hon. friend said it was merely giving a vote, but in doing so the voter exercised a responsible function, and the Council ought to see from *à priori* reasons, where practical experience did not exist, that he was in a position to exercise the function properly.

The HON. MR. MACDONNELL'S amendment on clause (*c*) of section 9 having been put to the vote, the Council divided:—

The motion was negatived.

The HON. MR. MACDONNELL'S amendment on sub-section (3) of the same section was put and negatived.

The HON. JOY PROKASH LALL moved that in qualification (2), clause (*a*) of section 9, the words "three rupees" be substituted for "one rupee;" and that in the proviso of section 13 the words "who holds a respectable position in society and" be inserted after the words "twenty-one years;" also that in

qualification 2', clause (*a*), of the same section, for "five rupees" the words "ten rupees" be substituted, and in clause (*c*), for "one thousand," the words "two thousand" be substituted. He thought that by raising the qualification for voting, the services of the really respectable and intelligent classes of the people would be secured. It was no use in the present state of society to make the qualification so low. As regards the qualification for elected members, respectability and education should be the chief elements, otherwise the whole scheme would be looked upon with indifference and disfavour by the respectable and educated classes.

The HON. MR. MACDONNELL asked the hon. member how he would define "respectability" "Gigs" were not, as far as he knew, used in Behar. Would the hon. member then substitute the national "ekka," and thus adhere to the well known definition.

The HON. JOY PROKASH LALL replied that he meant to refer to people who, according to native ideas, held a respectable position in society.

The HON MR. MACAULAY said that throughout the discussions which had taken place of late on the policy of this measure there had been a tendency, he regretted to say, to regard education as anything but a guarantee of respectability. The hon. member had disclaimed wealth as affording such a guarantee, and unless he meant some fixed length of genealogical tree it was not easy to see what he meant by a "respectable position in society." But the practical question was contained in the second amendment on section 13. His hon. friend opposite (Mr. MacDonnell) who was able to speak with authority on the subject, had told the Council that the payment of road cess to the amount of one rupee represented an income of about Rs. 500 from land, and therefore the payment of Rs. 10 road cess would imply an income of about Rs. 5,000 from land. How many gentlemen qualified by leisure and education to hold the position of a member of a District Board would be found to derive an income of Rs. 5,000 a year from land? The question was whether such a provision would not discredit the whole Bill.

The motions were severally put and negatived.

The HON. MR. MACDONNELL moved that in sub-section (3) of section 13 the words "or holds a certificate as a pleader or mookhtear" be omitted. As he had already expressed his views upon the point, MR. MACDONNELL would not detain the Council further than to point out that a qualification which might be thought a desirable qualification for voting was not necessarily a desirable qualification for the membership of the Local Board. A higher grade of intelligence and a larger stake in the country were necessary in this experiment for members than for voters.

The HON. MR. MACAULAY observed that the education and property qualifications should be taken to hang together. If it was proposed here to make education pure and simple a qualification for election, he would have supported this amendment, but the principle was that with the property qualification there should be intelligence to fit a person for being a member of a Board; and having accepted that principle, it was thought that a man qualified educationally in a certain way and also qualified in the other way by being a member of a joint undivided family, should be held to be eligible for election. If property was taken as the basis it was only logical to say that education added to it was sufficient. He thought there would be a danger of injuring to a considerable extent the success of the measure if they adopted anything which would tend to exclude pleaders from serving as members of the Board.

The HON. MR. MACDONNELL was disposed to confine his amendment to the exclusion of mooktears if that would induce his hon. friend to accept it. It was true that the older class of pleaders were not always graduates, but the younger race of pleaders were usually graduates, and this taken in conjunction with the joint family qualification would go a long way to secure local interest and intellegence. But as to mookhtears, in his experience they were not well educated, and very many of them were impecunious men of no standing in or credit to their profession. He would with the permission of the Council confine his amendment to the omission of the words "or Mooktear."

The motion having been put, the following votes were recorded—

| *Ayes* 3. | *Noes* 8. |

So the motion was negatived.

The Hon. Mr. Macaulay moved that the following proviso be inserted after the proviso contained in section 15:—

"Provided that the Lieutenant-Governor may, at any time in regard to any Local Board, direct that two-thirds of the members of such Board shall be elected under the provisions of sections nine, ten and thirteen, and that one-third shall be appointed under the provisions of section 11."

He said it was intended that the proportion of one-half Government servants should only apply to cases where all the members of the Local Board were appointed. This amendment was proposed after consideration by the Lieutenant-Governor, and if it was adopted it would do away with a great deal of difficulty in regard to the scheduled districts. Some districts had been omitted from that schedule because, as all the Local Boards would hold together, the Lieutenant-Governor would be compelled to give the elective franchise to all the Boards in a remote district if he gave it to any; other districts had been included, although one or two sub-divisions in them were not so advanced as the others. The effect of the amendment would be that whenever the Lieutenant-Governor was satisfied that any sub-division of a district was fitted for the exercise of the elective franchise, he might bestow the privilege on that sub-division without waiting until the whole district was prepared for it.

The motion was put and agreed to.

The Hon. Joy Prokash Lall by leave withdrew the motion, of which he had given notice, to substitute "one-third" for "one-half" in the proviso of section 15.

The Hon. Kumar Boikanto Nath De moved that in the proviso of section 15 "one-third" be substituted for "one-half." He said that the arguments in favour of this amendment were the same as those which he had urged in support of his last amendment.

The Hon. Mr. Macaulay explained that this section applied only to the case of backward districts, in which the Government appointed all the members of the Local Board.

The motion was put and negatived.

The Hon. Joy Prokash Lall by leave withdraw the motion, of which he had given notice, that the words "but such term shall not be less than three years" be inserted after "relation" in the last line of paragraph 2 of section 16.

The Hon. Joy Prokash Lall moved that in section 17, line 10, the words "and shall not be re-elected until the expiration of the term for which he would have held the office but for his resignation" be omitted. This restriction, he said, was unnecessary, because when a man had resigned of his own accord and was again willing to serve and people chose to re-elect him, he did not see why such a person should be debarred from serving again.

The Hon. the Advocate-General considered the restriction was very necessary. On a recent occasion he thought that, according to his interpretation of the Calcutta Municipal Act, the gentlemen who had resigned ought not to have been re-elected. When a person capriciously resigned, and then wished to put himself forward for re-election, he considered such a restriction a very wise and sensible one: it would induce persons to think and reflect before they acted.

The motion was put and negatived.

The Hon. Kumar Baikanto Nath De moved that in clause (*a*) of section 18 the words "shall have been sentenced to imprisonment by a Civil Court" be substituted for the words "is convicted of any such offence or subjected by a Criminal

Court to any such order as in the opinion of the Lieutenant-Governor unfits him to be a member." He said the object of this amendment was to give perfect assurance that the tenure of office of the elected members should depend upon well-defined laws and not on the discretion of local officers. He used the phrase "local officers" advisedly. He was well aware that the clause as worded in the Bill left it to the discretion of the Lieutenant-Governor to decide what particular order of a Criminal Court should be held a disqualification for service on a District Board, and he had the firmest conviction that His Honor would take the most lenient and generous view of every case. Far be it from him to entertain even the shadow of a doubt in such a case. But His Honor would, he was sure, pardon him if he urged that it would not lie in his power to devote that attention and that personal knowledge to matters of this kind which might be necessary. It would be impossible in His Honor's exalted position for him to have any personal knowledge of members of Local Boards, and His Honor must be guided by local reports, perhaps of officers of no higher rank than a Deputy Magistrate of the fifth or sixth grade. Such reports could not always afford that sense of security which was essential to an honest, conscientious and independent discharge of duty. As a matter of fact, the security might be perfect, still the sense of its existence would be wanting. It was well known that, notwithstanding the utmost anxiety of Government to prevent the dismissal of clerks on frivolous or insufficient grounds, and the repeated orders and circulars which had been issued from time to time, many people did suffer the heavy punishment of dismissal for small or trivial faults. Such an occurrence in an honorary elected office would deter all good men from offering themselves as candidates and undergoing the trouble and expense of canvassing. If the experiment was designed to be successful, it should be ushered in in such a way as to induce good and able people to come forward, and all cause of apprehension should be carefully avoided. The odium of expulsion was great, and it should not be allowed to be inflicted on any one without a sufficient and well-defined cause, and the clause as it now stood did not provide this. He resorted, therefore, to the wording of the Municipal Act of 1863, and the two Calcutta Municipal Acts, which defined the offences very clearly and could not lead to any misapprehension. They had worked satisfactorily for a quarter of a century and were well understood by the people, and there was no valid reason for setting it aside in favour of pure official discretion. He begged to recommend the amendment to the approval of the hon. members of the Council.

The Hon. Moulvie Abdul Jubbeb said he was against the amendment. The hon. member did not mean to say that a member of a Board who was convicted of theft should continue to hold office if he was not sentenced to imprisonment. There were offences which came under the category of felony in regard to which the law gave the Court a discretionary power of punishment by fine.

The Hon. the Advocate-General observed that the object of this provision was to enlarge the scope of action: very often a man who had really committed an offence for which he was liable to imprisonment got off upon some technicality: in such cases the Lieutenant-Governor, looking at all the circumstances of the case in a broad view, would exercise the discretion which this section was intended to give him. But in such cases, he thought, the person accused should be allowed to show cause or justify himself.

The Hon. Mr. Macaulay said the question was whether the words "in the opinion of the Lieutenant-Governor" did not imply that he should make an enquiry.

His Hon. the President observed that the Government every day had to deal with cases of this kind,—cases in which a public officer on trial had been acquitted before a Criminal Court, but in which the department representing the matter considered that the person concerned ought not to be retained in the Government service,—cases in which where, although guilt had not been legally established, the moral charge was so strong that in the public interests the Government did not consider it proper to retain the services of such an individual.

The motion was put and negatived.

On the motion of the Hon. Mr. Macaulay the words "formed after due enquiry" were then inserted after "Lieutenant-Governor" in clause (*a*) of section 18.

The Hon. Joy Prokash Lall by leave withdrew a similar motion on the same clause of which he had given notice; also the notice of motion to insert the words "not being later than six months from the date when this Act receives the assent of the Viceroy and Governor-General" after "behalf" in section 21.

The Hon. Kumar Baikanto Nath De moved that the words "elected by the members of such Board from among their own number, subject to the approval of the Lieutenant-Governor," be substituted for all the words after the words "appointed by." in section 22. He said that in moving the next amendment he felt somewhat at a disadvantage. He had lately noticed in the local papers some discussion on the subject, and the official impression seemed to be that the Secretary of State insisted upon the clause as it stood. The Government despatch on the subject and the Secretary of State's reply thereto had not, however, been laid on the table of this Council, and he knew nothing about them. He was disposed to think, however, that the Secretary of State's orders were not positive, and that the matter had been left entirely to the discretion of the Lieutenant-Governor. This was obvious from the wording of the section. It said "the Chairman shall be appointed by the Lieutenant-Governor, or, should the Lieutenant-Governor in any case so direct, be elected by the members." That was not the language of positive order, but of discretion, and that being the case, he solicited His Honor to extend the same privilege to District and Local Boards that had already been bestowed on Moffusil Municipalities. The class of people concerned was the same; the interests involved were very much alike; and there was no reason, therefore, to apprehend any evil in the case of Boards which could not have been apprehended in regard to Municipalities. The testimony already repeatedly borne by the hon. member in charge of the Bill was in favour of this assumption.

The Hon. Mr. Macaulay said the hon. member wished the Council to understand that the moving of this amendment was dependent upon a question of fact,—namely whether or not the instructions of the Secretary of State on this point were definite. He would tell the hon. member that the precise words used in the letter from the Government of India informing the Lieutenant-Governor of the decision of the Secretary of State were—"It will therefore be necessary to provide in the Bill that the Chairman of the District Board may be either appointed by the Local Government or elected by the Board as the Local Government may, in the case of each district, think fit to order;" and those words were introduced into the section as far as legal phraseology would permit.

The Hon. Kumar Baikanto Nath De then by leave withdrew the motion.

The Hon. Joy Prokash Lall by leave withdrew a similar motion on the same section of which he had given notice.

The Hon. Joy Prokash Lall moved that the words "two years" be substituted for "one year" in paragraph 1, line 2, of section 24. He said that the period for serving on the Board should not be so short. It was only after some time that a member might expect to master the details of the work, and by the time he had made himself familiar with them he would have to vacate his post. The short-service system was unknown in India; people were in the habit of carrying on the same business from generation to generation. He thought the term of appointment of a Chairman should be not less than two years.

The Hon. Mr. Macaulay said he did not know whether the hon. member apprehended the result of his amendment. This referred to an appointed Chairman, and there was nothing to prevent the Lieutenant-Governor from re-appointing him. If he was appointed for two years, an elected Chairman could not be allowed within that time.

The motion was put and negatived.

The Hon. Joy Prokash Lall moved that the words "subject to approval by the Lieutenant-Governor" in paragraph 1 of section 25 be omitted. He said that in the Local Self-Government Acts for the North-Western Provinces, Punjab, and the Central Provinces, he did not find that the election of a Chairman of a Local Board was made subject to the approval of Government. He therefore asked for the withdrawal of this restriction.

The Hon. Mr. Macaulay said that an instance had recently occurred in which the Lieutenant-Governor found it necessary to exercise the discretion vested in him by the Municipal Act; and if that was the case in regard to Municipalities, he apprehended it was more necessary in the case of Local Boards.

The motion was put and negatived.

The Hon. Joy Prokash Lall by leave withdrew the notice of motion for the omission of the first proviso of section 33.

The Hon. Joy Prokash Lall moved that in the second proviso of the same section the word "twenty" be substituted for "twenty-three." He thought the maximum amount of 20 per cent. would be sufficient. Highly paid Engineers would not be required in every district: the District and Local Boards might be allowed to manage the business economically.

The Hon. Mr. Macaulay said he was advised by his hon. friend Colonel Trevor that the adoption of this amendment would not lead to any great inconvenience, as it really represented the actual fact.

The motion was put and agreed to.

The Hon. Joy Prokash Lall moved that in the proviso of section 46 the words "unless a resolution in favour of such lower rate shall have been carried by the votes of not less than two-thirds of the whole District Board" be substituted for the words "without the sanction of the Lieutenant-Governor." He contended that the local authorities would not be willing to reduce the rate of road cess, because they were bound to find the money to meet the demands imposed upon them by this Bill, but they would not like to be told that they could raise the cess, but not reduce it without the sanction of the Lieutenant-Governor. The amendment now proposed would be a sufficient safeguard against the cess being unnecessarily reduced.

The Hon. Mr. Macaulay said he did not know whether the hon. member had considered that the power to reduce the cess was really a crucial question. He had already stated—and he appealed to native gentlemen and officers to say whether it was not the fact—that in no district was the cess sufficient, and it was not likely to be so for a generation or two to come. He had appealed also to his own experience as Financial Secretary to the Government for the last five years, during which time nearly every district, and some districts more than once, had applied for grants-in-aid. There were two essential safeguards provided,—one in respect of direction, which the Government of Bengal was required to make; and the other in relation to the provision of funds. If this amendment was carried, he would be obliged to ask the Council to postpone the motion to pass the Bill, because it would be absolutely necessary to reconsider the whole of its proposals.

The motion was put and negatived.

The Hon. Joy Prokash Lall moved that in line 8 of the first paragraph of section 48 the words "or when the Committee declines to make such modifications, and shows reasons for adhering to its former decision, on receipt of such estimate so re-submitted, the Commissioner may either sanction the estimate or may submit it, together with the reasons recorded by the Committee and his own remarks thereon, to the Lieutenant-Governor for final disposal," be inserted after the word "made." He considered it desirable that the budget prepared by the Board should be subject to alteration by the Lieutenant-Governor only, and by no other officer.

The Hon. Mr. Macaulay said that the section as it stood followed the Municipal Act. He did not think that he could say it was unnecessary with regard to District Boards elected by large constituencies, of which there had been no experience yet.

The motion was put and negatived.

The Hon. Mr. Macaulay moved that the words "all receipts in respect of public ferries" be substituted for the words "the proceeds of public ferries" in clause (4) of section 52. The proceeds, he explained, would be the rates at which ferries were farmed out; but there would be other receipts in the way of fines and the like, which ought to be applied in the same way.

The motion was put and agreed to.

COLONEL the HON. S. T. TREVOR moved that the words "under section 3 and section 35" be substituted for "to such establishment" in line 4, clause (4) of section 53. This, he said, was simply a corollary of the amendment which had been made on his motion in section 3. It was to provide for the application of the district fund to pensions and gratuities.

The motion was put and agreed to.

The HON. MR. MACAULAY moved that the words "any municipal authority or local authority" be substituted for the words "the Lieutenant-Governor" in clause (8) of the same section. This, he observed, was a purely verbal amendment to bring the section into correspondence with section 81, which referred to debenture loans raised by the Government of India or by any municipal authority or local authority.

The motion was put and agreed to.

The HON. JOY PROKASH LALL moved that for clause (2) of this section the following be substituted :—

"Ten per cent. of the net proceeds of the road cess towards the cost of making village roads and improving the sanitary condition of the village."

He said the chief reason why he proposed to give 10 per cent. of the net produce of the road cess was that it would at least ensure the repairs and construction of the roads which the people of the Union Committee would urgently require, and also to enable them to improve the sanitary condition of the village in which they resided. If Local Boards were not to have their whole income, or even the bulk of it, let the Union Committee have at least a fair share of the funds, say 10 per cent. of the cess paid by them. This, he thought, demanded the indulgent consideration of the Council.

The HON. MR. MACAULAY said he was sensible of the importance of doing all the Council could to improve the position of village communities, and of doing all they could for village roads. But it should be considered that under clause (1) the Union Fund got the proceeds of village pounds. He did not think they should go further and say that they should get 10 per cent. of the net proceeds of the road cess. If the Union Committee was not properly treated, they should take care to send other representatives.

The HON. MR. MACDONNELL said he entirely sympathized with the object of the amendment. Every district officer felt the necessity of spending money on district roads; but the effect of the amendment would be to tie the hands of the District Board, because there were some villages which did not require so much as 10 per cent. of the road cess, while others wanted more. The Board would have to take into consideration the whole of the wants of the district.

The motion was put and negatived.

The HON. JOY PROKASH LALL moved that the following further proviso be added to section 62 :—

"Provided also that nothing contained in this section shall be held to make the district fund liable for the expenses, if the Government does not provide adequate funds for these purposes"

He said there was no doubt that Government would contribute from the provincial revenue to the district fund towards the cost of primary education and dispensaries, but in the absence of any express provision in the Bill declaring that the Government should place an adequate fund at the disposal of the Board for the purpose, people might think that the whole cost on account of primary schools and dispensaries would be some time or other thrust on them.

The motion was put and negatived.

The HON. JOY PROKASH LALL by leave withdrew the notice of motion to add the following proviso to section 66 :—
